

* * * * *

To the inhabitants of the Town of Rye, in the County of Rockingham and in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Rye Elementary School in said Rye on Tuesday, the 8th of March next, at eight o'clock in the forenoon until seven o'clock in the evening for voting by official ballot on all issues before the Town of Rye under RSA 40:13.

* * * * *

As required under Senate Bill 2, the Deliberative Session was held on Saturday, January 30, 2016 at 9:00 AM at the Rye Junior High to review and amend the 2016 Town Warrant.

Dedication

*The 2015 Annual Report of the Town of Rye is dedicated to
John F. Sexton*

April 8, 1952 – August 8, 2015

Throughout his life, John Sexton was a role model for youth, a coach, a mentor and a persistent advocate of teamwork over winning.

Son of the late Major John F. and Eleanor Sexton, John was raised on Cable Road in Rye and attended St. Thomas Aquinas High School where he was captain of both the football and basketball teams. He was selected as a member of the 1970 New Hampshire Shrine Team and thus played in the annual 1970 all-star game.

John attended Bridgton Academy prior to accepting a full football scholarship to the University of New Hampshire where he became captain of the 1974 UNH football team and was often named most valuable player.

Following college, John was self-employed as a business developer at J.F.Sexton Co. and he also worked corporately in business development at DeWolfe Co. and later Russound, headquartered in Newmarket.

During John's teenage years in the 1960s, we were a smaller community. It was still a time when "everybody knew everybody" in Rye and John's developing character, generous spirit and athletic abilities were widely known throughout the community and many enjoyed observing his achievements first hand.

As an adult, John gave back to his community continuously in a number of ways. He was a member of the Rye Recreation Commission. John served as chief umpire for the Rye Little League for more than 35 years. For 10 years, John coached his daughter's youth soccer team which ultimately reached the New Hampshire State Finals while, in the wider community, he served as president for the Big Brothers/Big Sisters Program.

Although John also had a penchant for adventure which included participation in marathons, triathlons, skydiving and even running with the bulls in Pamplona, Spain; he was equally happy surfing at Jenness Beach at the end of Cable Road where he encouraged participation in that sport often assisting beginners there.

John is survived by his wife, Jacalyn, and daughter, Jennifer, of Rye; three sisters: Cindy, Eleanor and Elaine and his brother, William.

In Memoriam

Emily C. Seaver

January 7, 1930 – April 20, 2015

Emily "Lee" Seaver was born in Cambridge, Massachusetts, daughter of the late Donald E. and Wilhemina C. (Albrecht) Currier. She graduated from the Baldwin School in Bryn Mawr, Pennsylvania in 1948 and then attended the Buckingham School and Radcliffe College.

Lee was a long standing member of the Rye Volunteer Ambulance Corps. The Corps was composed of unpaid volunteers from our community who served "on call" to help their neighbors in any emergency requiring medical transport.

Lee also served for many years as an election worker.

William J. Ladrie

November 25, 1924 - May 31, 2015

Bill Ladrie was raised in Portsmouth by his mother, Mary, and his stepfather, Mike Molnar. He attended local schools and worked at the Portsmouth Naval Shipyard before joining the United States Navy where, during World War II, he served aboard the heavy cruiser USS Canberra in the Asiatic-Pacific Theater. He was a member of VFW Post 168 of Portsmouth.

Following the war, Bill was employed by Public Service Company of New Hampshire for 41 years. Bill and his wife, Dorothy, made their home and raised their two sons here in Rye.

During this time, Bill served as a Rye Sewer Commissioner for 9 years and he was also a member of the Jenness Beach Precinct Commission.

Alvin C. Bissell

October 21, 1930 - June 3, 2015

Alvin C. "Al" Bissell was born in Detroit, MI, a son of the late Murle and Marion (Boyd) Bissell. Raised in Detroit, he joined the Merchant Marines when 15 years old. Al was a veteran of both the Korean and Vietnam Wars and served in the United States Coast Guard from 1947 until his retirement in 1967 as a Chief Boatswain's Mate from the Newcastle Coast Guard Station where he was the Officer-in-Charge.

Al and his wife, Barbara, moved to Rye in 1964, made this their permanent home and became involved in the community. Over the years, Al worked for the Rye Highway Department, served as Acting Chief of the Rye Police Department for 1 year and was a 15-year member of the Rye Recreation Commission. Later he worked for the Rockingham County Sheriff's Department and retired as Chief Deputy in the late 1980s.

In addition to his wife, Al leaves his sons, Bradley and Gary, and his daughter, Kathy, and their families.

In Memoriam

Thomas Andrew Varrell ***September 30, 1935 - June 10, 2015***

Tom Varrell was born and raised in Rye, son of Mary Raeside Varrell and Joseph Odion Varrell. Upon graduation from Portsmouth High School in 1953, he joined the military.

During his career, Tom earned bachelor degrees from Penn State and the Naval Post Graduate School in Monterey in Operational Analysis with a focus on meteorology.

Tom's military career included two tours in Viet Nam and a station in Spain. He held the rank of Captain in the Marine Corps and, following transfer to the Navy, the rank of Lieutenant.

Following retirement and his return to Rye, Tom served on both the Planning Board and the Budget Committee.

Tom died in Florida and was buried with honors at the Veterans Cemetery in Boscawen, NH.

David Andrew Dawley ***February 23, 1947 - July 23, 2015***

A lifelong seacoast resident, David Dawley was born at the Portsmouth Naval Shipyard, son of Commander Frank L. Dawley and Teresa Varney Dawley.

He was a member of the Portsmouth High School Class of 1965. Following PHS graduation he studied construction trades at the University of Southern Maine Vocational Technical Institute.

Dave was a construction foreman for Pirini Corporation on the Maine Turnpike and later at the Seabrook Nuclear Power Plant. Most recently he operated his own construction and mold remediation company.

Over the years, Dave served the Rye community as a member of the Budget Committee (6 yrs.), a Planning Board member (8 yrs.) and as Chairman of the Mosquito Control Commission.

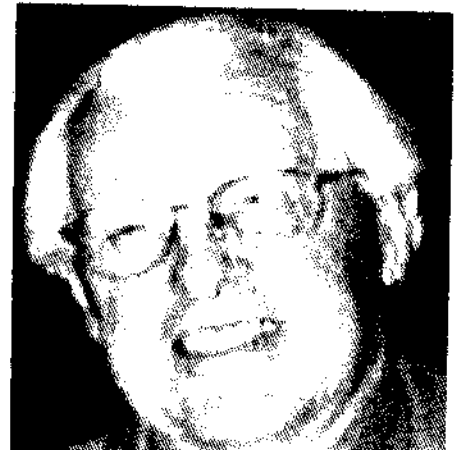

He is survived by his wife, Joan Abbott Dawley, and twin sons, Christian and David.

Walter J. Parenteau ***May 25, 1918 - October 29, 2015***

Walter Parenteau died at age 97 on October 29, 2015. Born in Manchester, NH and educated at St. Joseph High School for boys, St. Anselm and St. Mary's Seminary in Baltimore, Walter went on to own and operate his own plumbing and heating business from 1947 to 1984 and served as president of the NH Master Plumbing and Heating Association.

In Rye, we first met Walter during his semi-retirement when he was employed as clerk of the works by the Rye Sewer Commission from 1987 to 1994.

Those who knew Walter will remember his smile and recall his active outdoor life style. His true passion was skiing in N.H., Colorado and Utah. He was a member of the 70, 80, 90 plus Ski Club. His last day on the slopes was in 2005 at age 87.

MEMORIAL DAY CEREMONY

MONDAY, MAY 25, 2015

Clockwise from top left:

Guest Speaker veteran Michael A. Coutu was introduced by Master of Ceremonies Bill Epperson.

Veterans place a wreath to honor those who died while in military service to our country.

Riley Emery, Rye Junior High School student, sang our National Anthem.

Matthew Harrison, Portsmouth High School, closed the ceremony with taps.

PRESENTATION OF THE BOSTON POST CANE
to
Louise Francis Philbrick

On Wednesday, May 13, 2015 the Rye, New Hampshire Boston Post Cane was presented to Louise Francis Philbrick by the Rye Board of Selectmen to honor her as the oldest resident of our town.

Born on May 11, 1915, Louise celebrated her one hundredth birthday earlier that week. A lifelong resident of Rye, the presentation was made at Webster at Rye with many of her friends and family members in attendance.

The Boston Post Cane tradition began when, on August 2, 1909, Mr. Edwin A Grozier forwarded to the Board of Selectmen in each of 700 towns (no cities were included) a gold-headed cane with the request that it be presented, with the compliments of the Boston Post, to the oldest male citizen of the town to be used by him "as long as he lives or until he moves from the town". The cane was then to be handed down to the next oldest citizen.

In 1930, the rules were changed to "oldest living resident" making females eligible.

The canes were made by J.F. Fradley and Co., a New York manufacturer, from ebony shipped in seven foot lengths from the Congo in Africa. They were cut into cane lengths, seasoned six months, turned on lathes to the right thickness, coated and polished. Each cane had a 14-carat gold head two inches long that was decorated by hand and also had a ferruled tip. The Selectmen were to be the trustees of the cane and keep it always in the hands of the oldest citizen.

No one in Rye held the cane from 2006 through August 11, 2014 when it was presented to Robert Mitchell shortly after his 104th birthday. Growing town population and restrictions regarding the protection of personal information have made identification of our oldest citizen increasingly difficult.

With the addition of nursing homes and senior housing developments to our community, in 2004 the Rye Board of Selectmen approved a Boston Post Cane Policy which in part requires that in addition to being the oldest resident, the recipient must also have resided in Rye for ten years.

The custom of the Boston Post Cane took hold in those towns fortunate enough to have received them; but as time went by some of the canes were lost, stolen, destroyed by accident, taken out of town or not returned to the selectmen to be passed on. In 2005, the Rye Board of Selectmen had a replica of the original cane made, the replica to be held by the recipient during his or her lifetime in Rye while the original is retained by the Town.

SELECTMEN'S REPORT

Tax Rate 2015

The annual setting of the Rye tax rate for 2015 took place on November 17th and official DRA confirmation arrived too late for its inclusion in the December Newsletter. The Rye property tax rate was set at \$10.90 per \$1,000 of assessed valuation reflecting a \$.72 decrease in the Town's portion of that figure. Final payments on three long term bonds (Rye Public Library expansion, Safety Building and the first Conservation Bond) account for some of the decrease and the Board of Selectmen also applied \$400,000 from the unassigned fund balance of the General Fund against the bottom line.

Town Hall: Seeking Common Ground

Despite the painstaking work of the 2014 Town Hall Committee, the four million dollar Warrant Article to renovate Town Hall and construct a new attached building did not garner the required 60% voter approval in March of 2015. With the need for space unabated, the Recreation Department relocated to the modular building at the Recreation Area and the Sewer Commission moved its business operation to the second floor of the Precinct Building in Rye Beach. Meanwhile, the exterior of the Town Hall building continues to deteriorate and the facility remains non-compliant with regard to the Americans with Disabilities Act.

A 2015 Town Hall Committee was formed by the Board of Selectmen and charged with developing a recommendation for next steps to move the project forward. At the suggestion of Town Administrator Michael Magnant and with approval of the newly formed 2015 Town Hall Committee, the Board of Selectmen engaged the University of New Hampshire Survey Center to help develop and conduct a survey of residents to discern common ground to move the Town Hall space needs dilemma toward resolution.

The 39% Town Hall Survey response was encouraging. While survey results were widely distributed on many issues, it was clear that the majority of respondents want to keep Town Hall functions in the center of Rye, reject the proposal to tear down the Town Hall building and consider four million dollars too high a price for this project. (Survey results remain available on the Town website.)

Please read the 2015 Town Hall Committee Report submitted by Chairman Paul Goldman that follows. As a result of the work of this committee, a Warrant Article for voter consideration in March of 2016 seeks \$60,000 to put an approximate price tag on each of five options and conduct a follow up Town Hall Survey to determine which option residents prefer. It should be noted that no option is selected through this Warrant Article.

Rye's Heritage: Recognition

Due to the efforts of the Heritage Commission, recognition of the historical importance of our Town Hall building has been reinforced by two recent events. On September 28th, residents gathered outside of the Town Hall to commemorate the building's placement on the New Hampshire State Register of Historic Places as plaques denoting this recognition were unveiled.

In October, it was announced that the Rye Town Hall and the Oceanic Hotel on Star Island had been selected by the New Hampshire Preservation Alliance as two of its 2015 Seven to Save properties. Criteria for selection to the Seven to Save program includes the property's historical and/or architectural significance, severity of the current threat and the extent to which Seven to Save would help in preserving the property.

Parsons Creek Watershed Pollution

The Parsons Creek Watershed encompasses approximately 2.3 square miles in the Town of Rye and has one primary exit to the Atlantic Ocean. Known locally as Stinky Creek, the odor responsible for the nickname could be caused by rotting seaweed, animal waste, human fecal matter, storm water run-off or any combination of the preceding. Given the large area and coastal location, determination of the source(s) of pollution and their remediation requires a vast amount of data collection throughout the watershed over a long period of time.

Failed septic systems are extremely difficult to detect if they were constructed or installed in sand. Standing surface septic waste does not generally occur in these circumstances to provide visual evidence and dye testing is typically not effective in the presence of even a rudimentary septic tank.

At the result of the persistence and oversight of Planning Administrator Kim Reed, bacteria monitoring has been ongoing in the Parsons Creek Watershed since 2008. Continuous testing has identified septic systems as the primary sources of bacteria. There is “no smoking gun”, no single source of pollution. In 2012, a septic database and risk factor priority map were two of the Best Management Practices (BMP) instituted as the result of Phase I of the Parsons Creek Watershed Plan, under a New Hampshire Department of Environmental Resources Grant. In 2015, the Town was awarded a second DES grant in the form of Phase II which includes drafting a septic ordinance and additional water sampling.

In March of 2016, voters will have the opportunity to approve a Septic Pump-out Ordinance, as adopted by the Health Officer and approved by the Board of Selectmen, for the purpose of improving maintenance and assisting in identifying inadequate septic systems in the Parsons Creek Watershed.

Complete resolution of the problem will undoubtedly require time and effort, a number of creative solutions and the cooperation of home-owners within the Parsons Creek Watershed.

The Parsonage Apartments: We Need to Talk

The Town came into possession of the Parsonage property in Rye Center in the 1990s in conjunction with the remodeling and expansion of the Rye Public Library. With the goal of operating the Parsonage buildings as affordable senior housing, in 1999 the Town entered into a lease arrangement with The Housing Partnership (THP), a non-profit organization dedicated to providing affordable housing in the seacoast area.

The Town received a Community Development Block Grant from the State Office of Planning which was partnered with a loan of \$300,000. These funds provided a modest rehabilitation of the property at that time without any effect on the tax rate. THP has managed the property since then, providing day to day maintenance of the buildings and grounds.

More than sixteen years have elapsed and the need for major updates has become apparent. At the Selectmen’s meeting of December 8, 2014, the Board authorized up to \$12,750 to reroof the Parsonage building. At that time, Marty Chapman, Executive Director of THP, indicated that a property assessment would be undertaken. The current lease is due to expire in 2019.

An inspection of the Parsonage buildings was conducted by Lassel Architects PA on June 3, 2015 and the findings and analysis were presented to the Board of Selectmen by Mr. Chapman on September 28th along with a proposal from THP for ownership in the form of two options. Although either option would perpetuate the property as affordable senior housing, one option would return the property to the tax rolls.

The first draft of a warrant article drew sufficient discussion to cause the Board to set it aside in favor of establishing a Parsonage Property Committee to conduct a study and make recommendations. Committee membership and a charge to the committee will be announced in March of 2016.

Rye/Portsmouth Fire Department Collaboration: An Ongoing Conversation

Nationwide statistics show that the number of structural fires has declined while calls for medical assistance are on the rise causing fire departments across the country to reassess allocation of manpower and finances in order to provide the best service for their communities in the most efficient and economical way.

Our current discussion with officials of the Portsmouth Fire Department was triggered by consideration of the scheduled replacement of our 28 year old “quint”, a ladder truck, when Selectman Musselman inquired as to why we should replace the quint when there is a ladder truck 2 miles away on Route 1 (at the newest Portsmouth Fire Station).

A conversation between the Town of Rye and Portsmouth Fire Department officials was initiated to determine the possibility of areas within which shared fire services could be beneficial to both communities. Following a work session last February, a working group composed of Town Administrator Michael Magnant, Rye Fire Chief Tom Lambert and former TA Alan Gould, was formed to gather some basic information.

The result was an 8-page report presented to the Board on October 28th containing an overview of the manpower and equipment of each department as well as perceived opportunities and challenges regarding possible shared services.

A second work session was held in November during which Rye Fire Department representatives were invited to participate. Consideration of the need for a full time Rye Fire Chief as opposed to administration of the Rye Fire Department by Portsmouth Fire Department personnel has also become part of the discourse.

Although no conclusions have been reached and any change proposed would require careful legal scrutiny, both Rye and Portsmouth officials concur that if and when any degree of consolidation of fire services is approved, it will be put into effect for a trial period of one year with either of the parties able to terminate the agreement with appropriate notice at its conclusion.

Beach Issues

The Tighe & Bond Parking Assessment Study dated January 5, 2015 was focused on analysis of parking along the Ocean Boulevard corridor. The Study outlined existing parking conditions, provided observations of parking usage including current signage and evaluated parking alternatives such as remote parking lots and metered parking.

In accordance with the Tighe & Bond Study, the Board of Selectmen held a site walk on April 28th and made decisions, driveway by driveway, along the length of Ocean Boulevard for No Parking striping to provide safer egress onto the roadway for residents. Once NH Department of Transportation (DOT) approval was obtained, the striping proposal was carried out. It should be noted that an estimated 35 to 40 parking spaces were lost as a result of this action.

In June, we authorized parking consultant John M. Burke, P.E. to conduct a study not to exceed \$5000 to determine the feasibility of installing parking meters. His report indicated that installation of kiosks/meters could be economically favorable to the Town. Details related to 1. number, locations, type and cost of metering equipment, 2. associated installation, operating and maintenance costs and 3. anticipated seasonal installation and removal expenditures are being determined.

The bottom line: In addition to permission from NHDOT to utilize the State right of way for this project, before moving forward we will require a financial agreement with the State with regard to rates and revenue.

The 2015 Report of the Rye Beach Committee was presented to the Board of Selectmen on January 11, 2016. It contains a number of recommendations based on the observations of committee members during last year's summer season and is included in this Annual Report.

The Town, through Police Chief Kevin Walsh, will soon begin to receive applications for Beach Use Permits for the 2016 season. No permits will be issued until after the deadline for submission of applications in order to provide us with a true vision of the volume of beach use activity that has been requested.

Rye Recreation Facilities Needs Assessment

A Recreation Needs Assessment Committee has been formed with membership as follows: Gregg Mikolaities, Beverly Levesque, Garritt Toohey, Shawn Crapo, John Provencher, Doug Abrams, Randy Crapo, Tom Degnan and Priscilla Jenness, selectmen's representative. The first meeting is scheduled for 8 a.m. on Tuesday, February 2, 2016 at Town Hall.

Congratulations

On Wednesday, May 13, 2015, the Board of Selectmen had the pleasure of presenting the Rye Boston Post Cane to Louise Francis Philbrick to honor her as the oldest resident of our town. A native of Rye born on May 11, 1915, Louise had celebrated her one hundredth birthday just two days earlier. Many family members were in attendance for the presentation. Congratulations, Louise.

Respectfully submitted,

Board of Selectmen:

Priscilla V. Jenness, Chairman
Joseph G. Mills, Jr., Vice-Chairman
Craig N. Musselman, Selectman

2015 TOWN HALL COMMITTEE REPORT

Following the defeat of last March's Town Hall Renovation/Construction Warrant Article, a new Town Hall Committee was appointed by the Rye Board Of Selectmen. Members included Joe Mills, Craig Musselman, Ed Hayes, Tim Durkin, Joe Tucker, Ritchie White, Scott Rawding, Karen Stewart, Bev Giblin, Jeff Quinn, John Loftus, and myself. Other Town Official Representatives included Cyndi Gillespie and Mike Magnant. The purpose of this new Committee was to assist the Rye Board Of Selectmen in determining the desires and consensus of the community, review the work of prior Town Hall Committees, and find a path forward that meets the needs and desires of the voters while providing an affordable, work-efficient, accessible Town Hall office and meeting space. The Charge also included consideration of any reasonable alternatives.

Through a Survey jointly designed by the UNH Survey Center and the Rye Town Hall Committee, the following were the major findings of that Survey:

- Citizens value the current Town Hall Building.
- They value the current site.
- They are very cost-conscious.
- Upper cost limit seems to be \$2-2.5M.
- They don't value the Great Hall.
- Voting at the Rye Elementary School not an issue.

Furthermore, investigation by the new Rye Town Hall Committee excluded the use of the Rye Public Safety Building because (1) there is not enough space to hold all of the Town Hall Business functions, and (2) the logistics of Fire and Police operations are not compatible with Town Office Business functions.

Investigation by the new Rye Town Hall Committee also excluded use of the Old Trolley Barn/Police Station due to the cost of renovation and limited parking.

Possible options for the Rye Town Hall Business functions were determined to be:

- Renovate the current Town Hall Building and include historic features
- Renovate the current Town Hall Building without regard to historic features.
- Tear down the current building and replace with a new building on the same site.
- Build a new building on the same parcel, leaving the current building intact for a different use.
- Build a new building on another parcel in the center of town, leaving the current building intact.

Architectural studies are now required to get conceptual, project magnitude, and cost details such that voters' desires can be expressed through the provision of more detail and clarity regarding these alternatives, and a brief follow-up survey. The studies must respond to the "2016 Town Hall Architectural Scope" Document. A Warrant Article has been generated seeking funding of \$60K for this purpose and this has been recommended by both the Rye Board Of Selectmen and the Rye Budget Committee.

Thanks to all Town Hall Committee Members and Town Official Representatives for their valuable contributions leading to the generation of this Warrant Article. Thanks to Janice Ireland for her contributions in arranging all meeting logistics and in the required document generation. It has been my pleasure to work with such a talented group of people.

Respectfully Submitted,

Paul Goldman - Chairman

TOWN ADMINISTRATOR'S REPORT

It's been said that 2015 was the warmest year on record. A testament of that, is that beach activity took center stage in Rye, starting in April when the Board of Selectmen held a special meeting to discuss only beach related matters. The main topics were issues relating to lifeguard staffing, traffic and parking, police enforcement, beach cleaning and water quality monitoring. Rye was not alone in that beach communities up and down the eastern seaboard had trouble recruiting lifeguards during the summer of 2015. The Board of Selectmen had commissioned a study regarding the congested traffic and parking issues at the beaches. During 2015 management worked diligently with an expert parking consultant firm on studying the installation of parking meters along certain stretches of Ocean Boulevard, along with striping no parking areas. The source of the Parson's Creek Watershed contamination has continued to be clandestine. The NH Department of Environmental Services and FB Environmental have been and are continuing to work with management to identify the source and resolve this issue.

All town departments were busy in 2015. The Police and Fire Departments have experienced staffing vacancies over the past few years. This placed a strain on both agencies during 2015. However, they are positioned to be at full staff entering the spring of 2016. The Fire Department responded to over 850 calls for service while the Police Department responded to 8,247. During late 2015 the Police Department started working with the Rockingham Sheriff's Communication's Department to bring online an automated vehicle locator. This function will improve officer safety, as the department will have the ability to locate a police cruiser anywhere, using satellite and GPS components.

The Building Inspector's office produced \$285,299 in revenue, issuing approximately 1,000 building permits for the year. This office is also responsible for code enforcement issues, and works very closely with the Planning Administrator and management.

January through March of 2015 was an intense challenge for our Department of Public Works. They did an exceptional job keeping the town's roads passable during record breaking snowfall accumulation.

Our new Geographical Information System (GIS) came online in 2014. During 2015 we continued to leverage this new technology to insure effective and economical services to the community and will be adding new layers in 2016. The Department of Public Works contracted with Street Scan to provide a condition survey of all town roads. A van, equipped with special monitoring equipment drove each meter of town roads collecting surface and subsurface data. This data will be used by Public Works to prioritize the town's paving schedule. I am pleased to report that the departments are continuing to expand the ability to make credit card transactions available to the public, with the Police Department coming on-line during 2015.

The Recreation Department continues to offer a wide variety of programs for all ages including skiing, summer camps, day trips and a very popular luncheon program for the Over 55 Club.

Town staff continues to provide support to 18 town boards, commissions, committees and sub-committees. The Board of Adjustment received 56 applications containing over 140 request for relief during the year. Other highlights of 2015 include changing assessing firms, replacing the aging boiler at the Parsonage building, working with the Portsmouth Fire Department on the possibility of consolidating command duties, planning for the effects of ocean rise, working with FEMA on new flood maps, reinstituting the FEMA Community Rating Program for 2016 and working with the Town Hall Committee with the goal of advancing the Town Hall project.

Finally, when it is all said and done, it comes down to the tax rate. The NH Department of Revenue sets tax rates for all cities and towns in New Hampshire. The Rye property tax rate was set at \$10.90 in late November. That's a \$.72 decrease from the prior year. The Town's portion of the rate is \$2.96. The rest is portioned to the County, School Local and School State tax. Rye continues to have the 3rd lowest tax rate in the county.

I'd like to once again thank the employees, boards, commissions, committees and volunteers for all they do for the Town.

Respectfully submitted,

Michael Magnant
Town Administrator

NOTICE

If you own real estate lots that were involuntarily merged by municipal action, you may be able to have those lots restored to their pre-merger status.

Your property may qualify if two or more lots were merged for zoning, assessing, or taxation purposes and the merger occurred:

- During your ownership, without your consent; or
- Prior to your ownership, if no previous owner consented to the merger.

To restore your property to pre-merger status, you must:

- Make a request to the local governing body
- No later than December 31, 2016.

Once restored:

- Your properties will once again become separate lots; however, they must still conform to applicable land use ordinances. Restoration does not cure non-conformity.

This notice must be:

- *Posted continuously in a public place from January 1, 2012 until December 31, 2016, and*
- *Published in the 2011 through 2015 Annual Report.*

Read the full statute at RSA 674:39-aa Restoration of Involuntarily Merged Lots.

