

PREPARING FOR CLIMATE CHANGE IN RYE

GAINING INSIGHTS AND CHARTING A COURSE

How might sea-level rise, storm surge, and changes in temperature and rainfall affect our community? Join fellow residents for the first of a series of informative workshops to explore these questions and begin identifying steps to prepare for climate change in Rye.

TUESDAY

April 1, 2014

6:30-8:30PM

**Rye Junior
High School
(cafeteria)**

WORKSHOP AGENDA:

Introductions and overview of the project purpose and goals

Presentation about climate change in New Hampshire by Dr. Cameron Wake (UNH)

Interactive discussion in small groups to identify potential risks and impacts to the community

Next Steps and Future Workshops

To help us plan for space and refreshments, please let us know if you will attend.
