- home built in early 1800s
- one of three Locke homesteads on Locke Road
- Owner, Kurt Jackson gave us a thorough tour, including the basement.'
- He plans on maintaining the barn, but wants to take down the house to reposition a new home more centered on the lot and back from the road.
- After much discussion, he is willing to give the house to anyone who will move it.
- D. Choate will ask Steve Bedard of Bedard Preservation to visit it to make sure it is 'movable'.
- The DRC members need to meet to determine the importance and significance of the house at their next meeting.