Requirements for Semi-Annual Billing

Pursuant to RSA 76:15-a

76:15-a Semi-Annual Collection of Taxes in Certain Towns and Cities - I. Taxes shall be collected in the following manner in towns and cities which adopt the provisions of this section in the manner set out in RSA 76:15-b. A partial payment of the taxes assessed on April 1 in any tax year shall be computed by taking the prior year's assessed valuation times 1/2 of the previous year's tax rate; provided, however, that whenever it shall appear to the selectmen or assessors that certain individual properties have physically changed in valuation, they may use the current year's appraisal times 1/2 the previous year's tax rate to compute the partial payment.

SUMMARY INVENTORY OF VALUATION

Submit to the Department of Revenue Administration by September 1

Instructions

Note: for ease of use please begin at the last section and work forward.

REPORTS REQUIRED: RSA 21-J:34 as amended, provides for certification of valuations, appropriations, estimated revenues and such other information as the Department of Revenue Administration may require upon reports prescribed for that purpose.

NOTE: The values and figures provided represent the detailed values that are used in the city/towns tax assessments and sworn to uphold under Oath per RSA 75:7. Please complete all applicable pages and refer to the instructions for individual items.

For Assistance Please Contact:

DRA Municipal and Property Division
Phone: (603) 230-5090

The NH Retirement System sets the employer's percentage effective July 1st.
Retirement Contributions are Based on Gross Wages

* Full time employees must work a minimum Ten (10) hours per week to be eligible for benefits.

TREASURER'S REPORT

It is a pleasure to report the financial position of the Town of Rye remains in very good condition. The relatively low and steady tax rate over the period of the last ten years is a strong indicator. Additionally, due to the very conservative controls maintained with regard to our town's long term debt, Rye enjoys an enviable position financially. New Hampshire statutes allow a town to incur indebtedness of up to 3% of the total Assessed Valuation. Rye's Assessed Valuation as of December 31, 2015 is \$1,868,082,700. Therefore, the total debt allowed by law would be \$56,042,481. The town's total indebtedness at year end was just \$2,247,595, leaving a generous margin of \$53,794,886.

Concerned with the more and more prevalent occurrences of banking fraud, during 2015 this office worked with Financial Administrator, Cyndi Gillespie, to implement a security program that tightens controls and serves to protect the town's bank accounts.

The following pages detail the status of the Town of Rye's financial accounts.

TRUSTEES OF TRUST FUNDS

The Rye Trust Funds performed in-line with broader market that took a breather in 2015 after achieving six years of straight gains. The Standard and Poor's 500 index managed a slight return with the assistance of a few big cap technology and consumer stocks. Excluding these few big-cap gainers, the average S&P index stock was down 4%. The Trust Funds adverse impact from the energy and utility sectors were only partially offset by its healthcare holdings causing a slight decline in the principal value of the Funds.

Given the problems faced over the past year – weak corporate earnings, declining commodity prices, slow global growth and increasing interest rates – the fact that the U.S. market was essentially flat is a testament to its resilience. While declining commodity prices - especially oil – created considerable market volatility in 2015, the Trust Funds generated over \$158, 000 in income compared to about \$127,000 last year.

The nonexpendable Trust Funds were primarily invested in large-cap, dividend yielding equities while the expendable Trust Accounts were largely invested in the New Hampshire Public Deposit Investment Pool (NHDPDIP). NHDPDIP invests in short-duration high-quality money market instruments that reflects short-term market rates greatly influenced by the Federal Reserve. As a result of Federal Reserve's near zero percent monetary policy, NHDPDIP yielded just 0.01% through most of the year. In December 2015, the Federal Reserve increases rates by 0.25% for the first time in nearly nine years. The December rate increase shifted NHDPDIP's yield higher by yearend.

The Federal Reserve's December statement suggests continued growth in GDP and inflation trending towards 2% over the medium-term. While the Federal Reserve's forward guidance suggests four rate increases over the course of 2016, the markets are not as optimistic pricing in about two rate hikes. Although analysts generally support the Federal Reserve's growth assessment, global headwinds, higher wages, a strong dollar and falling commodity prices may cause manufactures to remain conservative leading to slower growth as we near the end of the business cycle.

Looking forward, the Trustees anticipate continued heightened volatility as the markets adjust to the oversupply of oil and slowing emerging marketing. While stock and bond market's near-term volatility may impact the principal value of the Funds, the Trustees manage the Funds for a long-term horizon and expect cyclical variability. The Trustees however anticipate being able to achieve prudent levels of income in the year ahead while preserving inflation-adjusted principal over the business cycle.

REPORT OF THE COMMON TRUST FUNDS INVESTMENTS OF THE TOWN OF RYE

ALMA HILL TRUST FUND

CEMETERY TRUSTEES' REPORT

2015

Since its creation in 1892, Central Cemetery has been managed and operated by an elected board of three Cemetery Trustees. The Trustees serve staggered three year terms with one position up for election each year. The current Trustees are Roger Philbrick (2017), Ken Moynahan (2018) and Frank Drake (2016).

The Central Cemetery is a perpetual care cemetery. Perpetual care operates by setting aside a portion of the plot sale in an investment fund that generates interest income to perpetually pay for the maintenance of the plot and cemetery. Central Cemetery operates at no expense to the Rye taxpayer. (The Town has, at times, provided specific "bridge loans" that Central Cemetery has repaid).

In 2015 the several cemetery funds and accounts earned a total income of \$110,863.09. The cemetery's 2015 expenses totaled \$104,724.60 leaving a net surplus of \$6,138.49. Additionally we did not need to access \$4,370.79 of disposable income from two of our smaller funds and we have a balance of \$51,954.06 in our reserve account. Through the sale of cemetery grave lots we added \$22,875.00 to the principal of the Cemetery Common Fund.

The Trustees are pleased to report that we have established a new section of the Cemetery called Perry Field. This section is part of a large tract of land the Cemetery acquired from May Perry in the 1960s. Perry Field is beyond Cedar Lawn where only flat markers are allowed. Perry Field is laid out to accommodate up-right monuments and opens up enough capacity for up-right monuments to last decades. Feel free to call Superintendent John Coscia (603-817-0066) to arrange a visit to see the layout and discuss details.

The Cemetery Trustees would be remiss not to express our gratitude to the Trustees of Trust Funds for their exemplary management of our funds to generate favorable interest income and principal growth. And we thank Superintendent John Coscia for maintaining a well cared for cemetery and thoughtfully addressing the inquiries and needs of our customers.

Respectfully submitted,

Frank Drake
Roger O. Philbrick
Kenneth Moynahan

2015

Office Hours: Monday through Friday 8:00 a.m. to 4:30 p.m.
Saturday 9:00 to noon
Telephone (603)964-8562; Fax (603)964-4132

2015 was another busy year for this office. As the town grows, so does our workload. New homes all equate to additional tax bills to collect, more motor vehicles and boats to register, dogs to license, voters to register and beach parking & transfer station permits to issue.

In 2015 this office registered 8227 vehicles, 2687 boats and titled 1245 vehicles. We also licensed 864 dogs; issued 2612 beach parking permits, 216 certified copies of vital records and processed 48 marriage licenses. Motor vehicle revenues were up \$81,135.72 in 2015.

In addition, we collected close to \$21.9 million in property taxes, tax liens, sewer bills, land use change taxes, yield taxes and interest. Between tax and sewer billings, over 8,100 bills are printed and mailed out of this office every year. Mortgage refinancing done by our property owners, as well as foreclosures, continue to keep us very busy fielding all requests for property tax status on these properties. At the end of the year, 3.17% of the 2015 property taxes remained unpaid. This is once again down (.3%) continuing the trend of the last few years. We have seen many property owners making several partial tax payments over the year instead of two bulk payments. I encourage you to pay this way if it makes it easier on your budget. It also helps to keep your interest payments down. Please contact me if you have any questions regarding partial payments

Please remember to license your dogs by April 30th! Each year between January 1 and April 30, all dogs are required to be licensed. A current rabies certificate is needed for each dog. Reminder notices were mailed out earlier this year, the results of which helped many of you to avoid the \$25.00 Civil Forfeiture issued when dogs are not licensed on time. Licensing costs are as follows:

Puppies under 7 months	\$6.50
Spayed or neutered dogs	\$6.50
Unaltered dogs	\$9.00
Senior Citizens (over 65 years of age)	
may license one (1) dog for	\$2.00

Please remember you can register your vehicles, license your dogs, purchase beach parking permits and pay property tax, as well as, sewer bills on-line at the town's website (). Look for the brightly colored icons on the main page. On-line payments by check or credit cards are accepted.

I want to express deep gratitude to my wonderful and efficient deputy, Donna DeCotis, who has been so much more to me than being my able "wingman" for the last few years. She has taken on many new tasks to prepare herself for taking over my position when I retire in the spring and I know she will do such a good job. And to Andrea Morrissey, our hard working assistant, for taking on Saturday hours and continuing the long journey to mastering the many skills required to perform her duties. Both of these ladies have made it possible for me to remain in my position until I am ready to retire. I am also grateful to all my colleagues and friends at the Town Hall for their continual help and spirit of cooperation. A special thank you to Town Moderator Bob Eaton for being so proactive in overseeing the elections and, especially, for proofing my deliberative session minutes every year.

I'd like to express my sincere gratitude for being allowed the privilege of serving the wonderful citizens of Rye for the last 25 ½ years, first as Tax Collector, then as Deputy Town Clerk/Tax Collector and finally as Town Clerk/Tax Collector. I will certainly miss seeing my neighbors, friends and colleagues on a regular basis. It has been an amazing journey!

Respectfully submitted,
Elizabeth M. Yeaton
Town Clerk/Tax Collector

TOWN CLERKS REPORT
YEAR ENDING DECEMBER 31, 2015

SUMMARY

ZONING ORDINANCE AMENDMENT QUESTIONS

ARTICLE 3. To see if the Town will vote to amend the Rye Zoning Ordinance in accordance with the recommendation of the Rye Planning Board, as follows:

Amendment 1.

Re: Width of Parking Spaces

Amend Section 500.1 Size of Parking Spaces, to change the width required from 10 feet to 9 feet. (Note: Deleted language ~~struck through~~. New language **emboldened and italicized**.)

§ 500.1 **Size of Parking Spaces:** All parking spaces required herein shall have a minimum size of ~~ten (10)~~ **nine (9)** feet in width by eighteen (18) feet in length.

Explanation:

To change the stall size from ten (10) feet to nine (9) feet

ZONING ORDINANCE AMENDMENT QUESTIONS CONTINUED

Amendment 2.

Re: Correction of Erroneous Indexing/Wetlands Buffer

Amend § 301.8, B.6 of the Wetlands Buffer Restrictions as follows: (Note: Deleted language is struck through. New language is emboldened and italicized.)

6. Uses permitted by Special exception pursuant to ~~§ 301.6~~ **§ 301.7** may be permitted by Special Exception in the Wetlands Buffer, subject to the requirements of ~~§ 301.6~~ **§ 301.7**.

Explanation

When the Wetlands Ordinance was amended in 2012 the sections were re-indexed and what was § 301.6 became § 301.7. However, the necessary change was not made in § 301.8, B.6. This amendment corrects that error.

1181 *
YES
NO
305

Amendment 3.

Re: Lighting

Amend "Section 501 Signs and Outdoor Advertising" to allow LED lighting, to clarify the lighting permitted; and to bring the zoning criteria into conformity with the criteria of the Planning Board's Land Development Regulations. (Note: Deleted language is struck through. New language is emboldened and italicized.)

SECTION 501 SIGNS AND OUTDOOR ADVERTISING

501.4 Illumination Criteria: **Moving, fluttering, blinking or flashing lights or signs are prohibited. Lighting shall not glare on abutting properties or on public streets.**

No sign in any district shall be flashing or animated, nor shall it be illuminated by other than **light-emitting diode (LED)**, incandescent or fluorescent light; ~~nor shall any~~ **No illuminated sign of advertising lighting shall outline any part of a building such as a gable, roof, sidewalk or corner. Wherever sign "area" is referred to in this Zoning Ordinance herein, it shall mean the area of one side of a not more than two-sided sign, or one-half of the total area of a sign of not more than two sides. Temporary (non-permanent), holiday lighting is excluded from the above restrictions.**

Explanation

To allow LED lighting which was not in existence when the original sign regulations were adopted more than 30 years ago and to have consistent lighting requirements in the Zoning Ordinance and Planning Board Land Development Regulations

Amendment 4.

Re: Impervious Coverage and Definition

Are you in favor of the adoption of Amendment 4 as follows:

Amend the definition of "Impervious" to read as follows and replace the word "impermeable" with the word "impervious" throughout the ordinance.

IMPERVIOUS. Any modified surface that cannot effectively absorb or infiltrate water. Examples of impervious surfaces include, ~~but are not limited to:~~ roofs, and unless designed to effectively absorb or infiltrate water, decks, patios, and paved, gravel, or crushed stone driveways, parking areas, and walkways, storage areas, compacted gravel including drives and parking areas, brick or compacted earthen materials, stone, concrete or composite pavers and wood. (From NH RSA 483-B:4 Shoreland Water Quality Protection Act).

1093 *
YES
NO
325

Amendment 5.

Re: Aquifer and Wellhead Protection District

Comprehensively amend Section 306 Aquifer and Wellhead Protection District with several new provisions, including requiring Conditional Use Permits (CUPs) for any use having impervious surfaces more than 15 percent of a lot or 2500 sq. ft., whichever is greater; by requiring Storm Water Management and Pollution Prevention Plans of applicants for a CUP; by requiring Spill Control and Countermeasure Plans for conditional uses using regulated substances; by establishing standards for hydrogeological studies; by reducing the allowed impervious coverage from 35% to 25%; by requiring residential uses to comply with the 25% impervious coverage requirement; and by making the prohibition against commercial storage of fertilizers, manure and compost applicable to residential and horse farm uses. Copies of the proposed amendment are posted at the town hall and on the town website. A copy of the proposed amendment will also be posted at the polling place.

Explanation

The Aquifer and Wellhead Protection District covers most of Rye located south of the Town Center. The proposed amendment strengthens the protection of Rye's aquifer and groundwater resources with several provisions which are summarized in the article.

TOWN CLERK

ZONING ORDINANCE AMENDMENT QUESTIONS CONTINUED

Amendment 6.

Re: Medical Marijuana Facilities

Add the following new Section 202.16 to the Zoning Ordinance

202.16 Medical Marijuana Facility.

- A. in order to mitigate their harmful effects on neighborhood children and residential neighborhoods, any medical marijuana facilities shall not be permitted
1. On any parcel located 500 feet or less from the boundaries of the Single Residence and General Residence Districts, as measured along street frontage; or
 2. Within 500 feet of the property line of any mobile home park.
 3. In order to prevent a concentration of medical marijuana facilities in one area, which would tend to encourage blight, devalue property and increase crime, no medical marijuana facilities shall be permitted within 1000 feet of another medical marijuana establishment.

Explanation

Recent state legislation allows 4 medical marijuana facilities to be licensed in New Hampshire, one of which could be located in Strafford or Rockingham Counties. Under state law towns are not allowed to prohibit such facilities, however, such facilities are not allowed in residential districts or within 1000 ft. of schools or drug free school zones. The amendment further restricts the location of such a facility should the state license one in Rye.

ARTICLE 9. To see if the Town will vote to add one (1) full-time patrol officer in the Rye Police Department and to raise and appropriate the sum of forty-seven thousand, two hundred fifty dollars (\$47,250) to fund the position for the last six months of calendar year 2015. This appropriation is in addition to the operating budget. (Majority vote required.)

762 *
YES
NO
767

Note: The amount of \$47,250 to fund the position for six months in 2015 includes wages and benefits based on present figures plus the required outfitting equipment. The costs to fund this position for a full year based on present figures for wages and benefits plus uniform allowance would be \$91,450.

This article is recommended by the Selectmen (2-1)
This article is recommended by the Budget Committee (8-0)

ARTICLE 10. To see if the town will raise and appropriate the sum of \$20,164.00 for the 2015 fiscal year, such sum representing the additional costs, attributable to the cost items included in the Collective Bargaining Agreement reached between the Town of Rye Board of Selectmen and the Professional Firefighters Association of Rye, at the current staffing level. This amount includes retro pay from October 1, 2014 through March 31, 2015.

782 *
YES
NO
660

The Town of Rye's Collective Bargaining Agreements are based on an April 1st to March 31st effective year. The Town's budget is on a calendar year. The range in year 2016-2017 is a minimum and maximum amount determined by a Cost of Living Adjustment (COLA). The increase in salaries and benefits required by the new agreement over those that would be paid at current staffing levels over the life of the contract are broken out as follows:

Year	Estimated Range of Increase over prior year	
	Base 2%	Max 3.5%
10/01/14-03/31/15	\$ 9,757.71	N/A
04/01/15-12/31/15	\$10,406.29	N/A
01/01/16-03/31/16	\$ 3,468.77	N/A
04/01/16-03/31/17	\$13,903.27	\$24,330.72

This appropriation is in addition to the operating budget. Majority vote required.

This article is recommended by the Selectmen (2-1)
This article is recommended by the Budget Committee (8-0)

New Hampshire Resolution to Get Big Money Out of Politics

To request that the Town of Rye, NH, stand with communities across the country to defend democracy from the corrupting influence of big money in our political system, by calling upon our legislators to amend the United States Constitution to establish that:

961 *
YES
NO
457

- 1) Only individual human beings are endowed with constitutional rights, and
- 2) Money is not speech, and therefore regulating political spending is not equivalent to limiting political speech.

And that the People of Rye, NH hereby instruct our state and federal representatives to enact resolutions and legislation to advance this effort, and to reduce the influence of big money and increase transparency and voter participation in our electoral system;

And that the record of the vote approving this article shall be transmitted by written notice to Rye's Congressional delegation, and to Rye's State Legislators, and to the Governor of New Hampshire, and to the President of the United States, informing them of the instructions from their constituents, by the Town Administrator's office within 30 days of the vote.

ARTICLE 24. (By Petition) To see if the Town shall create a committee to evaluate the pros and cons of different locations and designs for an indoor field turf facility to be used for town recreation and youth sports team practices.

The report should be completed by June 30th and presented jointly to the Board of Selectmen and the Rye Recreation Commission. The Committee will engage with local youth sports teams, e.g. Rye Little League, Rye Travel Soccer, Seacoast Lacrosse, Portsmouth Youth Football and others to collect requirements and estimated usage.

583
YES
NO
875 *

The report will include:

- Utilization assessment from different groups
- Possible locations
- Design options
 - As a stand alone facility
 - As part of a recreation facility on Recreation Road
- Possible health issues related to artificial turf
- Assessment of need
- Potential grants and funding options (fund raising, other towns...)

ARTICLE 25. (By Petition) To see if the Town will vote to implement a SMART (Save Money and Reduce Trash) program for a one year trial period – to be extended based on a cost-benefit analysis conducted by the Board of Selectmen. This "Pay as You Throw" program is predicted to reduce tonnage going to the landfill from the Rye Transfer Station by 40% or approximately 500 tons per year and at the same time increase the amount recycled. Residents will be required to use designated Town of Rye trash bags to be purchased at a cost of \$1.25 for 16 gallon and \$2 for 30 gallon size bags, and \$3 for 60 gallon bags. The reduction in expenditures to the Town of Rye should exceed \$150,000 annually. The revenue from this program is to be used to offset the cost of operating the transfer station. The combined revenue and reductions in expenditures from this program should lower the tax burden by \$150,000 or more annually.

Article 2:

To see if the Rye School District will vote to approve the cost items included in the collective bargaining agreement reached between the Rye School Board and the Association of Coastal Teachers - Rye which calls for the following increases in salaries and benefits at the current staffing level:

Fiscal Year	Estimated Increase
2015-16	\$ 93,578
2016-17	151,569
2017-18	167,768
2018-19	157,269
2019-20	136,037

and further to raise and appropriate **\$93,578 (Ninety-Three Thousand Five Hundred Seventy-Eight Dollars)** for the current fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits required by the new agreement over those that would be paid at current staffing levels. (Majority vote required) (NOTE: This warrant article does not include appropriations in ANY other warrant article.)

The Rye School Board recommends this article as voted 5-0.

MODERATOR'S REPORT

The Town Moderator oversees all elections in Rye and presides over the Town Deliberative Session. There was one election in Rye in 2015 – the town vote on March 10th. The election went smoothly, and waiting times were almost nonexistent. 1,539 voters cast ballots – 32% of Rye's registered voters. For election officials, the job did not end on election night, as a recount was requested in the 3-way race for two Budget Committee seats, with just 12 votes separating the second and third place candidates. A Board of Recount convened on March 23rd. The recount sustained the result of the election. Between the three candidates, 5 additional votes were counted, and the margin of victory for the second place candidate increased by one vote. The additional votes counted may be explained by the fact that the optical ballot scanner does not know how to count votes where a voter circles one choice, crosses it out, and votes for a different candidate – those votes can only be identified in a manual recount of all the ballots.

The 2016 Rye Deliberative Session was held on January 30th. Attendance increased from 99 voters in 2015 to 116. The Deliberative Session was the longest on record, at 7 hours and 45 minutes. The proposed operating budget of \$9,104,794 received relatively little discussion. The vast majority of time in the meeting was taken up by four articles concerning the future of Rye's Town Hall. Debate on a single article to appropriate \$460,000 to acquire real estate in the center of town lasted over two and a half hours. Of the 21 articles that were amendable, 8 were amended, and attempts to amend 2 others were defeated. A total of 19 amendments were submitted, 11 of which passed.

This year's Town election will be held on March 8th. There are 4 contested races on the ballot – for the Board of Selectmen, the Budget Committee (2 seats), the Zoning Board, and Cemetery Trustee – not to mention numerous warrant articles of considerable interest. Also, because there is only one candidate running for two School Board seats, the second seat will be filled by a write-in candidate. Finally, there are numerous warrant articles on the ballot of considerable interest, including the four regarding Town Hall.

The polls will be open at Rye Elementary School from 8 a.m. to 7 p.m. Even if you are not registered to vote, you can register on the day of the election at the polls. PLEASE VOTE! If you can't get to the polls, you can get an absentee ballot at the Town Clerk's office until the day before the election.

Finally, thank you to all the citizens of Rye for allowing me to serve you.

Respectfully submitted,
Bob Eaton, Town Moderator

ZONING ORDINANCE AMENDMENT QUESTIONS

ARTICLE 3. To see if the Town will vote to amend the Rye Zoning Ordinance in accordance with the recommendation of the Rye Planning Board, as follows:

Amendment 1.

Re. Tourist Accommodations Records

Amend Section 504 "Tourist Camps, Motels, Hotels and Lodging Houses" as follows: (Note: Deleted language struck through. New language emboldened and italicized.)

§ 504.9 **Record of Guests:** The manager of every tourist camp, motel, hotel or lodging house shall require all persons using the same to register his **or her** name, home address, and car license number. ~~Such records shall be available at all times for inspection by the Police Department.~~

YES
NO

Explanation:

In June 2015 the U.S. Supreme Court in City of Los Angeles, California v. Patel, held that a Los Angeles regulation which requires hotel operators to make records of guest available to police officer is facially unconstitutional as a violation of the Fourth Amendment's protection against unreasonable searches and seizures. Thus, town counsel has advised that the above stricken sentence is unconstitutional. (The Supreme Court's decision did not invalidate the part of the Los Angeles regulation which requires such records to be kept.)

TURN BALLOT OVER AND CONTINUE VOTING

ZONING ORDINANCE AMENDMENT QUESTIONS CONTINUED

Amendment 2.

Re: Frontage Requirement for Multi-Family Developments

Amend Section 402.3 "Requirements for Multi-Family Dwellings & Developments" as follows: (Note: New language emboldened and italicized.)

C. Frontage: A multi-family dwelling or a multifamily development shall have a minimum contiguous frontage on a town or state road or street of 150 feet. ***The planning board may allow the frontage requirement to be met on a private street provided the requirements of § 402.3, F are met and further provided that the planning board determines:***

1. ***The private street is a street depicted on a subdivision plat approved by the planning board; and***
2. ***Adequate provisions exist for maintenance and repair of the private street; and***
3. ***Frontage on a private street will not result in an adverse impact on community facilities or community services; and***
4. ***Frontage on a private street will not be contrary to the public health, safety or welfare.***

YES
NO

Explanation

The proposed amendment would allow multi-family dwellings and multi family developments which provide workforce housing, to be built on approved private streets, such as Airfield Drive.

Amendment 3.

Re: Applicability of GMO to Multi-Family Dwellings/Developments

Amend § 402 Multi-Family Dwellings & Multi-Family Developments as follows: (Note: New language emboldened and italicized).

402.5 Growth Management. The following provisions apply to multi-family dwellings ***and multi-family developments*** which receive a Special Use Permit pursuant to this section.

A. For multi-family dwellings ***and multi-family developments*** which may be affected by the limitations of Article IX- Growth Management, the planning board may require a Phasing Plan. Any such phasing plan shall assure proportional build out of workforce housing units.

B. Multi-family dwellings ***and multi-family developments*** shall be exempt from the Equitable Distribution requirements of Section 901.2, C.

C. If the limitations of Article IX would allow building permits for at least 50% of the dwelling units in a multi-family dwelling ***or a multi-family development*** but not all of the units, building permits may be issued for all of the units (i.e. for the entire dwelling). However, the occupancy permits for the remaining units above the limitation shall not be issued until building permits become available under Article IX. In such circumstances, the subsequent town wide building permit limitations shall be reduced accordingly.

D. Waiver. ***The planning board may waive the requirements of § 402.5, C and/or § 901.2, B, provided that after a duly noticed public hearing it determines on the record that each of the following criteria is met:***

1. ***Applicability of the requirement(s) will make financing of the multi-family dwelling or multi-family development infeasible; and***
2. ***The waiver will not result in an adverse impact on community facilities or community services; and***
3. ***The waiver will not be contrary to the public health, safety or welfare.***

YES
NO

Explanation

The zoning ordinance requires that at least 20% but not more than 51% of the dwelling units of a multi-family dwelling or of a multi-family development be work force housing as defined by state law. The limitations of the Growth Management Ordinance (GMO) with respect to the phasing of building permits and occupancy permits may make it impossible for developers of projects having workforce housing to obtain financing. The amendment would allow the planning board to waive the requirements of the GMO in such a circumstance, subject to appropriate safeguards

BALLOT 2 OF 2

Elizabeth M. Yeaton
TOWN CLERK

ZONING ORDINANCE AMENDMENT QUESTIONS CONTINUED

Amendment 4.

Re: Definition of "Living Space"

Amend the Appendix of Definitions to add the following language to the definition of "Living Space". (Note: New Language **emboldened and italicized**).

LIVING SPACE: All rooms or portions of a dwelling or structure designed for, or used primarily for living, cooking, eating, sanitary, recreational, or sleeping accommodations by a person, or family, as distinguished from storage or other such dead space. **A screened porch/deck is not living space. A porch/deck which is enclosed part or all of the year with glass or other material is living space, whether or not heated. Where possible living space shall be calculated based on the exterior wall to wall dimensions of a dwelling unit for each floor having living space. For attached dwelling units and where storage/dead areas are adjacent to living space measurements shall be from the mid-point of wall studs. Where upper floors do not extend the full width of the exterior walls (such as a cathedral ceiling and partial second floor) the calculation of living space shall be adjusted accordingly.**

YES
NO

Explanation

The zoning ordinance requirements for Retirement Community Developments (RCD's) limit the amount of living space allowed in a dwelling unit. Appraisers and assessors use exterior measurements to determine building space, thus the planning board believes clarification is required. The amendment also clarifies how screened porches and decks and enclosed porches and decks are considered in a manner consistent with a recent RCD approval.

Amendment 5.

Re: Exemptions from Wetlands Conservation District for Utilities

Add the following new provision to Section 301 Wetlands Conservation District:

§ 301.9 Exemptions. Utilities such as the Rye Water District, Aquarion, the Rye Sewer Commission, Eversource and CATV providers are exempt from the requirements of the Wetlands Conservation District for trenching and for the installation of poles and overhead wires for utilities located within the rights-of-way of town roads; state highways and private streets and for trenching and installation of poles and overhead wires for utility replacements or repairs serving buildings existent as of the effective date of this exemption, which is March 8, 2016.

Exempt work shall be accomplished in accordance with Best Management Practices (BMP's) as described in: "Best Management Practices to Control Nonpoint Source Pollution: A Guide for Citizens and Town Officials", NH DES, January 2004, as amended; "Innovative Stormwater Treatment Technologies Best Management Practices Manual", NH DES, 2002, as amended; and "Best Management Practices to Control Nonpoint Source Pollution: A Guide for Citizens and Town Officials", NH DES, January 2004, as amended.

YES
NO

Explanation

Without this exemption every time a utility works within a street right-of-way located within wetlands or the wetlands buffer or repairs or replaces a service to an existing building where the service is located within the buffer, it would be required to first obtain a special exception under the Wetlands Conservation District requirements. Such a requirement is not reasonable and would overburden the zoning board of adjustment.

ARTICLES

ARTICLE 4. To see if the Town will vote to authorize the selectmen to acquire a 1.4 acre parcel of land, together with the house and any other buildings thereon, at 541 Washington Road, adjacent to, and to the northeast of, the existing Rye Public Safety Building in order to land bank the property for future use and further, to raise and appropriate the sum of four hundred sixty thousand dollars (\$460,000) for the purchase. The future uses, which may include a site for a new Town Hall, shall be for Town of Rye public facility purposes with due consideration of the historic, residential character of the neighborhood. This appropriation is in addition to the operating budget. (Majority vote required).

**This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (8-0)**

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of sixty thousand dollars (\$60,000) to retain a licensed architectural firm to study, determine and report on the estimated construction project costs and the key design parameters required to support Town Hall business functions for the following five options, and to conduct a town wide follow up survey.

Alternate 1: Renovate the existing Town Hall keeping the historical features in place i.e. spiral staircases, tin ceiling, monumental windows while, however, utilizing the Great Hall for office space. Construct an addition as necessary to meet the Town's space needs. Provide a summary of what would remain of the original building after renovation, or conversely, what would have to be removed, e.g.: siding, exterior trim, doors and windows, foundation, basement slab or other features.

Alternate 2: Renovate the existing Town Hall without regard to the historical features, and utilize the Great Room for office space. Construct an addition as necessary to meet the Town's space needs. Provide a summary of what would remain of the original building after renovation, or conversely, what would have to be removed, e.g.: siding, exterior trim, doors and windows, foundation, basement slab or other features.

Alternate 3: Tear down the existing Town Hall and build a new structure of 2 or 3 stories on the existing site keeping within the architectural context of the Historic District. The architect shall not confine his or her thinking to the existing footprint or size of the building if increasing the width, length, or height of the building (or relocating foundation) would provide a more economical project and/or better flow pattern.

YES
NO

ARTICLE 19. To see if the Town will vote to amend the PARKING ORDINANCE by adding in Section 12, the following: *"In certain areas the Town may designate that parking shall be restricted at certain driveways and crosswalks lined and marked 'No Parking'."* (Authorization: RSA 41:11 and RSA 47:17 XVIII)

YES
NO

ARTICLE 20. (By Petition) To see if the Town of Rye will contribute \$1,500.00 to support Seacoast Pathways, a mental health recovery program providing services to Rye residents.

Seacoast Pathways provides a non-judgmental environment in which people living with mental illness can support each other as they work towards personal goals for jobs, education and housing.

YES
NO

This article is recommended by the Selectmen (2-0)
This article is recommended by the Budget Committee. (8-0)

ARTICLE 21. (By Petition) In anticipation of The State of New Hampshire's agreement to allow the Town of Rye to collect parking revenue to defray costs which are borne solely by Rye tax payers, to see if the Town will vote to require that, after reviewing the recommendations of the John Burke parking study currently underway, the Board of Selectmen consider proceeding with the third and sixth recommendations on page 1-2 of the Town-commissioned parking study dated January 5, 2015 (i.e. the Tighe & Bond Study), so that full operation will occur at the earliest reasonable date if voters approve at the March 2017 election. These recommendations are, for the portions of Ocean Blvd. between Marsh Rd. and Highland Park Ave., and between Harbor Rd. and Perkins Rd., to stripe individual parking stalls and install parking kiosks. The study estimates annual profit, after the first year, of \$405,000, and recommends the kiosks as a way to "address congestion and improve safety." The Board of Selectmen shall review during 2016 whether or not a warrant article should be presented for an up or down vote at the March 2017 election, shall obtain public input throughout the process, and shall revise the Tighe & Bond recommendations based on any new information received.

YES
NO

This article is recommended by the Selectmen (3-0)

ARTICLE 22. (By Petition) To see if the Town will vote to support those options for Rye Town Hall that also include saving the Town Hall building, in order to allow pursuit of private and public grants and contributions

YES
NO

ARTICLE 23. (By Petition) To see if the Town will vote to consider that Town office designs be limited to a space need equal to building space currently owned by the Town, inasmuch as the space requirements have been reduced due to:

1. The Recreation and Sewer Departments relocated to facilities outside of Town Hall in 2015, and
2. The continued use of the second floor of the Town Hall for offices rather than a large meeting room.

YES
NO

This article is not recommended by the Selectmen (3-0)

ARTICLE 24. (By Petition) To see if the Town will vote to require Town Meeting approval prior to the sale, gift or lease for a period of more than one year, of any real property owned, or to be owned, by the Town. Any contemplated transaction where the assessed value or the consideration exceeds \$200,000 shall require an appraisal, by a State-licensed appraiser, commissioned by the Town. A property survey plan shall be required unless one is already recorded with the Registry of Deeds. This article shall govern all transactions by Town Boards and Commissions, except that Town Meeting approval shall not be required where State law specifically permits acquisition without such approval.

YES
NO

This article is not recommended by the Selectmen (3-0)

ARTICLE 25. (By Petition) To see if the Town will vote to make permanent the established limited public forum zone at the Transfer Station used for electroneering, distribution of campaign materials, the obtaining of petition signatures and other similar activities during Station's hours of operation. Approval by the Board of Selectmen shall be contingent only based on safety and operational considerations.

YES
NO

ARTICLE 26. To see if the Town will vote to authorize the Selectmen to sell to the highest bidder at public auction, or sealed bid, such surplus Town equipment as is not traded in on new equipment in 2016.

TOWN OF RYE, NEW HAMPSHIRE

2016
MINUTES OF THE
DELIBERATIVE SESSION

2016 BUDGET

2014
AUDITOR'S REPORT
AND STATUS OF THE 2015 AUDIT

REPORT OF THE ANNUAL TOWN MEETING FOR THE TOWN OF RYE, NEW HAMPSHIRE

January 30, 2016 and March 8, 2016

DELIBERATIVE SESSION

At 9:10 a.m. on the 30th day of January, 2016 at the Junior High School gymnasium. Moderator Eaton convened the meeting and led those in attendance in reciting the Pledge of Allegiance. He thanked everyone for coming to the meeting.

Moderator Eaton continued the tradition of reading the list of our friends and neighbors who had passed away during 2015. A moment of silence was observed in their memory. He then introduced all those seated on the stage starting to his left: Town Clerk/Tax Collector Elizabeth Yeaton.

I can't move on to the other officials on the stage without first saying a few words about Beth. As many of you know, Beth is retiring at the end of April, after serving the Town of Rye for 26 years. She first entered the service of the Town in 1990 as the Town Tax Collector. A year later, she added Deputy Town Clerk to her duties. In 1992, when the Town combined the offices of Clerk and Tax Collector, she became both Deputy Clerk and Deputy Tax Collector, positions she held until 2008 when Jane Ireland retired and the Board of Selectmen appointed Beth to take Jane's place. Beth was elected in her own right as Town Clerk and Tax Collector in 2009, and was re-elected in 2012 and again in 2015. In 2014, she added the position of School District Clerk to her duties. She also served as the Clerk of the Town Hall Committee. Every time Beth ran for office, she was unopposed, and every time she garnered the most votes of any candidate on the ballot. And for good reason. Beth has been the face of the Town of Rye. Everyone who comes into the Town Clerk's office -- to register a car, to license a dog, to get a beach permit, or to pay their taxes -- sees Beth. She helps each person through their issues with a smile on her face, even at the end of a long day. She runs the Clerk's office professionally and efficiently. But I think the most important quality she brings to her job is the way she cares about the people of Rye. I think she knows the name of each and every person who has ever come into the Clerk's office, as well as the name of their spouse, how many kids they have, and the breed of their dog.

As Town Moderator, I have had the good fortune to have Beth at my side at every election, and at the Deliberative Session, for the past eight years. When I started, Beth hardly knew me, but from Day One she offered me her knowledge, her guidance and her unflinching support. Elections in the Town of Rye run incredibly well, mostly because of Beth Yeaton. From 2008 to today, her support of the election process, and for me as Moderator, have been unflagging. For the minutes she transcribes after the Deliberative Session every year she should be given a combat medal. I am proud to call her my friend. Today is Beth's last Deliberative Session. In recognition of what she has done for us over the last 26 years, please stand up and give her the ovation she so richly deserves.

Moderator Eaton presented a bouquet of flowers to Mrs. Yeaton.

Selectman Jenness also thanked Beth for her years of service to the town and wished her well as she enters into retirement. As a retirement gift from the Board of Selectmen, Mrs. Jenness presented her with a copy of Parsons History of Rye.

Beth Yeaton expressed thanks to both Moderator Eaton and Selectman Jenness for their kind sentiments and gifts.

Moderator Eaton continued by introducing Town Counsel Michael Donovan, Board of Selectmen Chair Priscilla Jenness, Selectmen Craig Musselman and Joe Mills, Finance Director/Assistant Town Administrator Cyndi Gillespie and Town Administrator Michael Magnant. Following the introductions, he read a list of candidates running for both town and school offices. He invited those in attendance to meet and hear from the candidates at a forum hosted by the Rye Civic League on February 29th, at 7:00 p.m. at the Rye Public Library. He advised that the town and school election will be held on Tuesday, March 8th from 8:00 a.m. until 7:00 p.m. at the Rye Elementary School. In addition, he encouraged all to attend the School Deliberative Session to be held on Wednesday, February 3rd at 6:30 p.m. at the Jr. High School. In case of inclement weather, that meeting will be held the next day, February 4th.

Next Moderator Eaton stated his rules for the meeting. Copies were available for those who wished to read along. He read as follows:

MODERATOR'S RULES

Next, I'd like to go over the rules. If you don't have a copy of the rules, they're available, along with copies of the warrant, at the check-in table.

*1. **Meeting Purpose.** The purpose of this meeting is to discuss and debate the articles on the town warrant. However, because Rye has adopted the SB2 Deliberative Session form of government, this meeting may not exclude articles from the ballot. Up or down voting on an article only occurs at the March election. Nonetheless, you may amend most articles to change how they appear on the ballot.*

*2. **Moderator's Rules.** By state law, the Moderator sets the rules and procedures of the meeting. I won't follow Robert's Rules of Order or any other complicated rules of parliamentary procedure. Instead, we will follow **my rules**. I may not run a perfect meeting, but I will do my best to run a fair meeting. Ultimately though, this is **your meeting**. By majority vote, you can change my rules, or overrule any decision I make.*

*3. **Procedure.** I will read each article in the order that it appears on the warrant, unless somebody moves to take an article out of order. After reading an article, I will ask for a motion to move it to the floor for debate. Like all motions, it must be seconded. I will then recognize the article's sponsor. After that, everyone here is invited to speak. If you want to speak to an article, come line up behind the microphone. When it's your turn, introduce yourself by name and street address. I will recognize everybody who wants to speak to an article before I permit someone to speak twice. Please **address all comments to me**, not to other people here.*

In the past, I have not set a time limit for speaking, but have asked you to use your common sense. I realize that what constitutes a reasonable amount of time may differ depending on the complexity of the subject matter, so I still am not setting a hard and fast time limit. However, I ask you to try to say what you need to say in 3 or 4 minutes, or less. And if I ask you to wrap it up, that means I'm giving you **one minute** to wrap it up, after which I will ask you, as politely as possible, to sit down.

I also remind you that we are here in the spirit of fair debate. **I realize that people may feel very passionate about some of the articles on the warrant today. However, I urge you not to let your passion get the better of you – I expect everybody to be civil and courteous, not to raise their voices, and to avoid bitterness, and I will not permit personal attacks against people or their motives.** When there is no more discussion on an article, I will order it to be placed on the ballot, either as written or as amended.

4. Amendments. Any registered voter can move to amend an article. **All amendments must be in writing**, even if they are very simple – that way there won't be any confusion when the minutes are being prepared. I will read the amendment, and then open the floor for discussion. When you are ready to vote, I will restate the amendment. There are **5 limits to amendments**. **1st**, articles whose words are prescribed by law may not be amended. **2nd**, to avoid confusion, I will not permit amendments to amendments before the original amendment is voted on. **3rd**, an amendment may not add a new subject. **4th**, you cannot increase the budget, including warrant articles, by more than 10%. **Finally**, amendments cannot **eliminate an article's subject matter**. This means that you cannot amend an article to delete all but a few words of the text and you cannot insert the word "not" into an article; nor can you offer any other amendment that would "nullify" an article or "render it senseless." However, changing the dollar amount of an appropriation does **not** eliminate its subject matter.

5. Voting. If you haven't already done it, check in at the clerk's table, get a ~~GREEN~~ voting card, and sign it. To vote, I will ask you to raise your card. I will only vote if my vote will break or create a tie. We will vote by **secret ballot** if, before voting on an article, **5 voters present** sign a **written** request for a secret ballot.

6. Recounts / Questioning a Vote. A recount will be taken of non-secret ballot votes if **7** voters, either orally or in writing, make such a request. Such recounts will be conducted by secret ballot. The recount of a secret ballot will be taken on the request of **5** voters.

7. Reconsideration. Any voter can move to reconsider a vote. You do not need to have been in the majority to make such a motion. However, I will not permit multiple motions to reconsider.

8. Restricting Reconsideration. You may also move to restrict reconsideration of an article. Such a motion may be made after I order an article to be placed on the ballot. It is **not debatable**. If the motion carries, this meeting may not reconsider that article later.

9. Calling the Question. This is the same as moving to end debate. This motion is **not debatable**. It requires a **two-thirds majority** to pass. If the question is called, I will let the person who is speaking finish before I call for a vote. It will be up to you decide whether there is to be further discussion on the article.

10. Non-Voters Who Wish to Speak. Sometimes a person who is not a registered Rye voter may wish to speak. I will ask if there is any objection. If nobody objects, I will permit that person to speak. If there is an objection, I will call for a vote. The will of the majority will prevail. However, I will allow Town department heads who do not live in Rye to speak to issues relating to their departments.

11. Your Meeting. I remind you that this is your meeting. You may appeal any ruling I make, and I will entertain any motion that is made.

Now, let's get started.

Articles 1 and 2 simply invite voters to the town and school elections on **March 8th** there is nothing to discuss or debate.

Article 3 relates to **5 amendments** to the Rye Zoning Ordinance recommended by the Planning Board. Traditionally, such amendments have not been discussed at the Deliberative Session because, by law, they cannot be amended — they must appear on the ballot as written. In the old Town Meeting days, they had actually been voted on at the election before Town Meeting even occurred. However, you have the right to discuss them if you want to. In the past, when I invited you to do that, you have voted not to. **SO**, if somebody wants to make a motion to discuss any of the amendments in **Article 3**, now is the time to do it. Otherwise, we will move straight to Article 4.

Moderator Eaton read Article 4.

ARTICLE 4. To see if the Town will vote to authorize the selectmen to acquire a 1.4 acre parcel of land at 541 Washington Road, adjacent to the existing Rye Public Safety Building, in order to land bank the property for future use, and further, to raise and appropriate the sum of four hundred sixty thousand dollars (\$460,000) for the purchase. Future uses shall be for Town of Rye public purposes with due consideration of the historic, residential character of the neighborhood. This appropriation is in addition to the operating budget. (Majority vote required).

This article is recommended by the Selectmen (3-0)

This article is recommended by the Budget Committee. (9-0)

Article 4 was **moved** to the floor for discussion by **Selectman Musselman**. His motion was **seconded** by **Selectman Mills**.

Selectman Musselman stated this article was Selectman Mills's idea. The piece of property is located next to the Public Safety Building and is currently owned by the estate of Carl Eric Johnson. The family's intent is to sell the property, whether to the Town of Rye or any other interested party if this article fails. Mr. Musselman felt this would be the only opportunity to acquire this abutting property in the coming future. If the Town doesn't buy it, someone else will and in all likelihood it would remain residential property. Currently the Town has no particular purpose in mind for the use of this property

but he feels it is a good opportunity to purchase it. He urged resisting any amendment that would reduce the amount of money in this article to an amount that would prohibit the purchase of this property.

Tom King, Lori Carbajal, Karen Stewart, Ray Jarvis, Ann Hoyt and Charles Sleeper spoke against the article. They had grave concerns over increasing traffic creating safety problems in the area if this property was earmarked for any non-residential use. Many residents bicycle and walk in the area, especially children on the way to school and the library. The center of town should retain its residential, rural and historical character.

Selectman Jenness urged voters to refer to page 100 in the Master Plan. It refers to development in the Town Center such as proposed in this article. Many visioning sessions went in to the preparation of the Master Plan.

A few residents, including Jeff Quinn urged support of the article stating it was a good investment for the town.

Selectman Musselman stated there was never intent to build a new town hall at this location when the article was written.

Several residents disagreed with Mr. Musselman. They felt this was exactly the intent of the article.

Frank Drake **moved the question** and was **seconded** by Jane Ireland. Moderator Eaton called for a vote on moving the question. He declared the motion to end debate **passed**.

Peter Crawford asked for a recount because he disagreed with Moderator Eaton's declaration that the motion passed. Moderator Eaton called for a recount and asked two people to count the vote on their side of the meeting room. The vote was 55 "yes" to 33 "no". Moderator Eaton again declared the motion **passed**.

Moderator Eaton ordered Article 4 placed on the ballot as written.

Craig Musselman, **seconded** by Ray Tweedie, called for a **motion to restrict reconsideration** on Article 4. The motion **carried**.

(This was later overturned by the Moderator because he earlier erred in announcing the vote to call the question had passed. See continued discussion of Article 4 following Article 5.)

Article 5 was read by Moderator Eaton.

ARTICLE 5. To see if the Town will vote to raise and appropriate the sum of two hundred seventy-five thousand dollars (\$275,000) to purchase a new rescue ambulance for the Fire Department to replace the existing 2008 ambulance and to authorize the withdrawal of the two hundred seventy-five thousand dollars (\$275,000) from Special Revenue Fund 14, *The New*

Ambulance Vehicle Fund created in 2005 for this purpose. This appropriation is in addition to the operating budget. This article has no tax impact. (Majority vote required.)

This article is recommended by the Selectmen (3-0)

This article is recommended by the Budget Committee. (8-0)

It was **moved** by Selectman Jenness and **seconded** by Selectman Musselman to place the article on the floor for discussion.

Mrs. Jenness stated that since 2005, all money in the Cell Tower Special Revenue Fund has been restricted to new ambulance purchases.

Fire Chief Tom Lambert explained the rationale for purchasing a new ambulance. The current ambulance is a 2008 and has almost 92,000 miles on it. While that mileage may seem low, he pointed out these vehicles are not like family cars. The Department doesn't have the luxury of warming up the ambulance before getting up to emergency speed in a matter of seconds. Moving equipment on and off the ambulance also takes its toll. The ambulance averages approximately 475 calls each year. Each year they budget \$3,000 for maintenance and repair to the vehicle. Last year \$9,000 was spent and the ambulance was out of service for 25 days. The industry standard lifetime for an ambulance is 7 to 8 years. This ambulance is at the end of that length of service. He reminded residents there is a 6 to 8 month length of time between ordering a new ambulance and putting one in service.

Peter Crawford, **seconded** by Steve Borne, **offered an amendment**. It would change the last sentence to state: *This article has no 2016 tax impact, the money having been set aside in prior years.*

After discussion which included the cost of a new ambulance (\$275,000 for the vehicle itself only), current balance of the fund (\$331,832) and the transfer of most of most of the equipment on the current ambulance to the new vehicle. Moderator Eaton called for a **vote on the amendment**. The amendment **carried**. The amended article reads:

To see if the Town will vote to raise and appropriate the sum of two hundred seventy-five thousand dollars (\$275,000) to purchase a new rescue ambulance for the Fire Department to replace the existing 2008 ambulance and to authorize the withdrawal of the two hundred seventy-five thousand dollars (\$275,000) from Special Revenue Fund 14, The New Ambulance Vehicle Fund created in 2005 for this purpose. This appropriation is in addition to the operating budget. This article has no 2016 tax impact, the money having been set aside in prior years. (Majority vote required.)

After discussion on ambulance runs to Webster at Rye and Sanctuary Care. **Moderator Eaton ordered Article 5 to be placed on the ballot as amended.**

Scott Marion, **seconded** by Randy Crapo, called for a **motion to restrict reconsideration** on Article 5. The motion **carried**.

Ben Chichester complained that he had not been given the opportunity to address Article 4 before the motion to end debate was voted on. He felt he should have been allowed to speak because he was waiting near the microphone as instructed by Moderator Eaton in his rules.

Moderator Eaton misunderstood Mr. Chichester and thought he was talking about Article 5. He said that Mr. Chichester could not speak to Article 5 because debate had been ended by the vote of the meeting.

Moderator Eaton then announced that he had made a mistake in ending debate on Article 4. He forgot that ending debate after the question is called requires a 2/3 majority rather than a simple majority. The vote was 55 to 33 in favor of ending debate, which was not a 2/3 majority. He apologized for his error, stating that the motion to call the question actually had not passed, that the debate on Article 4 should not have been ended, and that the vote to restrict reconsideration was therefore invalid. **He then stated that he was reopening the discussion on Article 4.**

Selectman Musselman made a **motion, seconded** by Selectman Jenness, to override the moderator.

Moderator Eaton called for a **vote on the motion**. The motion **failed**.

Mark Josephs and Ben Chichester spoke against this article expressing concerns that a town hall on this property would diminish the rural and historic make up of Rye Center. They felt it was an affront to homeowners in the area and Selectmen should not be allowed to disrupt neighborhoods.

Mark Josephs, **seconded** by Charles Sleeper, **offered an amendment** to reduce the appropriation in this article to \$50,000. After discussion, Moderator Eaton called for a vote on the amendment. **The amendment failed.**

An **amendment** was presented by Peter Crawford, **seconded** by Betty Anderson. This amendment would add language to clarify the makeup and location of the property as well as future use of the site.

Moderator Eaton read the article as amended:

To see if the Town will vote to authorize the selectmen to acquire a 1.4 acre parcel of land, together with the house and any other buildings thereon, at 541 Washington Road, adjacent to, and to the northeast of, the existing Rye Public Safety Building, in order to land bank the property for future use, and further, to raise and appropriate the sum of four hundred sixty thousand dollars (\$460,000) for the purchase. The future uses, which may include a site for a new Town Hall, shall be for Town of Rye public facility purposes with due consideration of the historic, residential character of the neighborhood. This appropriation is in addition to the operating budget. (Majority vote required).

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (9-0)

After discussion, Moderator Eaton called for a **vote on the amendment**. The amendment **carried**.

An additional amendment to lower the appropriation in the article, presented by Lori Carbajal, seconded by Peter Crawford, failed.

Hearing no further discussion, **Moderator Eaton ordered Article 4 placed on the ballot as amended.**

Joe Mills **moved to restrict reconsideration** on Article 4. Randy Crapo gave a **second** to the motion.

Moderator Eaton called for a vote on the motion to restrict reconsideration. The motion **passed.**

Moderator Eaton read Article 6.

ARTICLE 6. To see if the Town will vote to raise and appropriate the sum of one hundred seventy-five thousand dollars (\$175,000) to purchase a new truck with plow and spreader to replace a 2002 six wheel dump truck and to authorize the withdrawal of one hundred seventy-five thousand dollars (\$175,000) from the Highway Equipment Capital Reserve Fund created in 1994 for this purpose. This appropriation is in addition to the operating budget. This article has no tax impact. (Majority vote required.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (8-0)

A **motion** to move Article 6 to the floor for discussion was received by Selectman Mills and **seconded** by Scott Marion.

Selectman Mills explained this was a housekeeping article done every year. Highway Director Dennis McCarthy also spoke to this article for clarification purposes.

Peter Crawford offered an **amendment** which was **seconded** by Sam Winebaum. Said amendment would change the last sentence to read:

“This article has no 2016 tax impact, the money having already been set aside”.

Selectman Mills felt this amendment would complicate the article and urged defeat of the amendment.

Hearing no further discussion, Moderator Eaton called for a **vote on the amendment.** The amendment **failed.**

No more discussion ensued.

Moderator Eaton ordered Article 6 placed on the ballot as written.

Article 7 was read by Moderator Eaton.

ARTICLE 7. To see if the Town will vote to raise and appropriate the sum of one hundred fifty thousand dollars (\$150,000) for the purpose of replacing one or both existing culverts under Red Mill Lane by public bid by construction contractors. Said sum to include engineering services for bidding and inspecting of the project. This appropriation is in addition to the operating budget. (Majority vote required.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (8-0)

It was **moved** by Selectman Musselman and **seconded** by Randy Crapo to place the article on the floor for discussion.

Selectman Musselman explained this article refers to the 2nd issue in the management plan regarding culverts and drainage. The 1st issue was attended to last year when the culvert near Petey's Market was replaced.

Randy Crapo explained these projects are included in the Capital Improvement Plan. Members of the CIP Committee review and project capital improvements envisioned over the next 10 years. It is their job to prioritize these projects and report their findings to the Board of Selectmen on a yearly basis.

Peter Crawford asked for the costs associated with the project and the reason the article was written mentioning "one or two" culverts.

Highway Director Dennis McCarthy replied he expects each culvert will cost approximately \$150,000 to complete. He decided to include both in the bidding proposals so they will be prepared ahead of time for next year's project. It is his intention to replace only one culvert this year.

Hearing no further discussion, **Moderator Eaton ordered Article 7 placed on the ballot as written.**

Phil Winslow, **seconded** by Frank Drake, called for a **motion to restrict reconsideration** on Articles 6 & 7. The motion **carried**.

Moderator Eaton read Article 8.

ARTICLE 8. To see if the Town will vote to rescind the authorization of the issuance of bonds and notes for the purpose of purchasing a new loader/backhoe in the amount of One Hundred Ten Thousand Dollars (\$110,000) as authorized by Article 4 of the 2011 annual town meeting. (3/5 vote required).

Note: The loader/backhoe was purchased through a lease/purchase program and the original bond authorization needs to be withdrawn.

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (8-0)

A **motion** to move Article 8 to the floor for discussion was received by Selectman Jenness and **seconded** by Selectman Musselman.

Selectman Jenness explained this article is for housekeeping purposes only. Since a lease/purchase option was used instead of a straight purchase, no bond or note was required. The prior authorization needs to be rescinded.

No further discussion was called for. **Moderator Eaton ordered Article 8 placed on the ballot as written.**

Paul Goldman **moved to restrict reconsideration** on Article 8. Phil Winslow gave a **second** to the motion.

Moderator Eaton called for a vote on the motion to restrict reconsideration. The motion **passed**.

Article 9 was read by Moderator Eaton.

ARTICLE 9. To see if the Town will vote to raise and appropriate the sum of one hundred thousand dollars (\$100,000) to be added to the Fire Truck Capital Reserve Fund established by Town vote in 1965. This appropriation is in addition to the operating budget. (Majority vote required.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (9-0)

It was **moved** by Selectman Mills and **seconded** by Selectman Musselman to place the article on the floor for discussion.

Selectman Mills stated this is another housekeeping article. Money is added to this capital reserve fund each year to avoid a big hit when a new fire truck is to be purchased.

Discussion followed concerning the possibility of using money from the Cell Tower Special Revenue Fund and adding that money to the Fire Truck Capital Reserve Fund. Finance Director Cyndi Gillespie advised that money in the cell tower fund is restricted to the purchase of a new ambulance.

Peter Crawford asked when we expect to purchase a new fire truck. Selectman Musselman said it is listed on the CIP for 2018.

After further discussion on money from the Cell Tower Special Revenue Fund, Selectman Musselman stated it would take a new warrant article to be presented at a future deliberative session to repurpose the use of that fund.

Hearing no further discussion, **Moderator Eaton ordered Article 9 placed on the ballot as written.**

Paul Goldman **moved to restrict reconsideration** on Article 9. Phil Winslow gave a **second** to the motion.

Moderator Eaton called for a **vote** on the motion to restrict reconsideration on Article 9. The motion **passed**.

Moderator Eaton read Article 10.

ARTICLE 10. To see if the Town will vote to raise and appropriate the sum of seventy-five thousand dollars (\$75,000) to be added to the Highway Equipment Capital Reserve Fund created in 1994. This appropriation is in addition to the operating budget. (Majority vote required.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (8-0)

It was **moved** by Selectman Jenness and **seconded** by Selectman Musselman to place the article on the floor for discussion.

Selectman Jenness stated this fund currently has \$264,825 in it. If Article 6 is passed, \$175,000 will be used to purchase a new truck for the Highway Department leaving a balance of \$89,825 in this fund. If this article passes the balance would then be \$164,825.

A short discussion followed on what happens when old equipment is taken out of service. Selectman Mills advised it is sold and the money goes in to the General Fund.

Hearing no further discussion, **Moderator Eaton ordered Article 10 placed on the ballot as written.**

Frank Drake **moved to restrict reconsideration** on Article 10. Brian Klinger gave a **second** to the motion.

Moderator Eaton called for a **vote** on the motion to restrict reconsideration. The motion **passed**.

A **motion** was presented by Steve Borne, **seconded** by Peter Crawford, to take Articles 22 & 23 out of order and be placed before Article 11. Moderator Eaton called for a **vote** on the motion. The motion **failed**.

Moderator Eaton began reading Article 11. A **motion** to waive the further reading of the article was received from Selectman Musselman. Selectman Jenness **seconded** the motion. Moderator Eaton called for a **vote** on the motion. The motion **passed**.

ARTICLE 11. To see if the Town will vote to raise and appropriate the sum of sixty thousand dollars (\$60,000) to retain a licensed architectural firm to study, determine and report on the estimated construction project costs and the key design parameters required to support

Town Hall business functions for the following five options, and to conduct a town wide follow up survey.

Alternate 1: Renovate the existing Town Hall keeping the historical features in place, i.e. spiral staircases, tin ceiling, monumental windows while, however, utilizing the Great Hall for office space. Construct an addition as necessary to meet the Town's space needs. Provide a summary of what would remain of the original building after renovation, or conversely, what would have to be removed, e.g.: siding, exterior trim, doors and windows, foundation, basement slab or other features.

Alternate 2: Renovate the existing Town Hall without regard to the historical features, and utilize the Great Room for office space. Construct an addition as necessary to meet the Town's space needs. Provide a summary of what would remain of the original building after renovation, or conversely, what would have to be removed, e.g.: siding, exterior trim, doors and windows, foundation, basement slab or other features.

Alternate 3: Tear down the existing Town Hall, and build a new structure of 2 or 3 stories on the existing site keeping within the architectural context of the Historic District. The architect shall not confine his or her thinking to the existing footprint or size of the building if increasing the width, length, or height of the building (or relocating foundation) would provide a more economical project and/or better flow pattern.

Alternate 4: Leave existing Town Hall, for use by others, with no cost to the Town. Build a new structure of 2 or 3 stories, on the existing site keeping within the architectural context of the Historic District. The architect shall consider total building mass for the site, along with traffic flow, parking, septic, drainage, and any other considerations. Architect should consider possible modification of property lines of town-owned property as needed, to provide access, individual septic systems, or other needs.

Alternate 5: Leave existing Town Hall, for use by others, with no cost to the Town. Build a new structure at the Washington Road site next to the Public Safety Building, keeping within the architectural context of the Historic District, and installing landscaping to minimize visual impacts on the residential neighborhood. (If Warrant Article 4 passes.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (9-0)

It was **moved** by Selectman Jenness and **seconded** by Selectman Musselman to place the article on the floor for discussion.

Selectman Musselman stated this article was the result of the work by the Town Hall Committee. At their request, a survey was sent out to the residents by the Board of Selectmen to get the thoughts of the townspeople regarding the Town Hall building. The received a 39% response. The majority wanted to save the current Town Hall but didn't want to spend over \$2 million on the project.

Paul Goldman, chairman of the Town Hall Committee, advised most people wanted to keep Town Hall at its current location. He felt the survey did not give a clear picture of what the people want. John Loftus, also a member of the committee, said the survey was somewhat useful but lacked costs

associated with each option. He recommended that only architects not involved in previous designs be considered if this article passes.

Russ Bookholz and Steve Borne spoke against the article, stating the town is no further along after 4 years of studying, 2 designs and spending over \$350,000 with nothing to show for it. Don't spend any more money until we know what we want.

Discussion continued over the use of the trolley barn across from the cemetery (old Police Station). Ned Paul and Burt Dibble would like to see the location used in some manner (demolish & rebuild or rehab the current building) to help alleviate some of the crowding at Town Hall.

Jeff Quinn, John Loftus and Jean Low spoke in support of the article, each feeling the voters should be allowed to vote on this article in its entirety.

Sam Winchaum, **seconded** by Dominique Winchaum, presented an **amendment**.

It would change the article as follows:

- Add *"The architectural firm will conduct its work under the following parameters:"* at the end of the first paragraph.
- Delete Alternates 1 through 5 and replace with those listed below.
- *Alternate 1: The existing Town Hall shall not be torn down.*
- *Alternate 2: To meet the business functions, the existing Town Hall shall be renovated within its current envelope to serve as the primary location for Town Hall business functions. Construct an addition as necessary to meet the Town's space needs. Renovation and any addition will preserve, to the maximum extent possible, Town Hall's dimensional proportions, its historic integrity and architectural features, i.e. spiral staircases, tin ceiling, monumental windows while, however, utilizing the Great Hall for office space. The architectural firm will provide a summary of what would remain of the original building after renovation, or conversely, what would have to be removed, e.g. siding, exterior trim, doors and windows, foundation, basement slab or other features.*
- *Alternate 3: The building(s) renovated and potentially expanded to conduct Town Hall business functions shall not exceed 7,500 gross square feet. Excluding basement storage space in a new addition and meeting rooms in facilities other than the existing Town Hall. NOTE: The existing Town Hall is 6128 gross sq. ft.*
- *Alternate 4: The architect shall be free to consider any other existing town-owned buildings to supplement the space in the existing Town Hall, keeping within the space constraints above.*

Mr. Winebaum explained that we already know what the space needs are. Why not give the architects a more focused charge. "Rye is not about throwing out the past."

John Loftus spoke in opposition to the amendment. He felt it would discount the work of the 12 members of the Town Hall Committee.

Mae Bradshaw advised that leaving any mention of demolition of the existing building would preclude the town from being considered for any grants from NH Preservation Alliance to help offset the cost of the project.

Discussion continued with Ray Jarvis, Frank Drake, Victor Azzi and Jaci Grote speaking against the amendment.

Jaci Grote, **seconded** by Sally King, **called the question** on the amendment. Moderator Eaton called for a **vote** on the motion to end debate on the amendment. The motion **carried**.

Moderator called for a **vote** on the amendment. The amendment **failed**.

Jim Rand and Mike Thiel discussed the possibility of using a Request for Proposal (RFP) on each option so we won't have to spend any money but will still get the info needed.

Phil Winslow asked what would happen next if this article passes.

Selectman Musselman answered that a new Town Hall Committee would be appointed, another survey listing costs for each option would go out, the results of that survey would be studied and a possible warrant article would be drafted.

Steve Borne offered an **amendment**. The amendment would strike Alternate 3 from the article and renumber the last two alternates to 3 and 4 respectively. Burt Dibble **seconded** his motion.

Jean Low, Frank Drake, Jeff Quinn and John Loftus spoke against the amendment.

Jane Ireland, **seconded** by Burt Dibble, **called the question** on the amendment. Moderator Eaton called for a **vote** to end debate on the amendment. The motion **carried**.

Moderator Eaton called for a **vote** on the amendment. The amendment **failed**.

Frank Drake expressed concern that \$60,000 might not be enough to get the info we need. He then **called the question to end debate on Article 11**, contingent on Burt Dibble being allowed to speak.

Burt Dibble was concerned that the article provides no provision to use other town owned space. He proposed an **amendment**. Phil McDonough **seconded** the amendment. The amendment would add "or utilize other space presently owned by the town" after the word necessary in line 3 of Alternate 1.

Selectman Musselman said if this amendment passes we would have to increase the \$60,000.

Frank Drake stated this amendment should be applied to all of the options. The amendment, if passed, would unfairly bias the vote in favor of Alternate 1.

Peter Crawford asked how much more money would be needed if the amendment was to pass.

Selectman Musselman stated he was unable to answer that question because it depends on several factors.

Paul Goldman cautioned the voters that, if too much money is added, the article won't pass.

Jane Ireland **called the question** on the amendment. Frank Drake **seconded** her motion.

Victor Azzi complained that he was waiting to speak when the motion to call the question on the amendment was made.

Moderator Eaton explained that the question on the amendment had been called - only a person who is actually speaking when the question is called may speak at that time. A vote must then be taken on whether to end debate. If less than 2/3 of the meeting voted to end debate, then Mr. Azzi would be permitted to speak. Mr. Azzi continued to argue with the Moderator. The Moderator repeatedly asked Mr. Azzi to sit down.

Moderator Eaton called for a vote on the motion to end debate on the Dibble amendment to Article 11. The motion passed by at least a 2/3 majority.

Moderator Eaton called for a **vote** on the amendment. The amendment **failed**.

Moderator Eaton noted that Frank Drake had called the question on Article 11, contingent on Mr. Dibble being permitted to speak. He could not remember whether there had been a second to Mr. Drake's motion to end debate. **Janice Ireland seconded the call of the question on Article 11.**

Moderator Eaton called for a **vote** on the motion to end debate on Article 11. The motion **passed** by at least a 2/3 majority

Moderator Eaton ordered Article 11 placed on the ballot as written.

Frank Drake **moved to restrict reconsideration** on Article 11. Jeff Quinn gave a **second** to the motion.

Moderator Eaton called for a **vote** on the motion to restrict reconsideration. The motion **passed**.

A **motion** to take Article 20 out of order was received from Selectman Mills and was **seconded**. Moderator Eaton called for a **vote** on the motion. The motion **carried**.

Moderator Eaton read Article 20.

ARTICLE 20. (By Petition) To see if the Town of Rye will contribute \$1,500.00 to support Seacoast Pathways, a mental health recovery program providing services to Rye residents.

Seacoast Pathways provides a non-judgmental environment in which people living with mental illness can support each other as they work towards personal goals for jobs, education and housing.

This article is recommended by the Selectmen (2-0)

This article is recommended by the Budget Committee. (8-0)

It was **moved** by Selectman Mills and **seconded** by Selectman Jenness to move the article to the floor for discussion.

Sharon Musselman explained that Seacoast Pathways serves several Rye residents. Their programs help clients to get back to work or school and overcome difficulties.

Selectman Mills expressed support for this article. Selectman Musselman abstained from any vote on this article because his wife is the sponsor.

Hearing no further discussion, Moderator Eaton ordered Article 20 placed on the ballot as written.

Paul Goldman **moved to restrict reconsideration** on Article 20. Brian Klinger **seconded** the motion.

Moderator Eaton called for a **vote** on the motion. The motion **passed**.

Article 12 was read by Moderator Eaton.

ARTICLE 12. To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of creating a fund to replace the Rye Public Library's aging and inefficient current heating, ventilation and air conditioning system, and to raise and appropriate the sum of sixty thousand dollars (\$60,000) to be placed in this fund, and to designate the Library Trustees as agents to expend. This appropriation is in addition to the Library's operating budget. (Majority vote required.)

This article is recommended by the Selectmen (3-0)

This article is recommended by the Budget Committee. (8-0)

It was **moved** by Selectman Musselman and **seconded** by Selectman Jenness to move the article to the floor for discussion.

Selectman Musselman asked Library Trustee Phil Boynton to address the article.

Phil Boynton stated this capital reserve fund will be established and added to over the next few years to help offset the cost of replacing the outdated and inefficient HVAC system. It will help avoid a big financial hit when the time comes for replacement.

Hearing no further discussion, **Moderator Eaton ordered Article 12 placed on the ballot as written.**

Paul Goldman **moved to restrict reconsideration** on Article 12. Brian Klinger **seconded** the motion.

Moderator Eaton called for a **vote** on the motion. The motion **passed**.

Article 13 was read by Moderator Eaton.

ARTICLE 13. To see if the Town will vote to raise and appropriate the sum of Fifty Thousand Dollars (\$50,000) to be placed in the expendable general trust fund known as the Town Employees' Accumulated Leave Fund, established pursuant to RSA 31:91-a by Article 14 of the 1990 Rye Town Meeting for the purpose of funding Town Employees' accumulated leave accounts. This appropriation is in addition to the operating budget. (Majority vote requires.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee. (8-0)

The article was **moved** to the floor by Selectman Jenness and **seconded** by Selectman Musselman.

Selectman Jenness advised that the current balance in this fund was \$174,897. The Town's liability is \$474,244. The Department of Revenue Administration recommends funding this account at 50%. If this article passes, the balance would then be just short of that recommendation.

No further discussion was called for. **Moderator Eaton ordered Article 13 be placed on the ballot as written.**

Brian Klinger **moved to restrict reconsideration** on Article 13. Phil Boynton **seconded** the motion.

Moderator Eaton called for a **vote**. The motion **carried**.

Moderator Eaton read Article 14.

ARTICLE 14. To see if the Town will raise and appropriate the sum of twenty five thousand dollars (\$25,000) to be added to The Municipal Buildings Maintenance Expendable Trust Fund established by Article 11 at the 2007 Town Meeting under the provisions of RSA 31:19-a, for the purpose of major repairs to municipal buildings. This appropriation is in addition to the operating budget. (Majority vote required.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee (8-0)

The article was **moved** to the floor by Selectman Jenness and **seconded** by Selectman Musselman.

Selectman Jenness advised the balance in this fund was currently \$38,312. If this article passes the fund would contain \$63,312.

Hearing no further discussion, **Moderator Eaton ordered Article 14 placed on the ballot as written.**

Brian Klinger **moved to restrict reconsideration** on Article 14. Phil Boynton **seconded** the motion.

Moderator Eaton called for a **vote on the motion**. The motion **carried**.

Article 15 was read by Moderator Eaton.

ARTICLE 15. To see if the Town will vote to raise and appropriate the sum of five thousand dollars (\$5,000) to be added to the Rye Public Library Building Maintenance Expendable Trust Fund established by Article 14 at the 2005 Town Meeting under the provisions of RSA 31:19-a, as a maintenance fund for the Rye Public Library building. This appropriation is in addition to the Library's operating budget. (Majority vote required.)

This article is recommended by the Selectmen (3-0)
This article is recommended by the Budget Committee (6-1)

It was **moved** by Selectman Musselman and **seconded** by Selectman Jenness to bring the article to the floor for discussion.

Brian Klinger advised this fund is available for emergency purposes and is separate from the Library's operating budget. The current balance is \$19,500.

No further discussion was called for. **Moderator Eaton ordered Article 15 placed on the ballot as written.**

Moderator Eaton read Article 16.

ARTICLE 16. Shall the Town raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein totaling (\$9,104,794) nine million one hundred four thousand seven hundred ninety-four dollars? Should this article be defeated, the default budget shall be (\$8,828,460) eight million eight hundred twenty-

eight thousand four hundred sixty dollars which is the same as last year, with certain adjustments required by previous action of the Town or by law; or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. (Majority vote required.)

NOTE: This operating budget warrant article does not include appropriations in ANY other warrant articles.

This article is recommended by the Selectmen (3-0)

This article is recommended by the Budget Committee. (9-0)

It was **moved** by Selectman Musselman and **seconded** by Selectman Jenness to move the article to the floor for discussion.

Selectman Musselman explained that this budget has gone through a significant process. The Selectmen "hacked away" at everything, line by line. Then the Budget Committee examined it thoroughly. Rye is considered to be "cheap" and he likes that characterization.

Peter Crawford believes the budget sheet on the taxes is misleading. It shows the taxes going down but that is only because significant debt has been retired. In actuality, spending is up 4% as compared to a 2% inflation rate.

Mike Thiel would like to see the difference between the budget and actual spending stated. In his opinion the budget should be less if last year's spending was down compared to last year's budget.

Tom Farrelly asked why one line in the town's budget was up over \$60,000 over last year.

Selectman Musselman explained \$30,000 was for site investigation for the Parsons Creek Watershed.

Peter Crawford asked why all money not spent was not used to reduce taxes.

Cyndi Gillespie answered that only \$400,000 of the \$800,000 overlay was used to reduce taxes. The balance was saved to help reduce taxes in the coming few years.

Selectman Mills advised that the auditors state how much should remain in the overlay.

It was **moved** by Jane Ireland, **seconded** by Jaci Grote, to end debate on the budget. Moderator Eaton called for a **vote** on the motion. The motion **carried**.

Moderator Eaton ordered Article 16 placed on the ballot as written.

Beth Yeaton made a **motion to restrict reconsideration** on Article 16. Her motion received a **second** from Charles Sleeper.

Moderator Eaton called for a **vote** on the motion. The motion **passed**.

Jaci Grote made a **motion** to deliberate Article 24 at this time. Her motion received a **second** from Mark Josephs. The **vote** called for by Moderator Eaton showed the motion **carried**.

Moderator Eaton read Article 24.

ARTICLE 24. (By Petition) To see if the Town will vote to require Town Meeting approval prior to the purchase, sale, gift or lease for a period of more than one year, of any real property, owned, or to be owned, by the Town. This action rescinds, pursuant to RSA 41:14-c, Article 12 of the 2002 Town Meeting. Any contemplated transaction where the assessed value or the consideration exceeds \$200,000 shall require an appraisal, by a State-licensed appraiser, commissioned by the Town. A property survey plan shall be required unless one is already recorded with the Registry of Deeds. This article shall govern all transactions by Town Boards and Commissions, except that Town Meeting approval shall not be required where State law specifically permits acquisition without such approval.

The article was **moved** to the floor by Peter Crawford and **seconded** by Andrea Morrissey.

Peter Crawford began by stating it would have been nice to have such an article passed before the Parsonage Apartments were considered to be sold to the Housing Partnership or the Rand Lumber Co. land was purchased. It is time to bring back the decision on property purchases to the voters.

Mr. Crawford offered an **amendment** to strike "*transaction*" from the third line and replace it with "*purchase, sale or gift by the Town*". His amended received a **second** from Ben Chichester.

Joe Cummins questioned whether the Town can make a gift to a private party.

Selectman Musselman stated the Board of Selectmen had never had a thought of selling the Parsonage Apartments or any other land without voter approval.

Hearing no further discussion, Moderator Eaton called for a **vote** on the amendment. The amendment **failed**.

Selectman Musselman felt that Rye has led the State in the transparency of its land purchases. Conservation Commission land purchases cannot be held up by such an article.

Jaci Grote made a **motion** to **amend** the article which would add "*, such as land purchased by the Rye Conservation Commission where RSA 36-A:5 overrides.*" Her amendment was **seconded** by Mae Bradshaw.

After a short discussion, Jaci Grote withdrew her amendment as it was unnecessary. Mae Bradshaw agreed with the withdrawal of the amendment.

Shawn Crapo offered an **amendment** to remove the word “*purchase*” from line two. Phil Winslow **seconded** the amendment.

After some discussion Mr. Crapo offered a **revision** to his amendment to strike from the third line “*This action rescinds, pursuant to RSA 41:14-c, Article 12 of the 2002 Town Meeting.*” Mr. Winslow agreed to the revision.

Since no further discussion was called for, Moderator Eaton called for a **vote** on the amendment. The amendment **passed**.

Scott Marion **called the question**. Jane Ireland gave a **second**.

Moderator Eaton called for a vote on ending debate on the article. The vote showed the motion **carried**.

Moderator Eaton ordered Article 24 placed on the ballot as amended.

A motion to **restrict reconsideration** of Article 24 was received and **seconded** by Scott Marion and Jane Ireland respectively. Moderator Eaton called for a vote on the motion. The motion **carried**.

(After the meeting concluded, the Board of Selectmen voted to not recommend Article 24 by a vote of 3 to 0.)

Moderator Eaton read Article 17.

ARTICLE 17. To see if the Town will vote to amend the “TOWN DUMP REGULATION” as proposed by the selectmen as follows:

Add a new paragraph at the end of the section on “**PERMITS**”, which reads as follows:

“Contractor permits shall be issued to contractors and landscapers doing business with residents of and in the Town of Rye, NH. Contractors shall obtain a yearly permit issued at the Transfer Station, by the Transfer Station staff, for a yearly fee of \$150.00. Said contractor permit being good for one calendar year, running from January 1st until December 31st of each calendar year.”

Said amendment meaning and intending to require contractors and landscapers doing business in and with residents of Rye to pay a \$150 fee per year for the privilege of using the services of the transfer station.

It was **moved** by Selectman Mills and **seconded** by Selectman Musselman to bring the article to the floor for discussion.

Selectman Mills stated Town is just catching up with the times. The Board of Selectmen is trying to assure only Rye waste is going to the Transfer Station.

Russ Bookholz asked why not charge everyone using the facility. He offered an **amendment** to add “*non-resident*” before “contractors” wherever it appears in the article. Charles Sleeper gave a **second** to the amendment.

Highway Director Dennis McCarthy stated he agreed with the proposed amendment.

Tom Farrelly felt the fee is way too low.

Dennis McCarthy said this would just be a change to the Transfer Station regulations. A database would be established. They would have information on who these contractors are and where the debris is coming from.

Tom Farrelly asked if the contractors should be made to show proof of where the debris is coming from.

Mr. McCarthy replied his staff does not have time to collect this information.

Some voters thought the amendment should state both non-residents contractors and landscapers.

Mr. Bookholz and Mr. Sleeper agreed to revise the amendment to state such.

Moderator Eaton read the article as it would read if amended.

To see if the Town will vote to amend the “TOWN DUMP REGULATION” as proposed by the selectmen as follows:

Add a new paragraph at the end of the section on “**PERMITS**”, which reads as follows:

“Contractor permits shall be issued to contractors and landscapers doing business with residents of and in the Town of Rye, NH. Contractors shall obtain a yearly permit issued at the Transfer Station, by the Transfer Station staff, for a yearly fee of \$150.00 for non-resident contractors and landscapers. Said contractor permit being good for one calendar year, running from January 1st until December 31st of each calendar year.”

Said amendment meaning and intending to require contractors and landscapers doing business in and with residents of Rye to pay a \$150 fee for non-resident contractors and landscapers per year for the privilege of using the services of the transfer station.

Moderator called for a **vote** on the amendment. The amendment **passed**.

There being no further discussion, **Moderator Eaton ordered Article 17 placed on the ballot as amended.**

Article 18 was read by Moderator Eaton.

ARTICLE 18. To see if the Town will vote to approve the Health Regulation re: onsite wastewater treatment system pump-out and inspection applicable to Parsons Creek Watershed as adopted by the Health Officer and approved by the Board of Selectmen with the purpose of improving the water quality of Parsons Creek.

It was **moved** by Selectman Musselman and **seconded** by Selectman Jenness to move the Article 18 to the floor for discussion.

Selectman Musselman stated the article was proposed by Health Officer Dr. Snow. This area regularly has high bacteria counts. Children play in the water at the beach affected by the runoff of Parsons Creek. Properties within the catchment area would be required to show proof of having their septic systems pumped out every three years. Properties in less sensitive regions could apply for a waiver to allow pump outs every seven years.

Steve Borne asked, if the article is passed, would property owners have three years to have their septic systems pumped out.

Town Counsel Michael Donovan replied that after June 2016 property owners would receive a letter from the Building Inspector advising them they would need to show proof of their last pump out. If not done within the last three years, their systems would have to be pumped out immediately.

Don Beeson commended the selectmen for this article.

Shawn Crapo asked if this would apply to holding tanks.

Selectman Musselman stated that properties with holding tanks must obtain a state permit to have one and be identified to the Town.

Building Inspector Peter Rowell advised that 4 or 5 properties have them.

No further discussion was called for.

Moderator Eaton ordered Article 18 placed on the ballot as written.

Kim Reed made a **motion to restrict reconsideration** on Article 18. Her motion received a **second** from Janice Ireland.

Moderator Eaton called for a **vote** on the motion. The motion **passed**.

A **motion** to take up Article 25 at this time was requested by Joe Cummins. Steve Borne **seconded** the motion.

Moderator Eaton called for a **vote** on the motion. The vote **passed**.

Moderator Eaton read Article 25.

ARTICLE 25. (By Petition) To see if the Town will vote to make permanent the established limited public forum zone at the Transfer Station used for electioneering, distribution of campaign materials, the obtaining of petition signatures and other similar activities, during Station's hours of operation. Approval shall be contingent only based on safety considerations.

It was **moved** by Scott Marion and **seconded** by Sam Winebaum to move the article to the floor for discussion.

Scott Marion stated the article was self-explanatory. Some of the people running for office have requested this.

Selectman Joe Mills offered an **amendment** to add the words "*and operational*" before "considerations" in the last line. Nick Toumpas gave a **second** to the amendment.

Hearing no call for discussion, Moderator Eaton called for a **vote** on the amendment. The amendment **passed**.

Nancy Weiland inquired who gives the approval.

Since it was agreed that the Board of Selectmen gives the approval, Andrea Morrissey, **seconded** by Jane Ireland, offered an **amendment** to add "*by the Board of Selectmen*" after "Approval".

Shawn Crapo, **seconded** by Nick Toumpas, **called the question** on the amendment.

Moderator Eaton called for a **vote** on ending debate on the amendment. The motion passed.

Moderator Eaton called for a **vote** on the amendment. The amendment **passed**.

Frank Drake **called the question** on the article. Phil Winslow gave the motion a **second**.

Moderator Eaton called for a vote to end debate on the article. The motion **carried**.

Moderator Eaton ordered Article 25 placed on the ballot as amended.

A **motion to restrict reconsideration** on Article 25 was presented by Shawn Crapo and **seconded** by Charlie Sleeper. Moderator Eaton called for a **vote** on the motion. The motion **carried**.

Article 19 was read by Moderator Eaton.

ARTICLE 19. To see if the Town will vote to amend the PARKING ORDINANCE by adding in Section 12, the following: *"In certain areas, the Town may designate that parking shall be restricted at certain driveways and crosswalks lined and marked 'No Parking'."* (Authorization: RSA 41:11 and RSA 47:17 XVIII)

It was **moved** by Selectman Mills and **seconded** by Selectman Jenness to move the article to the floor for discussion.

Selectman Mills stated this article addresses safety concerns, especially in the beach area during the summer season.

After a short discussion, **Moderator Eaton ordered Article 19 placed on the ballot as written.**

Article 21 was read by Moderator Eaton.

ARTICLE 21. (By Petition) In anticipation of The State of New Hampshire's agreement to allow the Town of Rye to collect parking revenue to defray infrastructure costs **which are borne solely by Rye tax payers, to see if the Town will vote to require the Board of Selectmen** to proceed with the third and sixth recommendations on page 1-2 of the Town-commissioned parking study dated January 5, 2015, so that full operation would occur by June 30, 2017 if voters approve at the March 2017 election. These recommendations are, for the portions of Ocean Blvd. between Marsh Rd. and Highland Park Ave., and between Harbor Rd. and Perkins Rd., to stripe individual parking stalls and install parking kiosks. The study estimates annual profit, after the first year, of \$405,000, and recommends the kiosks as a way to "address congestion and improve safety." The Board of Selectmen shall take all necessary steps during 2016 so that a warrant article will be ready for an up or down vote at the March 2017 election, shall obtain public input throughout the process, and fine tune the study recommendations based on any new information received.

This article is not recommended by the Selectmen (3-0)

It was **moved** by Peter Crawford and **seconded** by Don Beeson to move the article to the floor for discussion.

Tom Farrelly stated Rye is possibly the only town on the eastern seaboard not to charge a parking fee. The charges in neighboring towns seem to be going up and that just drives more cars to Rye. Charging for parking could generate almost \$500,000 which would help defray the costs of operating the beaches. Senator Nancy Stiles and the DOT Commissioner are in agreement with this article to allow Rye to keep the parking revenues. It would lower the tax burden. A shuttle bus could be provided to replace any lost parking spaces should Article 19 pass.

Referring to the \$10,000 parking study, he thinks we should stop studying this subject and get moving on it. The selectmen have stated concerns that the State will take the revenue from the parking fees. The State has stated that they would not take the fees. The Town of Hampton has been charging for years and the State has not taken the fees.

Selectman Musselman said they are not doing another study but, rather, taking the \$10,000 study to another level. He presented an **amendment** to change the wording of the article to:

In anticipation of The State of New Hampshire's agreement to allow the Town of Rye to collect parking revenue to defray costs which are borne solely by Rye tax payers, to see if the Town will vote to require that, after reviewing the recommendations of the John Burke parking study currently underway, the Board of Selectmen consider proceeding with the third and sixth recommendations on page 1-2 of the Town-commissioned parking study dated January 5, 2015 (i.e. the Tighe & Bond Study), so that full operation might occur by June 30, 2017 if voters approve at the March 2017 election. These recommendations are, for the portions of Ocean Blvd. between Marsh Rd. and Highland Park Ave., and between Harbor Rd. and Perkins Rd., to stripe individual parking stalls and install parking kiosks. The study estimates annual profit, after the first year, of \$405,000, and recommends the kiosks as a way to "address congestion and improve safety." The Board of Selectmen shall review during 2016 whether or not a warrant article should be presented for an up or down vote at the March 2017 election, shall obtain public input throughout the process, and shall revise the Tighe & Bond recommendations based on any new information received.

Jane Ireland gave a **second** to his amendment.

Tom Farrelly asked why we would risk delay and let the State get their hands on this money if we don't pass this article. We need to do this now and not later. He would like to see commitment from the Board of Selectmen.

After conferring with his fellow selectmen, Mr. Musselman offered to revise his amendment to change "so that full operation might occur by June 30, 2017" to "so that full operation will occur at the earliest reasonable date". Jane Ireland agreed with this change.

Shawn Crapo, **seconded** by Phil Winslow, **called the question** on the amendment. Moderator Eaton called for a **vote** on ending debate on the amendment. The motion **passed**.

Moderator Eaton called for a **vote** on the amendment. The vote showed the amendment **passed**.

Peter Crawford offered an **amendment** to strike "*This article is not recommended by the Selectmen (3-0)*". No second was received for his amendment.

Frank Drake, **seconded** by Charlie Sleeper, **called the question**. Moderator Eaton called for a vote on ending debate on the article. The motion **passed**.

Moderator Eaton ordered Article 21 placed on the ballot as amended.

A **motion to restrict reconsideration** on Article 21 was presented by Shawn Crapo and **seconded** by Phil Winslow. Moderator Eaton called for a **vote** on the motion. The motion **carried**.

(After the meeting concluded, the Board of Selectmen voted to recommend Article 21 by a vote of 3 to 0.)

Moderator Eaton read Article 22.

ARTICLE 22. (By Petition) To see if the Town will vote to support **only** those options for Rye Town Hall that include saving the Town Hall, in order to allow pursuit of private and public grants and contributions.

It was **moved** by Mae Bradshaw and **seconded** by Burt Dibble to move the article to the floor for discussion.

Mae Bradshaw, Chairman of the Rye Heritage Commission, advised that the Town Hall building had made the NH Preservation Alliance "Seven To Save" list last year. Being on that list means preferential treatment is given when it comes to grants being awarded. If demolition of the building is being considered, grant approval by NH Preservation Alliance would no longer be an option. The Alliance would need to confirm the voter's intent to save the building before they would consider awarding any grants.

Selectman Jenness offered an **amendment** to add "*building*" after "saving the Town Hall". She felt the amendment would clarify the intent of the article. Mae Bradshaw **seconded** her motion.

No discussion on the amendment was called for. Moderator Eaton called for a **vote** on the amendment. The amendment **carried**.

Jane Holway related that the current church burned in 1959. It was torn down and rebuilt in the same location. In her opinion, the new church built after the fire is a fine building which has served its congregations well over of the years. There is nothing sacred about the Town Hall building and we should take a lesson from the church's history and build a new building.

Frank Drake doesn't like telling the whole town that only one option exists to solve Town Hall problems. He felt it would leave many voters out of the question and is too heavy handed.

A **motion to call the question** was made and **seconded**. The motion **failed**.

Charlie Sleeper felt the town could get into problems when the building is opened up during a renovation. Old post and beam buildings were not designed for today's structural loads.

Alan Gould presented an **amendment** to strike "only" from the article and replace it with "*consider*". A **second** was received from Jane Ireland.

John Loftus did not support this amendment. The Town Hall Committee worked hard to bring Article 11 to the voters and all options should be considered as written.

Shawn Crapo stated the cost of each option needs to be known before any options are taken off the table.

Rich Davis stated we already know what the costs are. The hotel at the Isles of Shoals, also listed as one of the "Seven to Save", got \$100,000 in grants last year. This money is drying up and we need to have the ability to apply for grants soon before that happens.

Peter Crawford was not supportive of the amendment or the article. The voters should be able to vote on all options.

Mae Bradshaw felt sad that some voters are not in favor of saving the building.

Paul Goldman advised that a process was in place guiding the Town Hall Committee members in reaching their conclusions. He felt we can't consider possible grants until we know what option the voters want.

A suggestion of a friendly addition to the amendment being considered was discussed. It would add "*also*" before "include" in the second line. Alan Gould and Jane Ireland agreed to the change.

A **motion** to call the question on the amendment was presented by Shawn Crapo and was **seconded** by Ray Jarvis.

Moderator called for a **vote** on ending debate on the amendment. The motion **carried**.

Moderator Eaton called for a **vote** on the amendment. The amendment **passed**.

A **motion to call the question** on the article was presented by Shawn Crapo and was **seconded** by Alan Gould.

Moderator Eaton called for a **vote** to end debate on the article. The motion **passed**.

Moderator Eaton ordered Article 22 placed on the ballot as amended.

Article 23 was read by Moderator Eaton.

ARTICLE 23. (By Petition) To see if the Town will vote to require that all future Town office designs be limited to a space need equal to the current Town Hall envelope inasmuch as the requirements have been reduced due to:

1. The Recreation and Sewer Departments relocated to facilities outside of Town Hall in 2015; and
2. The continued use of the second floor of the Town Hall for offices rather than a large meeting room.

This article is not recommended by the Selectmen (3-0)

It was **moved** by Burt Dibble and **seconded** by Ray Jarvis to move the article to the floor for discussion.

Burt Dibble referred to the Space Needs Study done in 2012. It spells out how much space is required. Currently the building has 6,100 square feet. The study stated 600 square feet are needed per employee. Since there are 12 workers in the building, 7,600 square feet would be needed not including meeting spaces.

Burt Dibble offered an **amendment, seconded** by Mac Bradshaw, which would change the first sentence to:

To see if the Town will vote to require that Town office designs be limited to a space need equal to building space currently owned by the Town, inasmuch as the space requirements have been reduced due to:

A **motion to call the question** on the amendment was presented by Frank Drake and was **seconded** by Shawn Crapo.

Moderator called for a **vote** on ending debate on the amendment. The motion **carried**.

Moderator Eaton called for a **vote** on the amendment. The amendment **passed**.

John Loftus stated there was a misconception regarding building square footage. There is a difference between job square footage and building square footage. He felt the intent of this article is to discount the Town Hall Committee's work.

Selectman Musselman agreed with Burt Dibble. He proposed an **amendment** to replace "recommend" with "*consider*" and strike "all future" from the article. Selectman Jenness gave a **second** to the amendment.

Joe Cummins asked Moderator Eaton to enforce his rules on civility. He also questioned the validity of the 2012 Space Needs Study.

A **motion to call the question** on the amendment was presented by Shawn Crapo and was **seconded** by Alan Gould.

Moderator called for a **vote** on ending debate on the amendment. The motion **carried**.

Moderator Eaton called for a **vote** on the amendment. The amendment **passed**.

Frank Drake, **seconded** by Sally King, **called the question** on the article. Moderator Eaton called for a vote on ending debate on the article. The motion **carried** by a show of hands.

Moderator Eaton ordered Article 23 placed on the ballot as amended.

A **motion to restrict reconsideration** on Article 23 was presented by Shawn Crapo and **seconded** by Alan Gould. Moderator Eaton called for a **vote** on the motion. The motion **carried**.

Moderator Eaton read Article 26.

ARTICLE 26. To see if the Town will vote to authorize the Selectmen to sell to the highest bidder at public auction, or sealed bid, such surplus Town equipment as is not traded in on new equipment in 2016.

It was **moved** by Selectman Mills and **seconded** by Selectman Musselman to move the article to the floor for discussion.

Selectman Mills explained this is a housekeeping article and is included in the warrant every year.

Hearing no call for discussion, **Moderator Eaton ordered Article 26 placed on the ballot as written.**

Article 27 was read by Moderator Eaton.

ARTICLE 27. To transact any other business which may legally come before this meeting.

Ned Paul made a **motion** to adjourn which was **seconded** by many.

Moderator Eaton called for a **vote** on the motion to adjourn. The motion **carried**.

Moderator Eaton adjourned the meeting at 4:55 p.m.

A count of the checklist showed 116 voters checked in for the meeting.

Respectfully submitted.

Elizabeth M. Yeaton
Town Clerk/Tax Collector

BUDGET OF THE TOWN WITH A MUNICIPAL BUDGET COMMITTEE

OF: TOWN OF RYE

BUDGET FORM FOR TOWNS WHICH HAVE ADOPTED
THE PROVISIONS OF RSA 32:14 THROUGH 32:24

Appropriations and Estimates of Revenue for the Ensuing Year January 1, 2016 to December 31, 2016

or Fiscal Year From _____ to _____

IMPORTANT:

Please read RSA 32:5 applicable to all municipalities.

1. Use this form to list the entire budget in the appropriate recommended and not recommended area. This means the operating budget and all special and individual warrant articles must be posted
2. Hold at least one public hearing on this budget.
3. When completed, a copy of the budget must be posted with the warrant. Another copy must be placed on file with the town clerk, and a copy sent to the Department of Revenue Administration at the address below.

This is to certify that this budget was posted with the warrant on the (date) _____

BUDGET COMMITTEE

Please sign in ink.

Under penalties of perjury, I declare that I have examined the information contained in this form and to the best of my belief it is true, correct and complete

Raymond J. Jarvis
Jeffrey K. Smith
Joseph H. Harkin
G. M.
Paul J. Goldman
James A. McLean

Debra A. Allen
Randy C. Caper
John C. Caper

THIS BUDGET SHALL BE POSTED WITH THE TOWN WARRANT

FOR DRA USE ONLY

NH DEPARTMENT OF REVENUE ADMINISTRATION
COMMUNITY SERVICES DIVISION
MUNICIPAL FINANCE BUREAU
P.O. BOX 487, CONCORD, NH 03302-0487

If you have a line item of appropriations from more than one warrant article, please use the space below to identify the make-up of the line total for the ensuing year.

[illegible]

"SPECIAL WARRANT ARTICLES"

Special warrant articles are defined in RSA 32:3.VI, as appropriations: 1) in petitioned warrant articles; 2) appropriations raised by bonds or notes;

3) appropriations to a separate fund created pursuant to law, such as capital reserve funds or trusts funds; or 4) an appropriation designated

on the warrant as a special article or as a nonlapsing or nontransferable article.

INDEPENDENT AUDITOR'S REPORT

To the Members of the Board of Selectmen
Town of Rye
Rye, New Hampshire

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and aggregate remaining fund information of the Town of Rye as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and aggregate remaining fund information of the Town of Rye as of December 31, 2014, and the respective changes in financial position, and the respective budgetary comparison for the general fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information - Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (pages 3 through 8) and the Schedule of Funding Progress for Other Postemployment Benefit Plan (page 38) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers them to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the

Town of Rye
Independent Auditor's Report

methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information - Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Rye's basic financial statements. The combining and individual fund financial schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Town of Rye, NH
Management Discussion and Analysis
2014

1. Brief discussion of the Basic Financial Statements
2. Condensed Government-Wide Financial Information
3. Financial Results
4. Fund Balances
5. Budgets
6. Capital Assets and Long Term Debt

As management of the Town of Rye, NH, we offer readers of the Town of Rye, NH financial statements this narrative overview and analysis of the financial activities of the Town of Rye, NH for the fiscal year ended December 31, 2014.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Rye's basic financial statements. The Town of Rye's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town of Rye's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town of Rye's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town of Rye, NH is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The governmental activities of the Town of Rye, NH include general government, public safety, roadways, cemetery, library, trust and capital reserve funds, grants, conservation, sanitation, culture and recreation.

Fund financial statements- A *fund* is a set of reports that is used to segregate specific activities. For example, Sewer department activity, which is paid from sewer user fees, is reported separately from Cemetery activity, which is paid from perpetual care trust funds. The Town of Rye, NH, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Rye, NH can be divided into two categories: governmental or fiduciary funds.

Governmental Funds. *Governmental funds* are used to report on the general operations of the town. They are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, fund financial statements focus only on current expenditures and revenue (*inflows and outflows of spendable resources this year*), as well as on balances (of *spendable resources*) available at the end of the fiscal year. Such information may be useful in evaluating a government's current financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

The Town of Rye, NH adopts an annual appropriated budget for its general fund as well as several non-major funds. A budgetary comparison statement has been provided for the major general fund to demonstrate compliance with this budget.

Fiduciary Funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the Rye town government, such as developer's performance bonds, capital reserve and expendable trust funds belonging to other governments, and trust funds for which the income is used for purposes that are not normally funded by the Town. Fiduciary funds are *not* reflected in the government-wide financial statement because these funds are not available to support the Town of Rye's own programs. The accounting used for the fiduciary funds is much like that used for businesses.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* consisting of a Schedule of Funding Progress for Other Postemployment Benefit Plan.

Government-wide Financial Analysis

As noted earlier, net position may, over time serve as a useful indicator of a government's financial position. In the case of the Town of Rye, NH, assets exceeded liabilities by \$41,800,242 at the close of the most recent fiscal year.

By far the largest portion of the Town of Rye's net position \$32,374,467 reflects its net investment in capital assets (e.g., land, buildings, vehicles, etc.). The Town of Rye, NH uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town of Rye's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Town of Rye, NH's Net Position

	Governmental Activities	
	2013	2014
Current & other assets	13,830,905	16,538,356
Capital assets	35,206,524	35,094,007
Total assets	49,037,429	51,632,363
Long-term liabilities outstanding	2,835,744	3,223,508
Other liabilities	6,057,336	6,608,613
Total liabilities	8,893,080	9,832,121
Net position:		
Net investment in capital assets	32,877,090	32,374,467
Restricted	3,585,508	3,956,928
Unrestricted	3,681,751	5,468,847
Total net position	40,144,349	41,800,282

At the end of the current fiscal year, the Town of Rye, NH is able to report positive balances in net position, for the government as a whole. The same situation held true for the prior fiscal year.

Ending net position	40,144,349	41,800,242	1,655,893

General fund budgetary highlights

As shown in the above chart, revenues received during 2014 increased by \$999,982 from 2013. The actual budgetary revenues were more than the budget for estimated revenues by \$14,691. Motor Vehicle Registrations were \$94,489 over the amount projected. Building Permits were \$80,697 over the amount projected. General income from department services was \$79,134 over projected. Income from federal grants was \$283,160 less than projected, as the Town was not awarded \$285,000 from the Assistance to Firefighters Grant for a new fire truck. Reference: Warrant Article #18: 2014 Town Ballot.

There were no catastrophic events during 2014 that had a significant impact on total expenditures. However Fire, Police, and Public Works operations were affected by the following conditions:

- Public Works department responded to an above average number of weather events during the 2014 season with snow accumulation ten percent (10%) greater than the average of 60 inches normally anticipated. The department recorded a total of 28 weather events: 17 were snow events and 11 were ice only. The snow events averaged approximately 4 inches of accumulation per event and 1,030 tons of salt was deployed on the roadways to maintain safe road conditions.
- The Fire and Police departments experienced staff shortages throughout 2014, due to long term illnesses, a retirement, and a resignation of full-time, permanent staff.

These departments should be commended for a job well done, while staying within their budgets for the year.

Total governmental expenditures increased by \$363,699 (.04%) over the prior year. The Town realized a savings of \$736,374 in actual expenditures over the 2014 budgeted appropriation.

The total Town's property assessed valuation increased by \$16,990,610. The total property tax commitment increased by \$1,174,298 from the prior year. At the 2014 Tax Rate setting the Board of Selectmen chose to use \$268,722 of the Town's beginning general fund balance to bring the tax rate to \$11.55.

Capital Asset and Debt Administration

Capital Assets - The Town of Rye's investment in capital assets includes land and improvements, buildings, rolling stock, sewer mains, equipment, and roadways with a value in excess of \$10,000 and a useful life of over 5 years.

Assets are depreciated on a straight-line basis, with the original cost divided evenly by the useful life of the asset.

Major capital asset events during the current fiscal year included the following:

- Acquisitions:
 - 2014 Police Cruiser
 - 2014 Volvo L60G Wheel Loader
 - 2015 Ford F4115 Dump Truck
 - 2015 International 6 Wheel Dump Truck
- Disposals:
 - 1986 Caterpillar 943 Crawler/Bull Dozer

Additional information on the Town of Rye's net capital assets, depreciation, and debt may be found in the notes to the financial statements.

Long-term Debt. At the end of the current fiscal year, the Town of Rye, NH had total bonded debt outstanding of \$2,592,592 which is a .16% increase from the \$2,293,375 owed at the end of 2013. These bonds are a general obligation of the taxpayers of Rye, NH.

NH RSA 33:4-A establishes a debt limit. Towns may not incur outstanding indebtedness exceeding 3% (\$53,598,357) of the town valuation (\$1,786,611,900). Rye's debt is less than 1% of the valuation, so it is well within the debt limit. Rye has an allowed debt margin of \$49,324,409.

The Town of Rye issues bonds through the NH Municipal Bond Bank, and uses the bond bank credit rating of Aa2 with Moody's Investment Service.

Requests for information

This financial report is designed to provide a general overview of the Town of Rye, NH's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 10 Central Road, Town of Rye, NH, 03870.

Members of the Board of Selectmen
Town of Rye
10 Central Road
Rye, NH 03870

To the Members of the Board of Selectmen:

This is to advise you that as of February 2, 2016 the audit of the financial statements for the year ending December 31, 2015 has been substantially completed and we are in the process of finalizing the audit. A completed audit report will be sent to you in early April 2016.

Sincerely,

Michael J. Campo, CPA
Director

TOWN OF RYE, NEW HAMPSHIRE
Major General Fund
Schedule of Changes in Unassigned Fund Balance (Non-GAAP Budgetary Basis)
For the Fiscal Year Ended December 31, 2015

Unassigned fund balance, beginning	\$ 2,002,437
Changes:	
2015 Budget summary:	
Revenue short(fall) (Schedule 1)	\$ (286,549)
Unexpended balance of appropriations (Schedule 2)	597,051
2015 Budget surplus	310,502
Decrease in nonspendable fund balance	3,067
Increase in restricted fund balance	(5,485)
Unassigned fund balance, ending	2,310,521

ASSESSOR'S REPORT

The firm of Municipal Resources has been contracted to handle the assessing functions for the Town of Rye. The three primary members of the staff working in Town are, Scott Marsh, Jerry Quintal and Shawn Main. Additional staff members may be assisting. It is requested that if any of the appraisers come to your property, you support the Town's efforts to keep assessments equitable and proper by answering their questions and allowing them to inspect and verify the data of your property.

Municipal Resources personnel are available to meet with taxpayers and if an appointment is desired. Joanne Drewniak in the Assessing Office can schedule one for you.

Currently there are roughly 400 properties to be reviewed due to new building permits being issued and incomplete construction at the time of the last visit. In addition MRI staff will be reviewing additional properties as part of a cyclical review process to verify the assessing information contained on the current property record cards.

The Department of Revenue Administration review of sales information has been completed and indicated that the Town's assessment ratio for the 2015 tax year was 90.8%.

Individual property information may be obtained by visiting the assessing office or on-line by following the link on the Town's website

Below is a list of Tax Exemptions and Credits currently available. Additional information and applications are available at the assessing office and on-line.

ELDERLY EXEMPTION

\$OFF ASSESSED VALUATION

AMOUNT	REQUIRED AGE	INCOME LIMITATIONS	ASSET LIMITATION
\$ 75,000	65 TO 74	Not in excess of	Not in excess of \$199,000
\$ 90,000	75 TO 79	\$40,000 if single,	excluding the value of the
\$105,000	80 AND UP	\$59,900 if married	residence & up to two acres

BLIND EXEMPTION

\$OFF ASSESSED VALUATION

\$15,000

Every inhabitant owning residential real estate and who is legally blind, as determined by the administrator of blind services of the vocational rehabilitation division of the education department.

VETERAN

Standard

Tax Credit \$500

Every resident who served in the armed forces in any of the qualifying wars or armed conflicts as listed in RSA 72:28 and was honorably discharged; or the spouse/surviving spouse of such resident

Surviving Spouse

Tax Credit \$2,000

The surviving un-remarried spouse of any person who was killed or died while on active duty in the armed forces, as listed in RSA 72:28

Service connected

Disability

Tax Credit \$2,000

Any person who has been honorably discharged and received a form DD-214 and who has a total and permanent service connected disability, or is a double amputee or paraplegic because of the service connected injury, or the surviving spouse of such person if such surviving spouse has not remarried.

RYE BEACH COMMITTEE'S REPORT

The Rye Beach Committee consists of Larry Rocha, Lori Carbajal, Keper Connell, and Steve Hillman. During the summer the Committee had four meetings where they discussed various issues and exchanged ideas based on their observations and conversations with residents and other beach goers. Chief Walsh attended every meeting and Chief Lambert also attended several meetings.

Below is a list of the Committee's thoughts and recommendations:

- As the number of visitors to the beaches in Rye increases the issue of parking seems to be an issue with many of the residents of Rye. The Committee recommends: Increasing the parking fine to \$50, exploring "satellite parking" with shuttle buses to beach locations, providing bike racks at certain locations and kiosks be placed on Route 1A and the funds be used for funding beach management
- More "DO NOT LITTER" signs with a significant fine posted by Rye, the State or both, might help deter people from littering. The Rye Beach Committee will work with Blue Ocean Society and the NH Surfrider Foundation (non-profit organizations ... who conduct beach clean-up) to help pinpoint locations for clean-up. Another recommendation would be to provide more trash cans on the beaches with more routine and regular trash pick-up.
- The Committee was charged with "counting and documenting" the number of cars that are parked while enjoying the beach. After the NH cars there were a large number of cars from Canada and Massachusetts.
- The Committee recommends that the state provide seasonal funding to manage the beach use increase.
- The Rye Beach Committee strongly recommends a Permit Application Fee of \$100 and a deadline date to apply for a Beach Use Permit.
- The Rye Beach Committee spent time at each meeting discussing the lifeguard system and recommends: Mobile lifeguard stands, consistent flag placement and there should be lifesaving practice at least once a week using all of the equipment the lifeguards use in the event of an emergency.
- The Committee contacted the National Surf School and Instructors Association (NSSIA) with questions about the operation of surf lessons and surf camps. The information provided by the NSSIA was consistent with the current permits for surf lessons and surf camps. The Committee recommends the head instructor of a surf camp should make the "call" on whether the ratio of instructor to surfers should be lowered and whether an instructor should remain on the beach to act as a "lifeguard" if the conditions dictate adjustments. Surf shops should continue to provide a pamphlet with safety guidelines for both SUPs and surfboards. The personnel at the surf shop should go over this pamphlet with the user of the SUPs or surfboards.

Respectfully submitted,

Larry Rocha, Chairman
Rye Beach Committee

ZONING BOARD OF ADJUSTMENT'S REPORT

The Board of Adjustment (BOA) is a quasi-judicial board of five members, each of whom is elected by Rye residents for a three year term. In 2015, its members were Ray Jarvis, Patricia Weathersby, Burt Dibble, Shawn Crapo and Paul Goldman. Rye's BOA also presently has three alternate members: Charles Hoyt, Patrick Driscoll and Gregg Mikolaities. Alternates attend meetings when an elected member cannot attend or has a conflict of interest. Two alternate positions remain open.

The Board of Adjustment typically meets on the first Wednesday of each month at 7PM. Agendas and minutes are available on the Town of Rye website. The Board encourages all interested persons to attend.

The BOA hears applications concerning four distinct categories: variances, special exceptions, appeals from administrative decisions and equitable waivers. Although procedurally different, each category generally involves an applicant's real property and how it may be used, developed or improved in a manner that may be different than the strict terms of Rye's Zoning Ordinance or Building Code.

The Board acts on evidence presented and bases its decisions on legal grounds. An application is not granted or denied based emotion or personal opinion. Conditions may be attached to any approval. Any decision made by the BOA may be appealed, first by requesting a rehearing before the BOA. If the Board does not grant a rehearing, appeal may be taken to the court system.

2015 saw a total of fifty-six (56) applications containing over 140 requests for relief before the BOA. Some months saw two hearings to attempt to address all applications in a timely manner. Most applicant's projects required relief from multiple sections of the Ordinance. Many concerned tensions between small lots, typically near the beaches and created before zoning, and the need/desire for a home with modern amenities and updated septic systems. A full list and all files are available at the Planning and Zoning Office. A summary table is below:

<u>2015 cases</u>	<u>Granted</u>	<u>Denied</u>	<u>Withdrawn</u>
Variance requests:	93	21	2
Special Exceptions:	2	1	1
Appeal from Adm. Decision:	1	1	1
Equitable Waiver:	0	0	0
Request for Rehearing's	1	3	0
Relief from the Building Code	2	5	0
Relief from the Flood Ordinance	0	0	0
Condo conversions:	0	0	0
Apartments:	1	0	2
(12 variance relief requests continued to 2016)			

The BOA now requires all applicants post a sign on their property prior to the BOA meeting addressing their application, alerting neighbors and passers-by that zoning relief is being requested. The Board hopes that this will avert surprise and encourage all interested parties to make their concerns and/or support known. Suggestions for further improvement to the BOA's procedures are always welcome.

It is strongly recommended that all who intend to file an application with the Board of Adjustment make an appointment with the building inspector and zoning administrator to get a full understanding of the requirements and process to be followed, as it is often complex and may permanently affect a property.

Respectfully submitted,
Patricia Weathersby, Chairman

BUDGET COMMITTEE'S REPORT

This Report follows the completion of the 2016 Town Operating Budgeting Process, including Warrant Articles, and the 2016-2017 Rye School District Budgeting Process. Remaining to be completed are the Precincts Budgets Public Hearing, the School Budget Deliberative Session, and the Town Budget Deliberative Session. As in the past, the budgeting process included the Rye Board Of Selectmen, the Rye School Board, the SAU 50 Administrative Team, the various Rye Town Department, Committee, and Commission Heads, and the Rye Budget Committee. We have not deviated from our standard operating methodology for generating both the School and the Town Budgets, which includes the drivers of being needs-based, bottoms-up, and zero-based. There is full-disclosure and transparency with involvement by the general public. As always, input is sought not only on the budget results themselves, but on how to continually improve the budgeting process.

Standard practice for generating both the Town and the School budgets involved holding budget increases to a minimum, while, at the same time, ensuring that key programs and services are properly funded. For 2016, the Rye Town Operating Budget was increased by 4.61% over the 2015 Operating Budget. Inclusive of all Special Funds, Warrant Articles, and Capital Outlay, the Total 2016 Rye Town Budget is increased by 364% over the Total 2015 Budget. The primary driver for this increase is the category of Warrant Articles. The 2016-2017 Rye School District Operating Budget represents a 0.2% decrease over the 2015-2016 Operating Budget, inclusive of Warrant Articles.

The above results, for both the Town Of Rye Budget and the Rye School District Budget, were, once again, based on a high-quality process approach focusing on quality of information provided, the addressing of budgeting issues very early in the budgeting cycle, and a high level of teamwork throughout both the Town and School District budgeting process. The quality, specificity, and timeliness of provided information continues with excellence for both the Town and School District Budgeting Processes. Special thanks to Town Finance Director Cyndi Gillespie and SAU 50 Business Manager Jim Katkin for this and for their participation and expertise throughout the budgeting processes. As stated in last year's Report, the level of cooperative work between the Rye Board Of Selectmen, the Rye School Board, the SAU 50 Administrative Team, and the Rye Budget Committee is excellent.

Thanks to all Rye Budget Committee Members and Representatives for their contributions to another successful Town and School District budgeting cycle. The current Members and Representatives include Jim Maheras - Vice - Chairman, Ray Jarvis, Jaci Grote - Clerk, Shawn Crapo, Doug Abrams, Frank Drake - Rye Beach District Representative, Randy Crapo - Jenness Beach Representative, Ralph Hickson - Water District Representative, Kevin Brandon - School District Representative, Craig Musselman - Selectmen's Representative, and myself. It has been my pleasure to work with such outstanding Rye Budget Committee Members and Representatives as well as the Rye Board Of Selectmen, the Rye School Board, and the SAU 50 Team.

Special thanks, also, to Janice Ireland for her excellence in working with, and coordinating, all Departments and parties to ensure that the entire budgeting cycle runs smoothly and efficiently. Thanks, also, to Dyana Ledger for her excellent work in producing our meeting minutes.

Respectfully Submitted,

Paul Goldman, Chairman - Rye Budget Committee

BUILDING INSPECTOR'S REPORT

The Building Department consists of one full-time employee, the Building Inspector, and one part-time employee, the Building and Planning Assistant. The office is staffed every day between 8:00 AM and 1:00 PM by the assistant Rosalie Powell-Andrews. The Building Inspector, Peter E. Rowell, is in the office most mornings for permitting and drop in meetings with contractors and citizens; the afternoon is reserved for inspections and appointments.

Residential construction has been the strongest in a number of years. The retirement community that was approved for the former Rand Lumber site has been constructed with 16 of the 20 homes occupied and build out scheduled for early in 2016. Star Fish Circle, a 9 lot subdivision that was approved this year, is well under way with 5 homes started. The major addition to "Webster at Rye" has been under construction all year with completion in 2016. Along with the typical replacement of older homes 2015 has been another busy year.

The Building Department, which primarily deals with the enforcement of the *State Building Code*, also deals with the enforcement of a number of other town ordinances, with wetlands and floodplain issues taking up a lot of our time. Rye has over 500 dwellings in the FEMA-designated high hazard flood area. FEMA has developed new Flood Insurance Rate Maps (FIRMs) which are proposed for adoption in 2016. The new FIRMs have moved many homes into the high hazard flood area and any rebuilds in this area may need to be elevated. Every new or substantial improvement of property in the floodplain requires that these improvements meet the requirements of the *Rye Floodplain Development and Building Ordinance*. The department struggles with the improvements on Rye's many developed non-conforming properties. These lots were subdivided with the thought of a seasonal cottage in mind. Almost all improvements to these lots will require some type of relief from the Rye Board of Adjustment.

If you are contemplating changes, please call the Building Department to see if the you are required to get a permit before work starts. If you have any questions about the State Building Code, local ordinances, permit requirements or any other items that may fall under the administration of the Building Department, please contact the office at 964-9800.

CATEGORY	2015	2014	2013	2012	2011	2010

Respectfully submitted,
Peter E. Rowell, Building Inspector

CONSERVATION COMMISSION'S REPORT

The mission of the Rye Conservation Commission is the protection and proper utilization of Rye's natural resources. The Commission is the Town of Rye's gatekeeper for environmental concerns and acts as advisor to other municipal boards when environmental issues are involved. The commission is a community resource for the gathering and dispersing of information about Rye's natural resources as well as for promoting the protection and enhancement of the environmental health of the natural resources in our town.

The 3 million dollar bond that was supported by voters in 2014 has allowed the Commission to pursue and sign purchase and sale agreements on two properties to date. They are the 73 acre Rand parcel off of Wallis Road and the 27 acre parcel off of South Road. The purchases of both properties are expected to be closed in early 2016. The Commission has been able to work with both sellers to take the requisite time to seek grant funding in an increasingly competitive environment. We remain committed to preserving resources worthy of permanent protection and pursuing grants that allow us to leverage the town's investment. We were successful in having two grants awarded to us for the purchase of the Rand property. The first grant is from the NH Department of Environmental Services (NHDES) through the Aquatic Resource Mitigation Program (ARM) in the amount of 121,000 dollars. The second grant being awarded is the Natural Resources Conservation Service (NRCS) Wetland Reserve Easement (WRE) for an estimated 127,000 dollars. These grants will help protect and restore valuable wetlands on this parcel. NHDES and NRCS will each assist in developing appropriate management objectives for the Rand parcel. Due to the proximity of the South Road parcel to the town's wellhead protection district, we anticipate the Rye Water Department will be involved in developing conservation practices for this parcel. Both properties will be available for passive recreational enjoyment and will have designated parking to enable public access. Donations of land will enable the Commission to meet matching goals which allow for additional fund leveraging. Please contact the Commission if you are interested in donating land or conservation easements. The Conservation Commission is a tax exempt entity.

The Commission purchased the Goss Farm on Harbor Road in 2010. We celebrated the fourth productive year of the Community and Rye Junior High (RJH) gardens at the farm. A local nursery, Outdoor Pride, donated late season vegetable plants for the RJH plot. This plant selection was chosen for the reduced maintenance required and their compatibility with the Fall Harvest Fest and Growing Bigger Pumpkins curriculum for the 6th grade class. This past spring, with sponsorship courtesy of the Piscataqua Garden Club, the Commission oversaw the planting of twelve heirloom variety apple trees to replace some of the damaged older apple trees at the farm. Resident farmer Leslie Stevens of Sidewalk Farms, LLC assisted with sustainable farming workshops, working with the RJH on their garden plot and with the ambitious pollinator habitat project. Crucial aid came from the Rye Fire Department who prepped the project area by burning the field and minimizing thick existing grasses. The Rockingham County Conservation District, NRCS, and Xerces Society (similar to the Audubon society for invertebrates) partnered and held a workshop in the fall and planted pollinator seeds on an acre of the eastern wet meadow. It is predicted to take 1-2 years to realize the full pollinator potential.

A long time goal was achieved when Sidewalk Farms LLC, with existing grant funds from NRCS, erected a high tunnel at the farm this past October with assistance from the Urban Forestry Center. This agricultural structure (which resembles a greenhouse) is designed to extend the growing season and to increase food production. The high tunnel is also a resource for our long established salt marsh restoration goals. The Commission plans to use the high tunnel to help produce native plants to be planted at the upland edges of some of the town's salt marshes. This will contribute to an ongoing effort to help maintain the salt marshes' significant functions and values.

The Town Forest also saw renewed activity this year. Signage was posted on some of the trails as part of an Eagle Scout project. Several bog bridges were built in the forest to protect wetland resources by minimizing man made impact while preserving a greater portion of the surrounding natural area. This collaborative effort was achieved with several partners: Local residents and project Co-Chairs Danna Truslow and Doug Nelson, The Appalachian Mountain Club, Portsmouth High School Peer Leadership Program, several able volunteers, and with lumber generously donated by Ricci Lumber.

The annual Rye Farmer's Market Committee's Goss Farm dinner was held this year at Mark and Lindsay Josephs' beautiful barn in Rye Center. This quintessential town event has raised over 13,000 dollars for the Goss Farm Maintenance Fund over the last four years and never fails to be a great evening!

This year the Commission worked with the Planning Board to update the existing Wetlands Conservation District regulations, last revised in 1977, to improve communication and collaboration between town boards to better protect our wetland resources that comprise over 65% of the town of Rye. These ongoing efforts will enhance Rye's ability to combat future storm events and will help to create stronger coastal resiliency.

Respectively submitted,

Sally S. King, Chair

Commission Members: James S. Raynes
Jeffrey Gardner
Francis Garvin II

F. Lawton Struble III
Suzanne McFarland
Jacinthe Grote

MANY ENJOYED THE SEVENTH YEAR OF THE RYE FARMERS MARKET

DEMOLITION REVIEW COMMITTEE'S REPORT

The Demolition Review Committee reviewed seven applications for demolition of buildings in 2015. Applications of buildings or sections of buildings more than 65 years old and 500 square feet are referred to the Committee to consider within five workdays. If the Committee determines the building historically is not potentially significant, the Committee informs the Building Inspector and the demolition permit can be issued.

If the Committee finds on review that the structure's history is potentially significant, a public hearing is scheduled and notices are published.

Potentially significant or significant criteria are: the building is of such interest or quality that it would meet national, state or local criteria for designation as an historic, cultural or architectural landmark; the building is of such uncommon design, texture or materials that it could not be reproduced or could be reproduced only with great difficulty and expense; the building is of such historic, architectural or community value that its removal would be to the detriment of the public interest; or retention of the building would help preserve and protect an historic place or area of historic interest.

The review will not exceed forty days after which a demolition permit will be issued. In 2015, two public meetings were held which allowed the public to voice their concerns or agreement after which the demolition permits were issued.

The Demolition Review Committee is composed of members appointed by the Chairman of the Heritage Commission and meets in the Town Hall.

Respectfully submitted,

Rich Davis, Chairman
Demolition Review Committee

Photograph: Priscilla Jenness

At the Board of Selectmen's meeting of April 27, 2015, the Board received a letter from Brian J. X. Murphy regarding his intentions to move the Rand Lumber Barn, located at 511 Wallis Road and scheduled for demolition, to his property on the opposite side of the street at 496 Wallis Road.

The barn has since been relocated to its new foundation. As a town with independent farming in our history, each barn is precious. Brian's efforts are a victory for posterity.

EMERGENCY MANAGEMENT DIRECTOR'S REPORT

The winter of 2015 was active with cold temperatures and snow storms, one right after another. On January 26 to 28, 2015, a storm called "Juno" dropped a significant amount of snow in two days. DPW worked for three days straight to clear roads. The Emergency Management Team requested reimbursement for snow removal. All request forms have been submitted, asking for a total of \$25,115.94.

If during a storm you are experiencing a loss of power, please call Eversource at any time at 1-800-662-7764 or contact their website at www.eversource.com. During a power outage, if you plan on using a generator, you must vent it outside and should never re-fuel while it is operating. Things to remember: place your generator away from your home and especially at a distance from a window and doorways that could allow carbon monoxide inside. Carbon monoxide is an odorless, colorless gas that can kill you if it reaches dangerous levels in an enclosed space. We also recommend installing a carbon monoxide detector in your home.

We urge everyone to have a "family emergency plan". An important part of that plan involves communicating with friends and family before during and after an emergency.

Based on history a disaster may cause power outages that could last for several days. A supply kit will help you and your family. Some basic supplies you should store before you need them are:

- Water, one gallon of water per person per day for at least three days, drinking and sanitation.
- Food, at least three days' supply of non-perishable food. Choose food your family will eat, remember special dietary needs.
- Battery powered radio or hand crank radio.
- Flash lights, extra batteries.
- First aid kit.
- Whistle, to signal for help.
- Dust mask, to help filter contaminated air.
- Moist towelettes, garbage bags and plastic ties.
- Manual can opener.
- Local maps.
- Cell phone with chargers, inverter or solar charger.
- Emergency phone numbers and family phone numbers listed (do not rely on speed dial)

You will be better prepared to safely reunite your family and loved ones during an emergency if you think ahead and communicate with others in advance.

The strength of each member is a team. The strength of the team is each individual member. Emergency Management is a "team" effort with all town departments and town residents. I look forward to working with Rye to make things safer.

Respectfully submitted,
Kevin Walsh, Director

ENERGY COMMITTEE'S REPORT

INCLUDING THE RECYCLING EDUCATION SUBCOMMITTEE

The Rye Energy Committee (REC) has been active in education and action and works to provide valuable resources for town citizens, municipal boards and municipal staff. The Rye Recycling Education Committee (RREC) is a subcommittee of the REC and is included in this report.

Members of the Energy Committee of 2015 were Michele Sopher, Co-chair; Danna Truslow, Co-chair; Susan Anderson, Secretary; Lucy Neiman, Howard Kalet and Tom Archibald. Lucy stepped down after serving for over 6 years. Tom Archibald also stepped down. Tom Pfau joined the committee early in 2016.

Town Building Energy Reductions – Public Safety Complex Six of the seven major town buildings have undergone significant energy reductions. This leaves our newest building, the Public Safety Complex, as our least energy-efficient building. The REC helped the town coordinate and attended an energy audit in January 2015. Much of the recommended work will be done in 2016 to address some of the significant findings.

Energy Tracking - The REC tracks the energy use and costs for the Rye municipal buildings, streetlights, and vehicles. Our aim is to include the energy data for all the operations covered by our municipal tax dollars. Therefore, even the energy use of the Water District, the Sewer District, the School District, and the Jenness Beach and Rye Beach Precincts, independent or semi-independent entities, are included. Our records are complete since 2009, with some data from as early as 2004. Analysis of the energy data allows us to recognize inefficiencies and assess the effect of any energy reduction work. The Selectmen and town management staff use our reports to target energy waste and budget funds for energy efficiency improvement. Since 2012, many major energy efficiency projects have been completed, most with financial assistance from grant and utility programs. We continue a poster project to display how these changes have helped to save energy and money for the town.

Jenness Beach Precinct Streetlights - The entire town of Rye has 9 municipal streetlights, plus about 10 more parking lot and area lights. The small Jenness Beach Precinct has 69 streetlights, most of which are 50-year-old inefficient mercury fixtures with high-energy costs. The REC has been working with the Precinct on a plan to upgrade the streetlight layout and replace those in critical areas with LED fixtures, with financial assistance from Eversource rebates and the NH Municipal Energy Efficiency Loan Fund. When accomplished, this project will improve the lighting quality and save the district 50-75% in annual street lighting costs. Look for a trial LED streetlight to be installed in early 2016.

New England Grassroots (NEGEF) Grants and Energy Interns - NEGEF has been providing modest grant funding for many of the initiatives of the REC for over 6 years. The most recent grant was focused on developing a system to track and evaluate energy use within town departments. Using this grant funding the REC has hired Rye college students for the last two years to help compile the large amount of energy data needed to produce our energy reports for the town. Both interns became very capable at manipulating the data, organizing it into spreadsheets, interfacing with town personnel, and even creating a spreadsheet in the "cloud" for the Public Works Director to collect electricity data. They both gained valuable work experience.

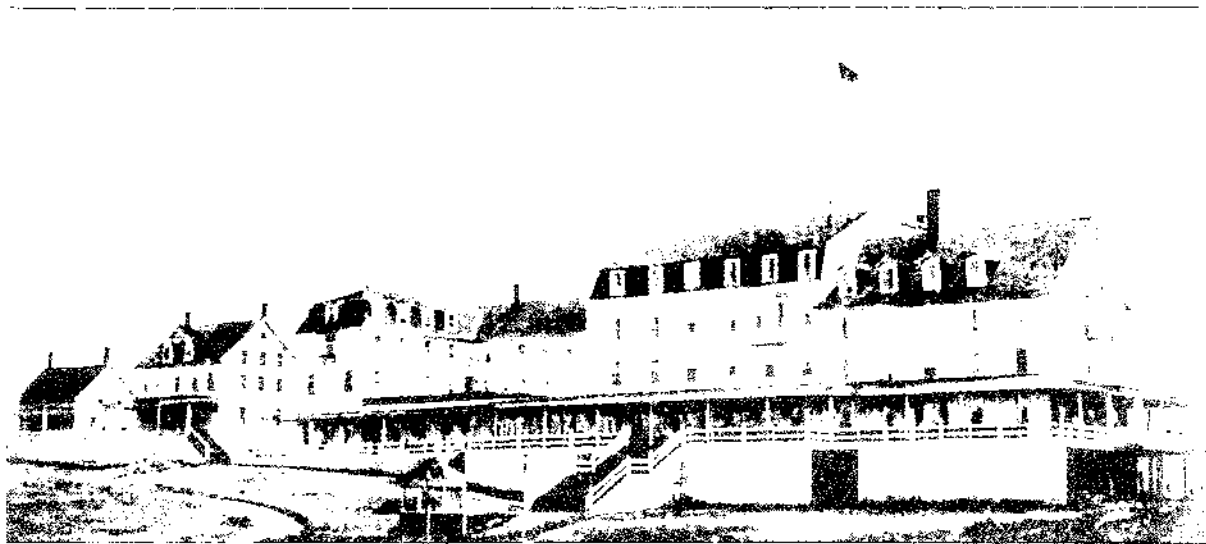

Farmers Market - The REC has continued to support the Rye Farmers' Market. The 2015 Summer Market was its seventh successful summer market. We also supported their 4th Annual Harvest Dinner to raise funds for the Goss Farm. Susan Anderson, the REC liaison to the Farmers' Market, provides information about the market in each edition of the Rye Town News and places flyers around town to remind our residents of the time and dates of the markets (Wednesdays, 2:30-5:30, late June - late September, in Rye Center, across from the library).

Education and Newsletter – This year we co-sponsored a program on Residential Solar Energy to a full house. We learned both practical and financial information on solar installations. REC member Howard Kalet planned and coordinated the event. Tracy Ritzo, a past member of the REC, still actively produces the Rye Eats Local Newsletter. Within the newsletter, REC provides general information about improving energy efficiency and any upcoming programs.

The Rye Recycling Education Committee is chaired by Dierdre Smyrnos. The Recycling Committee's charge was renewed by the Board of Selectmen with the primary mission being to help deliver information and education about the importance of proper recycling with three goals: 1.) To increase the town's recycling rate, 2.) To encourage more recycling at our schools and 3.) To grow the number of households utilizing the Mr. Fox food scrap composting program (which opened to all in April). A "Reduce, Reuse, Recycle" student poster contest was held this past fall at the Rye Elementary School and we have plans to use some of the artwork in the near future. Jozef Platt, our student committee-member, made a short video "So many ways to recycle in Rye" which he brought to the Rye Farmers' Market and can be viewed on the Town of Rye website. By reducing, reusing and recycling in our homes, we not only save money but we also conserve resources, save energy, reduce pollution and lower greenhouse gas emissions. **Recycling it's the *Rye-ght* thing to do!**

Respectfully submitted

Danna Truslow, Co-chair
Rye Energy Committee

THE OCEANIC HOTEL, STAR ISLAND, RYE, N.H.

"Located on Star Island, the Oceanic Hotel was built in 1873 and was destroyed by lightning in 1875. The second hotel, seen above, was constructed and opened in 1876. It is now owned and operated by the Star Island Corporation, a joint Unitarian and Congregational venture that purchased the island in 1915 from the Loughton family for \$16,000." (*Rye and Rye Beach*, Lewis T. Karabatsos, Arcadia Books, 2004)

In 2015, the Oceanic Hotel was named as one of its Seven to Save by the New Hampshire Preservation Alliance. In addition to increasing awareness, this designation will allow Star Island to tap into the Alliance's network of funders for repair to the 139 year old complex.

Also during 2015, the Rye Historic District Commission approved the Star Island Corporation's application for installation of a 130KW photovoltaic array that covers a 10,400 square foot area. This installation will generate over 60% of the electrical power needs of the island.

FIRE CHIEF'S REPORT

Once again the Fire & Rescue Department was very busy in this past year answering emergency calls and requests for assistance, conducting safety and code enforcement inspections and participating in training and education programs.

By the close of 2015, the Department had received 860 requests for emergency assistance. These included twelve fires in structures, 42 hazardous conditions and eight outside fires. This number also included 560 requests for assistance that were medical in nature. This produced 447 transports to local hospitals of which 256 were at an advanced care level.

The Fire Prevention and Public Education Division, with the assistance of the entire staff, conducted 191 inspections throughout the Town. These inspections included heating system and fuel storage installations, chimney construction, smoke and carbon monoxide detectors placement, Place of Assembly permits and general hazard inspections, as well as permitting and monitoring blasting operations.

The Department took advantage of a great opportunity in the early spring when we were allowed to train inside the barn that was Rand Lumber (before it was sold and moved across the street). This allowed us to conduct training in search and rescue in large buildings and to practice firefighter self-rescue techniques that are often difficult to simulate in smaller settings. This training was conducted over a period of several weeks. This training opportunity was also extended to our mutual aid partners.

In April 2015, the senior member of the department, Lieutenant Steve Laing, retired from the full-time ranks after thirty-seven years of service. Fortunately, that great amount of corporate knowledge was not lost as Steve remains a member of the "Call Force". In September two new members were added to the force to bring us to full staffing once again. Firefighters Kevin Wunderly and Christopher Bohling are both certified Paramedics and certified at Firefighter Level II. They will be going through orientation and familiarization of the Town and Department operations for the first year.

The men and women of the Fire & Rescue are appreciative of the towns people continued support of the department and its mission. This is apparent through the many cards, letters and acts of kindness that we receive throughout the year in addition to the funding through the budget process.

If you have any questions or suggestions about any fire safety or emergency medical care please stop in at the station or call us anytime.

Thomas S. Lambert
Chief of Department

REPORT OF THE FOREST FIRE WARDEN AND STATE FOREST RANGER

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands, work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact the Fire Department to determine if a permit is required before doing ANY outside burning.

During the year, a total of 681 permits for open burning were issued by the deputy forest fire wardens here at the Public Safety Building. Of this total, 274 permits were issued for camp fires on town controlled beaches.

This past fire season burned **661 acres** statewide which was the most recorded since 1989 when 629 acres burned. The largest fire was the 275 acre Bayle Mountain fire in Ossipee. This fire started on May 5th and burned for several days. The Bayle Mt. fire was also the largest individual fire in NH in over 25 years. There were also a number of other sizable fires in May which definitely kept NH's wildland firefighting resources stretched to the limit. As usual our higher fire danger days correlated well with the days that there were fires actually reported. The statewide system of 16 fire lookout towers continues to operate on Class III or higher fire danger days. Many homes in Rye and throughout New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2015 season threatened structures, and a few structures were burned, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org.

One again as we publish each and every year, Rye residents are reminded of the following rules for open burning:

Open burning is a privilege granted by and under the control of the State of New Hampshire and the Town of Rye and may be curtailed at any time because of high winds or other conditions.

A written permit must be obtained from the Rye Fire Department for any open burning.

The New Hampshire Department of Environmental Services prohibits the open burning of household waste.

No burning is allowed between 9:00am and 5:00pm unless it is actively raining or there is significant snow cover at the site of the burn.

Permits are issued only to the landowner or person(s) having written approval from the landowner. The Permittee must be 18 years of age or older.

All open fires must have someone in attendance at all times.

Permits for beach fires are issued to RYE RESIDENTS ONLY.

Beach fires are allowed on the rocky areas of the beach only. No fires are allowed on the sand. Beach fires are allowed between 5:00pm and Midnight. All ash and debris must be properly disposed of once completely extinguished.

Please help Smokey Bear, the Rye Fire department, and the state's Forest Rangers by being fire wise and fire safe!

Thomas S. Lambert
Forest Fire Warden

ONLY YOU CAN PREVENT WILDLAND FIRE

HEALTH OFFICER'S REPORT

The year 2015 is history and was a busy and challenging year for me as Health Officer. The scope, complexity, and volume of issues and problems continue to increase each year and 2015 was no exception.

As in previous years, I have continued to inspect a variety of buildings and situations, including, but not limited to, schools, foster care houses, day cares, and various indoor and outdoor environments. For the most part, people are very receptive to any changes that they need to make to conform to current policies.

Mosquito Surveillance continued in 2015 as it has in previous years. There were a total of seventy (70) mosquito batches from Rye that were tested in Concord from June 15th to September 15th, all of these batches tested negative for Eastern Equine Encephalitis (EEE) and West Nile Virus (WNV). As in the past Rye continues to be proactive with regards to our mosquito surveillance.

Lyme disease, caused by the bacterium *Borrelia burgdorferi*, is a significant problem in New Hampshire. According to the Division of Public Health Services in our State the incidence of rates for this disease have increased in western and northern counties but have apparently stabilized in the southeastern part of the State. Cases of babesiosis and anaplasmosis related illnesses have increased over the last 5 years in New Hampshire. It is important that you check for ticks on yourself, your children and your pets after they have been outside, especially during the warmest months of the year.

The Parsons Creek Watershed assessment has documented high concentrations of bacteria in multiple locations within this area. It was deemed necessary to develop a health regulation mandating the pumping of septic tanks. This pumping-out needs to be done at least once every three years to promote proper operation of Onsite Wastewater Treatment Systems. This proposed health regulation is scheduled to be on the March 2016 ballot for residents to vote on.

I want to thank the Board of Selectmen, Town personnel and the Citizens of Rye for their cooperation and support. I look forward to my role as Health Officer in 2016.

Respectfully submitted.

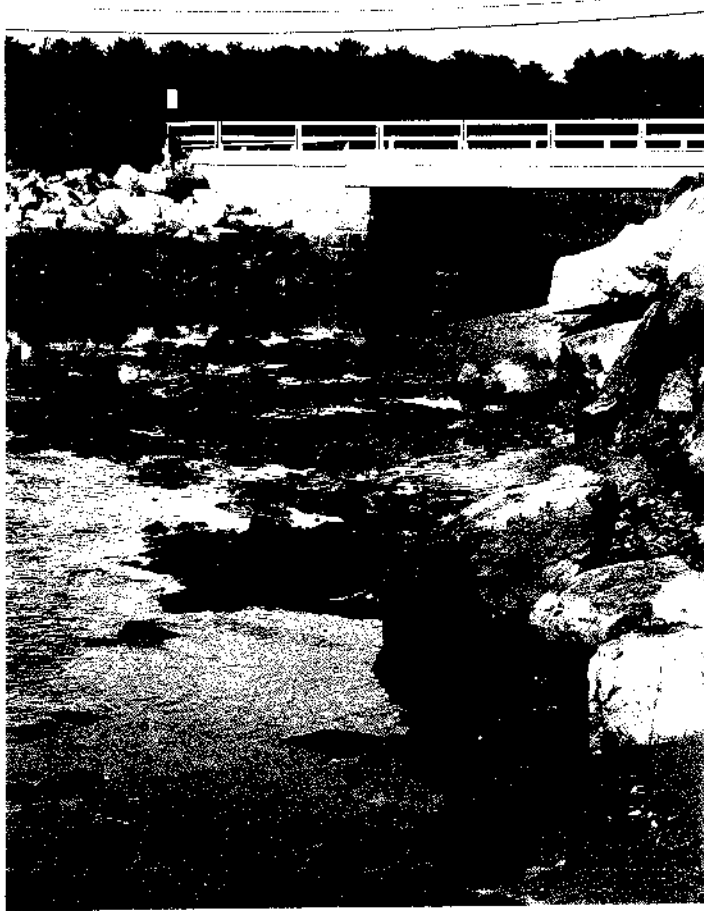

Gail A. Snow, M.D.
Health Officer

A glimpse into our past: *History of Rye, N.H., 1623-1903*, L.B.Parsons

RYE AS A SUMMER RESORT

"The Ocean Wave House at North Rye beach (which is shown on Morrill's plan as a part of Sandy beach, and is not so far north as Wallis Sands) was built in 1879 by Henry Knox. It is very near the shore and so situated and so planned that every sleeping room has a window from which a more or less extensive view of some part of the ocean can be had. At this beach and at Concord Point, which makes its northern boundary, there are many summer cottages; and perched here and there along a huge ridge of sand on the land side of Wallis Sands are many others, and new ones are being erected every year. On the ancient Wallis farm, which extends from the northerly end of Wallis Sands nearly to Odiome's Point, is a large and costly cottage erected by the late Prof. James Parsons, professor of law in the University of Pennsylvania, as a summer home, the place now being owned by heirs."

Parsons Creek Watershed Restoration A Work in Progress

The single entrance/exit to the Parsons Creek Watershed is located at Concord Point (*left*) and is known locally as Stinky Creek. Oversight of two DES Environmental Resources Grants by Planning Administrator Kim Reed has been ongoing since 2008 and continuous testing has identified septic systems as the primary source of bacteria in the Parsons Creek Watershed.

Failed septic systems are extremely difficult to detect if they were constructed in sand. Standing surface septic waste does not generally occur in these circumstances and dye testing is typically not effective.

Dogs capable of detecting human fecal waste have been part of the search for sources of contamination in the Parsons Creek area. (*below*)

Identification of inadequate septic systems will require time and effort, a number of creative solutions and the cooperation of homeowners throughout the Parsons Creek Watershed.

In March of 2016, voters will have the opportunity to approve a Septic Pump-out Ordinance as adopted by the Health Officer and approved by the Board of Selectmen.

Photographs: Kim Reed

HERITAGE COMMISSION'S REPORT

What a rollercoaster year for the Rye Heritage Commission. The majority of the Commission supported the renovation of the Rye Town Hall as put forth to the voters in March, 2015. The Warrant Article met all the safety and space needs for the town employees and committees plus preserved all of the historical elements, both inside and outside of the town hall building. The strong message sent back from the voters was 4.1 million dollars was more money than they wanted to spend.

The Selectmen appointed a new Town Hall Committee. More widespread "talk" about tearing the building down was heard. The response of the Rye Heritage Commission was to seek and obtain recognition for the building as one of the "Seven to Save" historic properties in the State of New Hampshire. The building is on the NH Division of Historical Resources list of historic properties which identifies the architectural and historical heritage of our state as an environmental asset threatened by rapid social and economic development. Two plaques commemorating this tribute hang at the entrances to the building. The Seven to Save recognition of the Rye Town Hall on October 21, 2015 opened connections to grants which could reduce the cost of renovations needed. [The cost to renovate was estimated by the designated builder in December, 2014 as approximately one million dollars.] Meanwhile, the University of New Hampshire Survey Center was engaged to determine the views of the citizens through a town-wide survey which received a remarkable 39% response. The results?

TEAR IT DOWN	21%
RENNOVATE AND ADD ON	62%
KEEP TOWN GOVERNMENT IN TOWN CENTER	61%
MOVE TOWN GOVERNMENT TO A DIFFERENT SIT	22%

Based on the Report of the 2015 Town Hall Committee, the Selectmen have proposed a Warrant Article which requests funds to explore the costs of five alternatives, at least two of which require tear down of the Rye Town Hall and are inconsistent with the above results of the survey.

The response of the Rye Heritage Commission is an alternative Warrant Article which removes *demolition of the Rye Town Hall building* from the options to be considered. The rationale for the Commission's Warrant Article is twofold. First, the members of the Commission are unanimous in the support of renovation of the iconic Greek Revival structure in the center of our town as an architectural embodiment of much of the history and culture of the town since 1839. Second, it is an unrealistic expectation that grants to renovate will be forthcoming until the threat of tear down is removed.

Meanwhile, the need for additional space has been reduced as a result of the relocation of the Recreation and Sewer Departments. Rye Town Hall can be renovated and preserved for most of the town's business requirements at a price more acceptable to the citizens as reflected in the UNH survey. Citizens believe that, as indicated by their financial support to the Heritage Commission, which is approaching twenty-thousand dollars toward seed money for future grants and for other efforts to preserve the Rye Town Hall building.

The Rye Heritage Commission was unsuccessful in preserving the old South Schoolhouse built in 1881 as its demolition came about suddenly and a public hearing called for by the Rye Demolition Review Committee did not elicit strong support for its rescue. The Commission will participate in the study of the fate of the historic Parsonage [cir.1810] in an effort to preserve the historic features. The Parsonage is located between the Library and the Safety Complex.

The Rye Heritage Commission enrolled several new members to the Adopt a Graveyard Program where individuals agree to clean and maintain one of over fifty private burial sites in the town of Rye. The Commission, in cooperation with the New Hampshire Old Graveyard Association, held a cemetery maintenance educational program at the Dow burial site which was well attended by young and old.

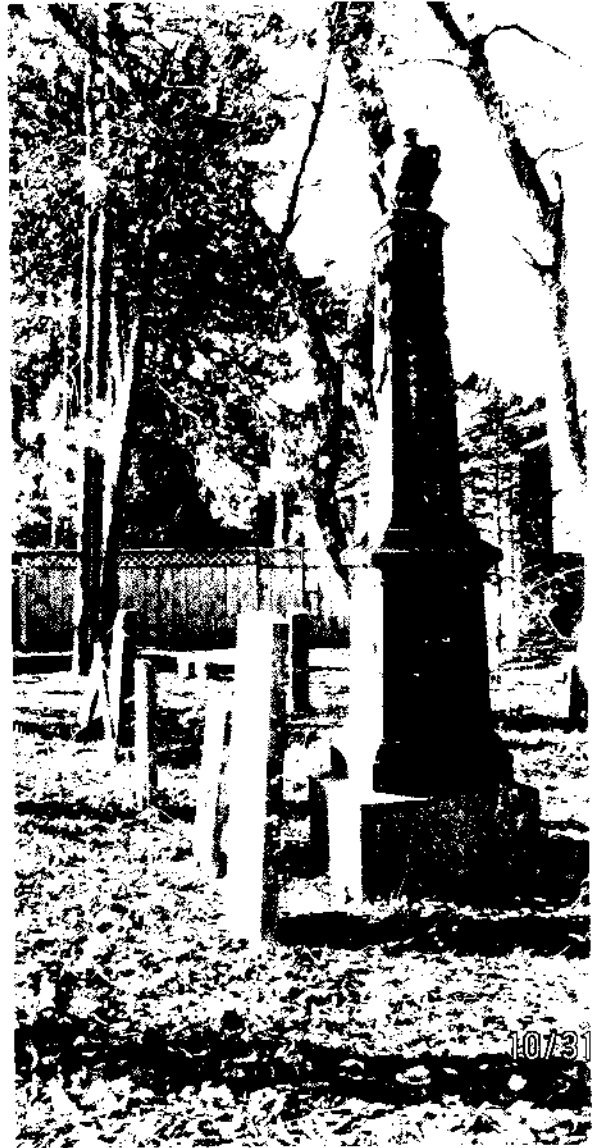

The Commission ended its year with a holiday celebration and presentation of the 4th Annual Louise Tallman Award for significant contribution to historic preservation in the Town of Rye. It was the Commission's great pleasure to honor historian, Alex Herlihy, for his dedication and commitment. Alex is a charter member and Vice President of the Rye Historical Society, the director of the Town Museum, a member of the Heritage Commission and a former member of the Rye Historic District Commission for twenty years. The Rye Heritage Commission meets at RyeTown Hall on the first Thursday of each month at 6:30 p.m.

Mae Bradshaw, Chair Rye Heritage

HERITAGE COMMISSION GRAVEYARD WORKSHOP

On October 31st, the Heritage Commission sponsored a workshop conducted by the New Hampshire Old Graveyard Association (NHOGA) at the Dow graveyard on Washington Road near Dow Lane. The object of this workshop was to demonstrate appropriate care of old graveyards. Rye has approximately sixty such sites. In 2015, through the Adopt a Graveyard Program, several old graveyards were "adopted".

Following selection of a leaning gravestone at the site, Richard Maloon, NHOGA member, demonstrated the proper method to upright fallen or leaning gravestones. Other NHOGA members instructed Heritage Commission members on removal of lichen and grime.

ABOVE:

At the Dow graveyard, the effects of time and gravity on the old headstones are apparent and they can be seen listing to the left and right.

LEFT:

Assisted by a spray of water (no harsh chemicals are used), Heritage Commission member Sara Hall scrubs away lichen with a bristle brush. The results of this process are well worth the effort.

HISTORIC DISTRICT COMMISSION'S REPORT

2015 was an exciting year for the Historic District Commission as we continued to work with the Star Island Corporation on their projects to become energy independent, reconstruct the west end of the Oceanic Hotel, and replace their aging septic system. In addition in 2015 the New Hampshire Preservation Alliance announced their selection of the “Seven to Save” buildings in the State with two of the seven buildings being in the Rye Historic District. The sites are the Rye Town Hall and the Oceanic Hotel on Star Island. (Details below)

We approved the Star Island Corporation's application for installation of a 130KW photovoltaic array (panels set on the ground) that will cover 10,400 square feet. This system was installed over the past ten months and will generate over 60% of the islands electrical power needs making it the largest off-grid photovoltaic array in New England. Provided that the system works as designed, plans are in place in the future to expand the system to produce 200KW of power with the expanded array taking up a 16,000 square foot footprint and providing almost all of the Star Islands power needs.

On October 21st the New Hampshire Preservation Alliance announced their selection of the “Seven to Save” buildings in the State. Seven to Save is a highly sought after designation that helps places in crisis to get broader attention, a boost from investors, and an opportunity to engage more people in creative solutions for important historic places. We were honored to have both the Rye Town Hall and the Oceanic Hotel on Star Island selected in the seven to save.

In 2015 we filled our last vacancy on the Commission and are pleased to announce that John Loftus has joined the commission as an alternate. We look forward to benefiting from the addition of John given his background as a custom home builder for over 25 years and his strong interest in New England Colonial Architecture. He is also a graduate of the US Merchant Marine Academy, has commanded ships up to 950 long, and has circumnavigated the globe. Welcome John!!!

Respectfully Submitted,
Phil Winslow, HDC Chairman

RYE HISTORICAL SOCIETY/TOWN MUSEUM REPORT

In February the keeper of Rye's 20th century family tales, David Herlihy, died. As a native who lived deep in Rye, his legacy will live on in what he taught us and in his homestead. RHS is only as good as its volunteers. If you know of another town treasure, please let us know at: alex@ryehistorical.org. See "Volunteer" on our website under the tab: "contact us."

We received several donations and welcome anything you think may be of value. David and Martha Shepard of Tennessee donated diaries kept by Supply Foss Trefethen of Rye from 1857 to 1907, RHS board member Steve Cash salvaged bricks from the South School for sale in our gift shop along with house plaques, etc. See our web site. The school bell is on display outside the museum. RHS is grateful to the Murphy family for saving the Rand's Lumber Co. barn.

"Access Rye History" is a new group representing the Rye Public Library, the Rye Junior High School and RHS. Its purpose is to seek grant funding to digitize primary sources from the museum's collection from 1850 to 1920, from the agricultural to the industrial modern world. These resources will be on the RHS web site – ryehistorical.org – for everyone.

Arcadia Books wants to publish a third volume about Rye focusing on the mid/late 20th century. It would complement the two earlier titles, "Rye and Rye Beach" (1995 & 2002). RHS cannot do this project with its current level of volunteers. If interested in helping, please contact RHS.

Rye's battle against the proposed Onassis oil refinery of 1974 will soon be profiled in a book RHS and others are working on. It will tell the larger story that includes Durham, but the focus is on Rye's success in blocking the effort to unload crude oil at the Shoals and pump it under our town to Great Bay. See "News" & "Newsletters" on our web site for on going details.

RHS held three public programs this year at the library and aims to have two in the spring and two in the fall of 2016. Watch for publicity on these and special programs at the museum. In an effort to encourage people to visit the museum when it is convenient for them or on impulse, RHS has a new museum policy: "Open Year Round on Request." Write the museum at the above e-mail or for more immediate gratification, call 997 6742. We are happy to oblige.

2016 marks the 40th anniversary of RHS. Understanding history can lead to personal fulfillment, becoming a better citizen and working toward improving our town and our nation. The Rye Town Museum, YOUR museum, is open to you anytime you ask. It welcomes and needs your interest and participation. Facing history: facing ourselves, our town and our nation.

Respectfully submitted,

Alex Herlihy, RHS

The Fourth Annual Heritage Commission
Louise Tallman Award
2015
Alex Herlihy

On December 11, 2015, the Rye Heritage Commission presented the fourth annual Louise Tallman Award to Alex Herlihy. Each year, this award is presented to a Rye resident who, through his or her contributions to our community, exemplifies the conservation, preservation and heritage ideals that the late Louise Tallman demonstrated on a daily basis.

We have all benefitted from Alex Herlihy's lifelong interest in history. Alex has served as the anchor for the Rye Town Museum since its inception in 1999: guiding its organization, serving as caretaker of its treasures, seeking additions to enhance the collections and offering to open the Museum "on call" for anyone interested. He was a custodian for the remnants of our Town heritage when the future museum consisted of a couple of display cases of artifacts located on the second floor of the Town Hall where offices are today.

His enthusiasm for preservation of Rye history and heritage remains boundless. It is apparent today through his work as a member of the Historical Society, which includes development of special displays and programs drawn from our past, but has been constant over time going back to participation in our Bicentennial Celebration in 1976 and beyond.

2015 Louise Tallman Award recipient Alex Herlihy stands to the right of Sara Hall, recipient of the first Tallman Award in 2012 for her work that resulted in placement of the Town Hall building on the New Hampshire State Registry of Historic Places. Names of Tallman Award recipients are inscribed on the plaque seen above and Alex's name will be added to those of Sara, Mel Low (2013) and Dr. Michael Mittleman (2014).

Photograph: Priscilla Jenness

THE OLD SOUTH SCHOOL 1881 - 1915

On May 1, 2015 the old South School was demolished. It had been built in 1881 and was located on Central Road near Love Lane to provide for scholars, grades one through grade eight, in that part of the town.

Since becoming a private residence about 1930, the cupola and bell of the school had served as a decorative well cover.

In 2015, before demolition of the building, the old South School bell was donated to the Rye Town Museum by the owner, Joseph Roy of Hampton.

LIBRARY DIRECTOR'S REPORT

Our outstanding Rye Public Library Staff: Lisa Breton-Eaton, Jim Chase, Juliette Doherty, Shawna Healy, Lisa Houde, Margaret Hutchins, Brianna Mastro, Brenda Nolette, Gwen Putnam-Bailey, Tricia Quinn, and Pam Woods, our dedicated Board of Trustees, and our extraordinary Friends of the Rye Public Library group, wish you the very best in 2016, and truly appreciate your patronage and support last year. Thank you!

As always, 2015 saw tremendous use of the Library by the Rye Community. Your patronage of last year's programs and events at RPL equated to a per-capita program attendance statistic that ranks us ninth in New Hampshire among all 231 communities reporting their numbers! In the category of materials circulated per-capita our "little Library that could" ranks third among Seacoast communities, behind only two other (much larger) libraries: Portsmouth and Hampton.

One of last year's major accomplishments was announced in October when, in fulfillment of a key objective of our 2012-2015 Three-Year Strategic Plan, Rye Public Library obtained NH State Register of Historic Places from the State Historic Resources Council. This statewide recognition plays a role in the Library's strategic planning objectives of helping establish a sense of place and community.

2015 also saw the close of our 2012-2015 Three-Year Strategic Plan. With a great majority of our three-year objectives accomplished, such as our Historic Register listing above, we began the good work of revising and retooling the Plan into the future. A volunteer committee of community members will meet monthly through early 2016 to assess progress and determine new directions.

After nomination by the Rye Public Library Board of Trustees over the summer, I was surprised and flattered to be the recipient of the New Hampshire Library Trustees Association Library Director of the Year award. On Tuesday evening October 13th NHLTA President Ed Moran traveled to Rye to present the award. A reception following the presentation was attended by the Board of Trustees of the Rye Public Library, members of the Friends of the Rye Public Library, library staff, town of Rye representatives and the public. This honor should be shared by the Library Staff, volunteers, and Rye community that work together to bring the Rye Public Library the success we enjoy. This award follows on the heels of last year's statewide recognition of the Friends of the Rye Public Library with the Sue Palmatier Award of Excellence for Library Friends Groups. Both plaques along with other significant historical RPL memorabilia can be viewed in the New Hampshire room at the Library.

Once again, we extend our sincere thanks to those in the Rye community who remember the Library through gifts, donations and memorial bequests. We truly appreciate our volunteers who give back to their community through their service at the Library. I sincerely thank our Trustees, Friends of the Library, and others who give so liberally of their time and talent to strengthen the Rye community through the Library. All of us here at Rye Public Library look forward to serving you in 2016!

Respectfully submitted,

Andrew Richmond, Library Director

RYE PUBLIC LIBRARY BOARD OF TRUSTEES REPORT

In 2015, Rye Public Library (RPL) continued to be the cultural and social heart of Rye. Whatever brings patrons in to the Library – to find a book, to do research, or attend a meeting or performance- they find friendly faces and a welcoming atmosphere. Our staff and patrons love our library and it shows!

RPL's 2012-2015 Strategic Plan has wound to a close with a majority of its objectives complete. A new volunteer Planning Committee has begun meeting to formulate the next Strategic Plan, this time to span five years and informed by the Space Needs and Utilization Study described in the next paragraph. We look forward to publishing the Plan on our website in the coming months. In the meantime, please contact Director Andy Richmond if you would like to participate in this process!

As set forth in last year's Trustees' Report, the Trustees have commissioned a Space Needs and Utilization Study from the architectural firm Lavallee Brensinger to assess existing conditions and operations. This study will help to develop conceptual notions, at a planning level, of any changes from existing conditions that would be appropriate and desirable to better satisfy the needs and expectations for the delivery of enhanced library services to all members of the community. This study will involve canvassing Rye citizens via a mailed questionnaire. Look for it in your mail and give us your thoughts so that your input can be included in the results of this study and ultimately inform Strategic Planning for the future of Rye Public Library.

RPL continues to stay open until 8pm on Tuesday, Wednesday and Thursdays, as well as Saturdays until 3:00pm. Annual statistics regarding library activity, particularly remote and e-reader usage, continue to trend upward. Director Andrew Richmond's 2015 report sets forth more detail on how we compare statewide.

The Trustees are particularly pleased this year that Director Andy Richmond was chosen by the New Hampshire Library Trustees Association to receive the 2015 Award for Director of the Year. This is statewide recognition of Director Richmond's professionalism, leadership and outstanding performance that contributes to the mission and goals of RPL. Director Richmond was characteristically quick to credit his staff with his success.

RPL continued to provide well-attended children's programs, film series for both adults and children, musical events, art exhibits and speakers on a wide variety of topics. The Friends of the Rye Public Library provides funding and artistic input on much of our cultural programming as well as the hospitality that goes along with it. The Board is grateful to have such an interested, proactive organization working to enhance the Library's community and cultural profile.

Philip Boynton and Karen Oliver successfully ran for re-election this year, providing continuity and consistency to the Board.

The Board of Trustees appreciates the hard work and dedication that goes into making our Library what it is, as well as the continued patronage and support of Rye's residents. We welcome your input in our upcoming Strategic Planning and look forward to a productive 2016!

Respectfully submitted

Karen W. Oliver, 2015 Chair,
Rye Public Library Board of Trustees

MOSQUITO CONTROL COMMISSION'S REPORT

Using the criteria of resident complaints and the number of mosquito pools testing positive for Eastern Equine Encephalitis (EEE) and West Nile Virus (WNV), it could be said that the Rye Mosquito Control Program in 2015 was successful. There were a couple of "hot spots" of mosquito activity and they were responded to within 24 hours. No sites in Rye tested positive for the sometimes fatal mosquito-borne illnesses of EEE or WNV.

Looking back as recently as 2008 the Rye Mosquito Control Budget was \$94,734. The budgeted amount for 2016 has been reduced to \$86,000. The Rye Mosquito Control Commission (RMCC) has modified its control strategies to accommodate the new budget amounts without compromising the health or enjoyment of the out of doors by Rye residents. The greenhead trapping program will continue but no new traps will be constructed for the new season. All the traps will be painted green instead of blue to better blend in with the marsh. According to some research blue is supposed to be the most attractive color for greenheads. The RMCC experimented with colors last year and found no significant change. The Swallow Nesting Box program will be suspended. It was started many years ago by local volunteers and the responsibility was unofficially transferred to the RMCC. The project was not favored by the Southeast Land Trust and its effectiveness was criticized by Matt Tarr, a wildlife biologist from UNH Cooperative Extension. In 2015 many of the nest boxes fell victim to predation, probably raccoons, resulting in the loss of eggs and nesting material.

The State of New Hampshire contains about 6,000 acres of salt marsh. The Town of Rye contains about 1,000 of those acres or 11% of the Town's total acreage. Proper management of these sensitive ecosystems is important for the following reasons: they are the home to hundreds of species of plants and animals; they act as a nursery for many commercially important fish and shellfish; reduction of mosquito breeding sites; and reduction of invasive species. Since 2004 the RMCC has been working with the NH Coastal program, the Rye Conservation Commission and others to develop a long range management plan for Rye's salt marshes. One of the primary goals of the plan would be to dramatically reduce the breeding areas of salt marsh mosquitoes. This natural form of mosquito control provides a long term effective solution to the problem and reduces the costs involved in less effective biological or chemical control methods.

In 2004 the Board of Selectmen in the Town of Rye passed a warrant article requiring that the Town actively consider alternative methods of mosquito control other than the traditional biological (Bti) and chemical (Pyrethrums) methods. Establishing an effective wetlands management plan certainly falls within that mandate.

Respectfully submitted,

Tom Aspinwall, RMCC Chairman

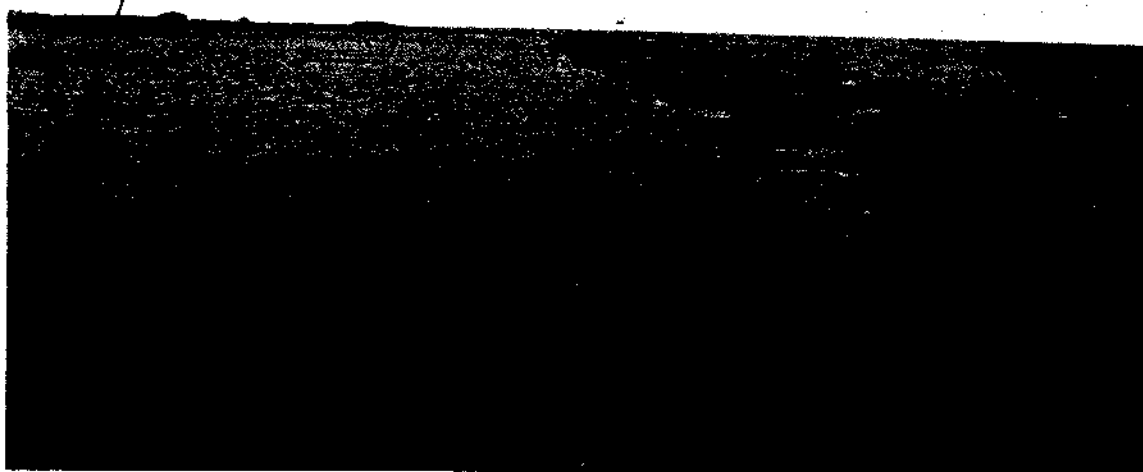

A glimpse from our past: *A History of Rye, N.H., 1623–1903*, L.B.Parsons

FERRIES, BRIDGES, AND ROADS

".....But the early settlers knew that it was easier to skirt a swamp than to flounder through it; or bridge it or build a causeway across it; easier to go around a hill than over it, easier to turn out for a ledge than to remove it, quite as well as any animal. The distances to be covered by roads were long, the labor and expense of building them very great, and the people few in number, widely scattered and of very limited means; no wonder they built their roads along the lines that presented the fewest obstacles, regardless of the number of curves and corners found necessary."

PREPARING FOR CLIMATE CHANGE BEGINS WITH AWARENESS

KING TIDE OBSERVATIONS AT RYE HARBOR

Looking more like a lake than the Atlantic Ocean, one reason for concern over rising tides was evident locally as water began to flow onto Harbor Road and neared the top of the jetty. We were fortunate that this King Tide did not coincide with a nor'easter.

Photographs: Priscilla Jenness

PLANNING BOARD'S REPORT

The following is a summation of the applications which came before the Planning Board during the year just ended, 2015. In total there were 18 applications as compared to 26 during 2014.

As expected, most of the applications before the Board were of routine nature: lot line adjustments, change of use permits, driveway exceptions and the like.

There were a few major applications that were submitted during the year, the first being an application to develop a significant parcel of land off of 561 South Road. The application requested permission to subdivide from the parcel an existing home and barn as Lot 1, and to develop 4 additional new lots. During the process there were a number of legitimate concerns on which the abutters and others needed clarification, not the least of which was the protection of the Cedar Run wells which lie toward the rear of the property. Additionally there were serious questions whether or not a driveway should be built over wetlands. At the end of discussions the joint decision was to place a portion of the backlands into conservation and reduce the number of new building lots to 3. The project was conditionally approved. As of today the road and infrastructure have been installed but no apparent new building is in progress.

The Board also deliberated on a project off Brackett Road for a 9 lot subdivision. As this project did not impinge on our wells and no significant wetlands were involved, the application was also conditionally approved after a thorough vetting by the Board, Town engineers and our attorney. This project is essentially complete and homes are being built, some completed and occupied.

In the next few months the Board will be considering the merits of a 3 lot subdivision off Wentworth Road at the site of an abandoned rock quarry.

Later in the year the Board approved a lot line adjustment that granted the Rye Middle School additional land that will be used for various activities, enhancing the overall educational experience at the Middle School.

Unfortunately not all applications that came before the Board were approved and some were never taken under jurisdiction. Where the location was not suitable for development, or had a major negative impact on the neighborhood, they were rejected by one process or another.

Another responsibility of the Planning Board through the Rules and Regulations Committee is to vet, change and recommend changes to the zoning ordinance and land use regulations. Recently we put forward a complete rewrite of our wetlands ordinances in conjunction with the Conservation Commission and Rockingham County Conservation District. This was not well received at the last public hearing. After a long discussion, it was decided to set it aside for a time and select a few interested parties to participate in an ad hoc committee to edit the documents and resubmit for next year's warrant.

One final note is that the Planning Board, along with the Town administration will continue to make decisions on how Rye will best be protected both now and into the future. All decisions are noted in various locations for your inspection. Please see the Town web site, streaming videos, and legal notifications to keep informed.

Respectfully submitted ,

Bill Epperson, Chairman, Rye Planning Board

POLICE CHIEF'S REPORT

Trust is built and maintained by small actions over time. Rye officers know that in order to achieve this they must listen to residents' concerns and points of view.

Since January 1, 2015, the police department has had seven heroin overdoses. Both police and fire departments were dispatched to all of them. Three people were arrested; two people were not because evidence could not be located at the scene. Of those overdoses, two people died. These types of calls for service are similar to those in other New Hampshire towns and cities. Rye is linking together with State and Federal authorities in exchanging information. The goal is to have the heroin source stopped or arrested. We are also assisting people with addiction problems by guiding them to resources in the form of helpful rehabilitation programs.

On April 21, 2015, Rye Police were dispatched to the Abenaki Country Club for a "hostage call". The caller stated that several people were taken hostage and were being injured at the same time. The Abenaki Country Club was hosting a "New England Country Club Managers" meeting. There were approximately 50 to 70 people attending the meeting and the club was also open to members, adding to the number of people at the location. The initial call for assistance was chaotic and took the help of five other police agencies to ensure safety. This call was a hoax. This type of call is commonly called "swatting". The case is still open and is linked to two other similar "swatting" calls in NH and MA. Currently, we are waiting on some results from the FBI. The FBI is linking these investigations with others that have happened across the country. NH police are sharing resources and information with the goal of solving this type of crime.

The Rye Police Department experienced many challenges during 2015. From August 26, 2014 to January 6, 2016, an officer was out on medical leave for an on-the-job injury. The officer decided to resign in January 2016. That officer being out of work for that amount of time made things tough within the department. The schedule was adjusted to prevent over working the officers and to control budget costs. During 2015, officers worked extra hours because of this absence and had to work together cooperatively to adjust their vacation time in order to cover all shifts.

Officer Gauthier graduated from the full time police academy. The newest officer position, approved by voters in March, has been filled by Officer Mark Lynch. A second open vacancy, the result of Officer Shawn Carlson's resignation, was filled by Officer Dan Fuglestad. Both officers Lynch and Fuglestad are currently enrolled in the full time police academy and are expected to graduate in April of 2016.

Thank you for your continued support. The following is a list of annual statistics of the Rye Police Department for 2015:

8,247 calls for service	304 arrests	283 alarms
1,564 motor vehicle stops	98 accident investigations	531 animal control
58,911 hang up calls	268 medical aid calls	32 domestics
26 juvenile issues	7 burglary reports	65 thefts
\$49,717.19 parking fines collected		
\$ 9,936.00 court fines collected		
\$65,625.50 outside details		

Respectfully submitted

Kevin Walsh, Chief
Rye Police Department

PUBLIC WORKS DIRECTOR'S REPORT

This year was a very challenging winter for the department. Fortunately, most of the snow was of the very light and fluffy kind. While the number of events which the department responded to was not extraordinary, the inches of accumulation certainly was. Snow accumulation was eighty percent (80%) greater than the average of 60 inches normally anticipated. Final snowfall accumulation in 2015 totaled 110 inches. The department recorded a total of 23 weather events; 18 were snow events and 5 were ice only. The snow events averaged approximately five inches of accumulation per event. 984 tons of salt at a total cost of \$56,740, was deployed on the roadways to maintain safe road conditions.

The department specified, bid, and purchased a new one ton Ford utility truck to replace truck 104, which was a 2006 Ford pickup.

The fifth year of the crack sealing program saw the completion of Sagamore Road, Acorn Acres, Causeway Road and Rock Orchard Lane, all treated with crack sealant. In addition, The section of Wallis Road, from Washington Road to Sagamore Road, and a section of South Road, from the North Hampton town line to West Road, were re-treated with crack sealant.

The Town's storm water drainage consultant, Wright-Pierce, began the survey, design, and permitting, for two new concrete box culvert on Red Mill Lane. This work is a continuation of a multi-year drainage improvement program begun in 2013. This phase of the work is anticipated to be put out to bid in 2016 and completed in 2017.

The fourth and final section of Brackett Road, from Wallis Road to Geremia Street, was shimmed and overlaid with asphalt to restore the road cross slope and add additional structural strength to the road surface. Geremia Road was also paved in a similar manner. The third phase of the repaving of Central Road was completed with the application of shim and overlay asphalt from Washington Road to Locke Road. This work is the third of five yearly phases of repaving which will be necessary to complete the repaving of Central Road, from Ocean Boulevard to the center of town. Also repaved this year was Meadow Lane, a short section in front of the Post Office, and the Congregational Church driveway which is town property. In all, approximately 2,500 tons of bituminous asphalt was applied to the town's roads this year at a cost of approximately \$200,000.

The Transfer/Recycling Station processed 1,196.0 tons of household rubbish, 189.2 tons of wood, 399.8 tons of Demo/Debris, 222.7 tons of mixed paper, 68.8 tons of cardboard, 43.4 tons of newsprint, 96.0 tons of scrap metal, 241.2 tons of glass, 11.5 tons of aluminum cans, 24.5 tons of plastic containers, 10.3 tons of miscellaneous electronics, 165 gallons of waste oil, and 292 tires. Excluding the wood, tires, demo/debris, electronics, waste oil, and metal, the town residents diverted approximately 543.3 tons of material through the transfer station from disposal in the landfill. This diversion represents a cost avoidance of approximately \$33,141 in tipping fees and a recycling rate of approximately 31%. In addition, the facility realized approximately \$57,410 in revenues from transfer station receipts and sale of recyclables, a decrease of approximately sixteen percent (16%) from last year. The decreased recyclable revenue is due once again to a softening in the recyclable market which has been experienced over the past several years, and is expected to continue.

Eighteen (18) new driveways were permitted in town; along with thirty (30) paving permits and twenty-nine (29) excavation permits being issued by the department. These represent increases over last year's permitting of 28%, 15% and 50%, respectively.

The department contracted with Street Scan, Inc. of Burlington, MA to perform a fully automated pavement condition survey of all 45 miles of the town's roads. A survey vehicle automatically assessed each meter of road surface for cracking, potholes, rutting, distortion, weathering, and roughness. Each road was then automatically assigned a nationally recognized pavement condition index (PCI) number between 1 and 100. From this information analysis can be made for the establishment of a multi-year road improvement program, which will be implemented next year.

I wish to thank the Public Works Staff; the Board of Selectmen, Town Administrator, and Town Hall staff for their assistance and support; the Energy and Recycling Education Committees for their enthusiasm; and all the town residents without whose input and cooperation the department could not function.

Respectfully submitted,

Dennis G. McCarthy, Public Works Director

RECREATION COMMISSION'S REPORT

The Rye Recreation Commission believes that recreation provides a critical foundation for the quality of life that makes Rye unique. Recreation is essential to the health and well-being of the individual residents and the community of Rye. Recreation activities and services have far-reaching personal, social, economic and environmental benefits. The role of Rye Recreation is to ensure that a broad range of recreation opportunities is available and accessible for all residents and that these are consistent with the needs and interest of the community and the space and resources available.

This year a Rye Recreation Facilities Needs Assessment Committee was formed and a charge was developed. The committee members are Doug Abrams, Randy Crapo, Shawn Crapo, Tom Degnan, Priscilla Jenness, Beverly Levesque, Gregg Mikolaities, John Provencher and Garritt Toohey. The committee will work with Christopher Williams Architects to define the Rye Recreation facilities and space needs, including future needs. The Rye Recreation Office was relocated to the Recreation Area Modular in November of 2014 and has settled in nicely over the past year. The added space and proximity to programs has aided in the efficiency of operations. The parking lot at the recreation area was marked to better identify no parking areas. The After School Program Staff Training Program was reevaluated and improved to include monthly training opportunities and expert online training. An employee handbook for the After School Program was developed. Rye Recreation continues to work on switching to an integrated registration and web based computer program, but the process has taken longer than anticipated and its implementation is anticipated for 2016. The computer program meets the existing computer operating system requirements, has the potential to accept online registrations, and perform other tasks that will enhance the efficiency and effectiveness of Rye Recreation's administrative functions.

Rye Recreation continued to offer a broad range of recreation and sport opportunities in 2015. The Active Alive and Over 55 Club offered seven day trips and nine lunch programs where more than 450 meals were served. The Over 55 Fitness Program continues to grow with the addition of a second stretch and flex fitness class each week and the continuation of the ever popular cardio and toning fitness class, walking group and sticks and stitches group. Other programs offered include basketball league, pick-up and open court basketball, indoor tennis lessons, golf lessons, gyrokinesis classes, lego robotic workshops, paddle board lessons, ski and snowboard lessons, soccer league, surf lessons, yoga classes and workshops, babysitter courses, adult and infant CPR courses, first aid courses, summertime horizons day camp, lego robotics camp, baseball camp, basketball camp, golf camp, skateboard camp, soccer camp, surf camp, yoga camp and a speakers series on nutrition. The After School Program services a very important need in our community and is open to kindergarten through fifth grade students. It is held at Rye Elementary School and operates 2:45-5:50 p.m., Monday through Friday, during the school year.

Rye Recreation, Rye Police Department, Rye Fire Department and Planning Department held the 8th Annual Rye Bicycle Rodeo. Rye Art in Bloom has been held for the past fifteen years and is a successful community event hosted by Rye Recreation and Webster at Rye. Other events sponsored by Rye Recreation in 2015 were child care for the Town's Deliberative Session, the Independence Day Celebration and the Memorial Day Ceremony, which includes a poster and poetry contest.

We were saddened this year by the passing of former Recreation Commissioner, John Sexton. He contributed greatly to recreation and sport in our community and will be dearly missed. The Rye Recreation Commission is a voluntary board that meets monthly. Current Commissioners are Janet Stevens, Chairperson, Cory Belden, Stacey Brooks, Maggie Duffy-Durkin, Gregg Mikolaities, Brett Mulvey, and Judy Scott. Full time employees include Lee Arthur, Recreation Director, Kelley Gallant, Programs Supervisor, and Victoria Loring, Administration and Programs Assistant.

Respectfully submitted,
Janet Stevens, Chairperson

SEWER COMMISSION'S REPORT

The Rye Sewer Commission is responsible for the administration, billing, operation and maintenance of the Rye Sewer District. At the end of 2015, Rye had 545 parcels connected to the sewer system, including one new connection. The Commission also administers the billing and operation of Adams Mobile Home Park, which is connected to the City of Portsmouth Sewer System. One hundred percent of the cost to discharge wastewater to the City of Portsmouth Waste Water Treatment Plant (WWTP) is recovered. The Atlantic Grill, located at Foyes Corner, is also connected to the City of Portsmouth Sewer System. The private sewer line has been turned over to the City of Portsmouth and they are now responsible for the administration, billing, operation and maintenance of the line.

The Rye collection system was constructed in the early 1990's and consists of 6.9 miles of gravity sewer. The whole sewer system has been inspected using closed circuit television (CCTV). In 2015, the sewer system GIS mapping was updated and the CCTV sewer inspection data was added. The air release manholes and blow off chambers that are part of the force main on Route 1A in North Hampton and Rye were pumped, inspected and photographed. The property under easement, where the Church Road Pump Station is located, was cleared and five manhole structures within the easement were repaired.

Rye has three pump stations that are remotely monitored daily and inspected weekly. In 2015, the controller at Church Road Pump Station was upgraded, a transducer was installed into the wet well, the rotating assembly for pump one was replaced, and a back-up pump assembly was purchased. A high wet well float was installed at Jenness Beach Pump Station and the rotating assembly for pump one was replaced. The wet wells at all three stations were cleaned and the system flushed.

In May, New England Utility Contractors Inc. was installing a natural gas line for Unitil in North Hampton and hit Rye's force main. The pumps at Church Road Station were shut down to stop flow and the wet well was pumped. The waste water was transported to Hampton and the line was repaired. Unitil reimbursed Rye for the cost incurred from the event.

Station maintenance is contracted out to the Town of Hampton as the Town of Rye wastewater collection system discharges to the Town of Hampton and is treated at Hampton's WWTP. The sewer department is responsible for contributing to the Waste Water Treatment Plant capital expenditures in Hampton as part of the Agreement for Treatment and Disposal of Wastewater between the Town of Hampton and Town of Rye. The Town of Hampton has agreed to process Rye sewage until November 17, 2019. One hundred percent of the sewer department budget is covered by fees to users. Rye is a co-permittee on the Town of Hampton's NPDES Permit and subject to EPA and DES reporting as well as requirements. As a result, a Collection System Operations and Maintenance Plan Summary Report is filed annually.

To install sewer pipes and make sewer connections in Rye you must be licensed by the Town. There is also an application process for the installation of a secondary usage water meter. In 2015, three installer's licenses and one secondary usage water meter application were processed.

We were saddened this year by the passing of a former Rye Sewer Commissioner, William Ladrie and former Clerk of the Works, Walter Parenteau. Both men contributed significantly to sewer operations in Rye and will be dearly missed. The current sewer commission consists of David W. Kohlase, Chairman; Peter G. Kasnet, Vice Chairman; David M. Adams, Commissioner, and Lee Arthur, Administrator. Sewer commission meetings are held the second Tuesday of each month at 8:00 a.m. in the sewer office located on the second floor of the Rye Beach Village District Building, 830 Central Road, Rye Beach, NH. The sewer commission office is open Monday - Friday, 9:00 a.m. - 12:00 p.m.

Respectfully submitted,
David W. Kohlase, Chairman
Rye Sewer Commission

SOUTHEAST REGIONAL REFUSE DISPOSAL DISTRICT 53B

Southeast Regional Refuse Disposal District 53B was established in 1998 under RSA Chapter 53-B. The District is authorized to provide four facilities: recycling, landfill, septage and waste-to-energy. Each member municipality can participate in one or more of the District's facilities and the various costs and expenses are apportioned among the members. Also provided is flexibility in developing solutions to joint solid waste problems.

The District is presently made up of six member towns: Brentwood, Fremont, Kensington, North Hampton, Rye, and Sandown.

In anticipation of the June 30, 2015 expiration of the contract with Waste Management, the Board hired Dan Hoefle of Hoefle, Phoenix, Gormley and Roberts, as well as CMA Engineering to help the District navigate and negotiate the process of procurement of a new solid waste service contract. The member Towns have all signed joinder agreements with Waste Management with a tipping rate of \$61.85. Beginning January 1, 2015 the members realized substantial savings from the 2014 rates of \$72.19 for solid waste and \$87.14 for construction & demolition material.

June 30, 2015, four member towns withdrew from the District: Hampton, South Hampton, Hampton Falls and New Castle.

In 2015 Household Hazardous Waste Day events were held on May 30, 2015 in Hampton and on August 29, 2015 in Brentwood. Both events were very successful with Hampton serving 367 households and Brentwood serving 167.

Effective April 1, 2015 the Board of Southeast Regional is as follows:

Chairman	Everett Jordan – Rye, NH
Vice Chairman	Dennis McCarthy – Rye, NH
Treasurer	John Hubbard – North Hampton
Secretary	Alfred Felch – Kensington, NH

Respectfully submitted.

Everett (Bud) Jordan, Chairman
Southeast Regional Refuse
District 53B

A glimpse into our past: History of Rye, N.H., 1623-1903. L.B.Parsons

SCHOOLS AND SCHOOLHOUSES

"The early settlers, and those who followed them, during the first two centuries of New England's existence, progressive and far-seeing through they were in providing means of education for their children, did not recognize the need or desirability of a schoolhouse having any more land attached to it than it actually occupied, and consequently, cheap though land was in those days, all schoolhouses were built with their front sills flush with the line of the roads they stood on, or very near to it. Children were sent to school to study, not to play; and if they wanted to play at recess they could play in the road. Rye was the same in this respect as other towns, and it was not till toward the middle of the nineteenth century that the idea of having play grounds, more or less spacious, connected with school buildings, began to prevail; and the older residents of the town remember well that when they attended school they stepped from the road directly into the schoolhouse, and from the schoolhouse directly into the road again when the day's studies were over. It is different now, all the present school buildings of the town being provided with good ground room for the scholars to play in."

TOWN OF RYE
GENERAL ASSISTANCE REPORT – 2015

NH state law (RSA165) requires municipalities to “relieve and maintain” those within the city or town who are “poor and unable to support themselves”. This broad mandate, tested and re-affirmed repeatedly over the past 200 years, leaves towns subject to wide variations in cost. The variability from year to year is unpredictable. We strive to minimize the Town’s costs through careful case management and referral to other sources of financial assistance and support, but there will always be more families in need, and more emergencies to confront. At any given time, a small number of Rye residents experiencing a lengthy period of unemployment or illness can increase general assistance expenditures with little notice. The General Assistance law exists to protect the municipalities’ residents from impoverishment and homelessness, as a result of these setbacks.

FY2015 expenditures decreased by 33% from FY2014. Assistance of \$13,661 is secured by several property liens which will eventually return the funds to the Town. The elimination of prescription expense during the recent fiscal year can be directly linked to the State of NH Premium Assistance Program, also know as expanded Medicaid.
